Singapore River Stephen Dobbs, 2013-11-11 For most of its modern history to speak of Singapore was to speak of the Singapore River physical centre of the city and site of the greater part of the colony s entrepot trade The river has been transformed over the last 25 years from a polluted industrial sewer choked with traffic to a clean placid waterway that forms the centrepiece of Singapore s financial civic and entertainment districts This transformation symbolizes the city state s efforts to remake itself for the 21st century Stephen Dobbs sets out the history of this waterway and of the people who made it their home and workplace He describes the tidal swamp in the early days of the British settlement where merchants ignored Raffles much vaunted city plan and built their businesses on the limited high ground along the marshy riverbanks Later even as the long distance shipping moved to new port facilities elsewhere on the island the river remained the base for a large regional trade and boatmen and businessmen struggled to cope with silting over crowding and bridges that were too low to be passed at high tide Looking at the post war years Dobbs zeros in on the boatmen who carried goods between the godownse or warehouses along the river and the freighters lying at anchor in the roads Despite its pollution the river remained home to a vital community of coolies and tally clerks and the tumultuous urban life that swirled around them Today the waterfront community has been relocated The shophouses and warehouses along the river are now chic cafes and upmarket restaurants fish have returned to the Singapore River and urban dwellers stroll on walks along the river s edge Blending social history geography economic history and urban studies this book will be of interest to anyone wishing to understand Singapore s many transformations during the past two centuries The Imperial Agenda Devinder Raj, 2025-03-11 The Imperial Agenda The British in Malaysia from 1786 to 1957 is a look at Malaysia s imperial past through

the lens of Britain in its pursuit to exert control over the Malay Peninsula Devinder Raj delves into the implications of imperialism on the Straits Settlements the Federated Malay States and the Unfederated Malay states which eventually came to be known collectively as the Federation of Malaya and then as the nation is called today Malaysia The British presence introduced systems of administrative policy and growth in terms of industries plantations and infrastructure which brought about economic advantageous Nevertheless the unsavoury aspects of this agenda which last till this day begs recognition as well such as the employment of gunboat diplomacy the use of naval strength and military intimidation to secure strategic locations along the Straits of Melaka on the islands of Penang Singapore and Pangkor Devinder discusses intertwined subjects in this section of Malaysian history such as immigration education opium trading and the practice of bringing convicts to the Straits Settlements offering a comprehensive understanding of the complex historical context in which the Imperial Agenda unfolded and impacted the country of Malaysia as she stands today Islands Magazine ,1990-11
