C-130 Hercules in the RAF Clive Bennett,2018-05-15 A highly illustrated celebration of fifty years of the Hercules in service with the Royal Air Force *46 Miles* Jarra Brown,2015-06-24 When Jarra Brown hears church bells he cannot fail to be reminded of the hundreds 345 to be precise of service personnel who passed through the beautiful rural Wiltshire countryside into Oxfordshire These men and women were not hiking across its green pastures or sitting on top of the number 55 bus instead they were lifeless resting inside a coffin draped with the Union flag By the end of August 2011 the bells of St Bartholomew s Church in Wootton Bassett had tolled more times than the residents of this once peaceful town cared to think about for each chime represented the moment the police convoy accompanying the hearse from RAF Lyneham entered the High Street A moment frozen in time a moment when the residents of this town came to show their respects a moment that couldn t have been more fitting even if it had been choreographed There was no call to arms by the Town Crier just a spontaneous modest and unprompted response to those who had paid the ultimate price in the name of duty 46 Miles is not a book about the politics of war the whys and wherefores of the Iraq and Afghanistan conflicts or indeed the hidden agendas and government strategies It is about a town which captured the hearts of our nation and whose emotions rippled the entire 46 mile journey of honour dignity and respect into Oxford It is dedicated to those 345 people who having signed up to serve their Queen and country paid with their lives Wootton Bassett who nurtured the grieving on every occasion wanted to let the nation know that these heroes will never be forgotten The Armed Forces of the United Kingdom, 2007-2008 Charles Heyman,2007-01-31 This comprehensive pocket guide includes full and up to date details of all British military organizations and structures This edition includes detail regarding all of the UK MoDs latest future force proposals The Armed Forces of the United Kindom 2007 2008 is an invaluable reference tool and essential reading for all those who wish to be informed of the current state of the UKs defence forces *The Handley Page Victor: The History & Development of a Classic Jet* Roger Brooks,2007-11-12 The first volume of Roger Brooks detailed reference to the Victor covers the conception design and test

flying of the prototype HP 80 and then the production and operation of the Mark 1 in its many roles This second volume completes the history of the aircraft by describing the improved Mark 2 that was primarily conceived to carry Britains Blue Steel nuclear deterrent The aircraft was to be re engined with the Rolls Royce Conway and the enlargement of the air intakes in the wing are one of the more noticeable external differences on these models When the V Bomber Force lost its primary raison detre as the delivery vehicle for the nuclear deterrent the Victors were adapted for the air to air refueling tanker role a task they successfully carried out until their airframe life was exhausted This volume also includes lengthy appendices on all Marks that include a mass of detailed historical information the testing of many new systems modifications throughout service life the authors first hand experiences as a Victor crew chief operational records and a complete list of all Victor accidents with a detailed analysis and official reports

Exocet Falklands Ewen Southby-Tailyour, 2014-04-02 A fascinating account of three SAS missions to counter the Exocet missile from ill thought out ideas to near suicidal one way trips onto enemy soil Soldier Magazine This is a revelatory account of three un tabulated special forces operations PLUM DUFF MIKADO and KETTLED RUM that were tasked to destroy Argentina s Exocet missiles during the 1982 Falkland s campaign Interviews with the SAS officer commanding Operation PLUM DUFF members of the reconnaissance patrol for Operation MIKADO plus the navigator of the helicopter that flew eight troopers into Tierra del Fuego has allowed the author to describe the tortuous events that led instead to a significant survival story The RAF pilots ordered to conduct an assault landing of two Hercules onto Rio Grande air base during Operation MIKADO have spoken of the extraordinary procedures they developed so have the commander of the SBS and the captain of the British submarine involved in Operation KETTLED RUM The Super tendard pilots who sank HMS Sheffield and MV Atlantic Conveyor and then attacked HMS Invincible plus a key member of the Argentine special forces and the brigadier defending Rio Grande add credence depth and gravitas to the saga as does an equally revealing interview with the SIS MI6 officer who led the world wide search for Exocets on the black market

