Miles, 2013-10-01 RADIOACTIVE CLOUDS OF DEATH OVER UTAH From 1950 to the 1958 moratorium on atmospheric testing the Atomic Energy Commission detonated over 100 atomic bombs at the Nevada Test Site The inhabitants of St George Utah the so called downwinders were repeatedly in the fly zone of these toxic windblown clouds so much so that St George became known nationwide as Fallout City USA In the fall of 1979 Stewart Udall along with a team of lawyers came to St George to announce plans for a class action lawsuit against the United States because the local people were struggling with tragedies inflicted by a cancer

epidemic foisted on them by the Atomic Energy Commission After interviewing 125 people during a four day period the Washington lawyer said that cancer rates in the area were three or four times greater than normal Many people in southwestern Utah believe that thousands of citizens throughout the West are still dying from radiation exposure inflicted on them by fallout from the Nevada Test Site during the 1950s The author has spent decades investigating the Test Site issues He was living in St George Utah during the atmospheric testing period in the 1950s He knows the people He has read every local paper from the period counted the tombstones tracked the anecdotes to ground and studied the dozens of scientific studies on the impact of fallout on the health of the local people This book is the result of that investigation The author Dr Daniel W Miles Professor Emeritus Dixie State College received his Ph D from the University of Utah in 1967 He taught upper division physics including radiation physics at Westminster College from 1968 to 1985 and continued his teaching career at Dixie State College He is the author or coauthor of fortytwo publications in peer reviewed scientific journals

mind about child narrators *The Book Bag* It was a challenging read in terms of exploring the often taboo issue of domestic violence between women which makes this a hugely important novel Exploring a narrative which is too often kept private but nevertheless desperately needs to be told Allie Rogers is unflinching in her descriptions of bullying and brutality which can be found within relationships For this she deserves to be congratulated Jess Richards Via a unique compelling utterly original voice and characters I loved from page one *Tale of a Tooth* tells a critical timely heart breaking story of a little boy and his mother navigating the hard parts of life with grace and wisdom and most importantly each other Laurie Frankel *The Case of the Radioactive Redhead* G. G. Fickling, 1963 **The Story of the Cattle-fever Tick** Chris Lauriths Christensen, Edith Marion Patch, Guy Stanley Meloy, Inman Fowler Eldredge, Mabel Hunt Doyle, Mary Aloysius Agnew, Michael Shapovalov, Ruth O'Brien, William Allison Lloyd, Maude Campbell, 1927 This publication provides a section which gives a brief description of the various offices within the United States Department of Agriculture and their functions followed by a directory and an Index of Names **The Pygmy Hippo Story** Phillip T. Robinson, Gabriella L. Flacke, Knut M. Hentschel, 2017-03-01 Though the pygmy hippopotamus has been designated as a flagship species of West African forests meaning that by raising conservation efforts for a single species an entire ecological region could benefit very little research has been published on the animal They are solitary nocturnal and highly evasive and until recent developments in camera trap technology they were considered the least photographed large mammal species in the world The information currently available on this endangered species is scattered limited redundant and often inaccurate and no major volume exists as a resource for those interested in the conservation effort for the species until now Phillip Robinson and his coauthors provide a treatment of the natural history biology and ecology of the pygmy hippo along with a discussion of the rare animal's taxonomic niche and a summary of the research initiatives involving it up to this point The authors show the ways in which the pygmy hippo has come into contact with people in West African countries both in terms of ecological and cultural impact This creature has been the subject of local folktales and is treated as almost mythic in some regions Information on issues related to captivity breeding and zoos is provided The book is heavily illustrated with original photographs and anatomic drawings The project should be of use to conservation biologists zoologists and natural history readers and will be the definitive single volume account of an animal that the scientific community has designated to be ecologically significant to West Africa Politics of Oil and Nuclear Technology in Iran Akbar E. Torbat, 2020-02-19 This book focuses on oil politics and the development of nuclear technology in Iran providing a broader historical context to understand Iran's foreign relations and nuclear policy The author assesses Iran's encounters with the West in light of major confrontations both in terms of open conflict as well as controversies surrounding treaties with foreign powers In seeking to understand the geopolitics of oil in direct parallel to the geopolitics of nuclear technology the book concentrates on Iran's struggles to nationalize its oil neo colonialism the formation of the oil consortium and the more recent US backtracking on the nuclear deal with Iran *Atoms for Peace Manual* United