Disturbing over confidence by commanders at home was finely counter balanced by stirring accounts of inspiring physical and moral courage across the South Atlantic *Exocet Falklands* is a ground breaking work of investigative military history from which many salutary lessons can be learned Between politics diplomacy and barbouzeries this well documented work will lead you in the arcane of what should have changed the course of this war Air Fan

The Royal Air Force in the Cold War, 1950-1970 Ian Proctor, 2015-01-30 Soon after the Second world War wartime allies became Cold War adversaries and by 1950 the perceived threat of a Soviet strike on Western Europe or Britain dominated military planning For the next forty years the Royal Air Force was in the front line of the Cold War In Britain and Germany light bomber crews exercised in preparation for a future conflict while interceptor pilots stood by ready to counter incursions by Soviet aircraft Between 1956 and 1969 the elite crews of the iconic V Force of nuclear bombers trained to perform the ultimate mission striking targets deep in the heart of Russia Protecting British interests overseas personnel at stations across the Middle East and Far East

were regularly engaged in supporting operations during the many colonial conflicts which occurred throughout the 1950s and 1960s Undertaking these duties were new British designed aircraft introduced to squadrons from the early 1950s The names of these extraordinary aircraft which included the Hunter Lightning Vulcan and Canberra became synonymous with the Cold War In this book Ian Proctor uses over 150 highly evocative colour images from a single remarkable Air Ministry collection to portray the RAF and its personnel between 1950 and 1970 He provides a selected insight into service life the aircraft recruitment and training and the operations and exercises undertaken by the RAF during a twenty year period of the Cold War

The RAF's Armourers Tony Lamsdale, Phil Appleby, 2023-11-23 It is said that one of the earliest trades in the world is that of the armorer Historically it is a profession dated slightly after prostitution but well before banking Since the birth of the Royal Flying Corps in 1912 through to the modern Royal Air Force the role of the armorer has been pivotal Not for nothing did the founder of the RAF Lord Trenchard once declare The armorer without him there is no need for an air force In the years since the need for RAF armorers was first recognized it has been a role that has evolved with the times What has remained constant however is the fact that it is still a fascinating and potentially dangerous trade with many different branches and specialisms In this book the authors one of whom Tony Lamsdale is himself a former RAF armorer reveal the previously untold story of how the trade has adapted to the most modern of military machines the aircraft The authors look at the shared history of the armorer and the RAF through the eyes of those who served These veterans stories span decades and their first hand accounts and insights into conflict and peace time operations demonstrate the qualities and characteristics that make armorers unique The book starts with a brief history of the armorer then before capturing the adventures and exploits of RAF armorers from the Second World War and on into the Cold War The dangerous duties of the armorers on deployment in such places as the Falklands Iran Iraq or Afghanistan are all explored There is also the question of having to learn of bomb dumps the use of small arms and the unique world of the armorer with its own peculiar language and the camaraderie of the crew room With each chapter brought to life through personal anecdotes and shared experiences this book provides an insight into an utterly essential role which has remained largely hidden until now

Bird,2023-08-17 The definitive account of the Vulcan raids taught me something new on every page Rowland White author of the bestselling Vulcan 607 A newly researched fully illustrated account of how RAF Vulcan bombers flew a series of the world's longest air raids in 1982 against Port Stanley airfield in a daring hastily improvised strike against the Argentinian invaders The RAF's opening shots of the Falklands War were among the most remarkable airstrikes in history The idea was simple to destroy the runway at Port Stanley and prevent Argentinian fast jets using it against the Royal Navy task force But the nearest British owned airfield was Ascension Island 3 900 miles away from the Falklands Researcher and historian Andrew D Bird has uncovered new detail of what really made these extraordinary raids possible including never before published information and photos demonstrating the discreet support provided by the United States Packed with spectacular original artwork and rare photos this book explains how these hugely complex yet completely improvised raids were launched This is also the story of how the last of the Vulcans only a few months away from the scrapyard had to be hastily re equipped to carry conventional bombs with bombsights electronics and navigation systems borrowed from other aircraft Yet they managed to fly what were the longest range air attacks in history and struck a severe blow to the occupying Argentinians

Fighters Over the Falklands: Defending the Islanders' Way of Life David Gledhill,2014-03-27 *Fighters Over the Falklands* captures daily life using pictures taken during the author s tours of duty on the Islands From the first detachments of Phantoms and Rapiers operating from a rapidly upgraded RAF Stanley airfield to life at RAF Mount Pleasant see life from the author s perspective as the Commander of the Tornado F3 Flight defending the islands airspace Front line fighter crews provided Quick Reaction Alert during day to day flying operations working with the Royal Navy Army and other Air Force units to defend a remote and sometimes forgotten theatre of operations It will also look at how the islanders interact with the forces based at Mount Pleasant and contrast high technology military operations with the lives of the original inhabitants namely the wildlife

War Dog Al J. Venter,1904-07-20 Mercenaries have been with us since the dawn of civilization yet in the modern world they are little understood While many of today s freelance fighters provide support for larger military establishments others wage war where the great powers refuse to tread In *War Dog* Al Venter examines the latter world of mercenary fighters effecting decisions by themselves In the process he unveils a remarkable array of close quarters combat action Having personally visited every locale he describes throughout Africa and the Middle East Venter is the rare correspondent who had to carry an AK 47 in his research along with his notebook and camera To him covering mercenary actions meant accompanying the men into the thick of combat During Sierra Leone s civil war he flew in the front bubble of the government s lone Hind gunship piloted by the heroic chopper ace Nellis as it flew daily missions to blast apart rebel positions In this book the author not only describes the battles of the legendary South African mercenary company Executive Outcomes he knew the founders personally and joined them on a number of actions After stemming the tide of

Jonas Savimbi's UNITA army in Angola an outfit many of the SA operators had previously trained Executive Outcomes headed north to hold back vicious rebels in West Africa This book is not only about triumph against adversity but also losses as Venter relates the death and subsequent cannibalistic fate of his American friend Bob MacKenzie in Sierra Leone Here we see the plight of thousands of civilians fleeing from homicidal jungle warriors as well as the professionalism of the mercenaries who fought back with one hand and attempted to train government troops with the other in hopes that they would someday be able to stand on their own The American public as well as its military largely sidestepped the horrific conflicts that embroiled Africa during the past two decades But as Venter informs us there were indeed small numbers of professional fighters on the ground defending civilians and attempting to conjure order from chaos In the process their heroism went unrecorded and their combat skill became known only to each other In this book we gain an intimate glimpse of this modern breed of warrior in combat Not laden with medals ribbons civic parades or even guaranteed income they have nevertheless fought some of the toughest battles in the post Cold War era They simply are and perhaps always will be War Dogs

AL J VENTER has been an international war correspondent for nearly thirty years primarily for the Jane's Information Group He has also produced documentary television films on subjects from the wars in Africa and Afghanistan to sharkhunting off the Cape of Good Hope Among his previous works are *The Iraqi War Debrief* Why Saddam Hussein Was Toppled and *Iran's Nuclear Option* Tehran's Quest for the Atomic Bomb A native of South Africa he is currently resident in the United Kingdom

Delivering multi-role tanker aircraft capability Great Britain: National Audit Office, 2010-03-30 The National Audit Office has been unable to conclude that the Ministry of Defence has achieved value for money from the procurement phase of its 10.5 billion private finance deal for the Future Strategic Tanker Aircraft FSTA The selection of a PFI option was made without a sound evaluation of alternative procurement routes to justify why the PFI route offered the best value for money Although the project to provide air to air refuelling and military transport aircraft has achieved its delivery milestones since contract signature it is still likely to be delivered five and a half years later than planned The MOD will pay on average 390 million per annum for the core FSTA service which includes use of the aircraft and related services and infrastructure However the MOD also has responsibilities to support the effective delivery of the service and ensure that it obtains value for money from the contract Given the delay to FSTA the MOD is being forced to rely on ageing and increasingly unreliable Tristar and VC10 aircraft to provide air to air refuelling and air transport to Afghanistan While the MOD has been successful in fulfilling these priority roles flying hours across both fleets have reduced by 21 per cent since 2002/03 To assist in delivering its air transport requirements the MOD also charts passenger aircraft at a cost of approximately 175 million between 2006/07 and 2008/09
