Szelid,2024-11-04 Anger is one of the basic emotions of human emotional experience informing and guiding many of our choices and actions Although it has received considerable scholarly attention in a number of disciplines including linguistics a basic question has still remained unresolved why do variations in the folk model of anger exist across languages if it is indeed a basic emotion rooted in largely universal bodily experience By drawing on a wide selection of comparable linguistic data from dozens of languages including a number of less researched languages this volume provides the most comprehensive account of what is universal and what is variable in the folk model of anger and why It also investigates the role that metonymies might play in the emergence of anger related metaphors and in what ways context influences or shapes anger metaphors and thereby the resulting folk model of anger No such volume exists in the cognitive linguistic literature on anger or on emotions for that matter The book is thus an essential contribution to the study of anger and will serve as basic reading for any researcher interested in how the conceptualization of anger is constructed via the interplay of bodily experience language and the larger cultural context

**A Pure Mirror Turned to Face the Sun** R. K. Cogburn,2024-07-16 Both carefully researched and engaging this small book invites the reader into the story of a remarkable fourth century Cappadocian woman St Macrina the

Younger who met challenges that may seem familiar today Surrounded by polarizing political conflict in an empire divided by growing disparities between rich and poor Macrina lived through earthquakes and disastrous droughts She saw people displaced by war and severe weather pushed into the ranks of the hungry and houseless She suffered breast cancer and lost loved ones in tragic unexpected deaths Her response was nothing less audacious fascinating and inspiring than a commitment to know reveal and reflect God in her actions and to make her home a microcosm of gospel life an inclusive community of love equality simplicity labor caring and generosity The story begins with Macrina s parents among Christian refugees hiding in the hills during the Great Persecution Restored to their family estates after the Edict of Milan they raised two of the Cappadocian Fathers and two other saints In this book we follow their eldest child Macrina as her lived faith changes the course of her own life and gradually and steadily permeates and remakes her family and community

Defending Against Psychic Attacks Carlos Ruiz Poleo,2013-06-19 Back Cover excerpt Thousands of books have been written about happiness and how to achieve it but these do not consider outer influences from other humans in our life Of course all of us would like to be happy and without problems But many of us have had bad experiences or some sort of problems in our daily life without them having a logical cause or a possible explanation Some things did not go as expected despite all of our efforts We are sometimes victims of unforeseen accidents We sometimes are also unable to reach our foreseen immediate goals which previously were considered very simple even though we were fighting hard to achieve them We do not know why these events occur but most people attribute it to a possible bad luck at the time or something which was meant to be A second group either by superstition or rightly sustained attribute them to a third partys influence that is considered as an evil eyed person or bird of ill omen A third smaller group attributes causes to premeditated attacks from witches or sorcerers and to have been the target of curses or spells Negative intentions that could be either normal or enhanced are what we call psychic attacks My idea is to give orientation on something undeniable that exists although is blindly rejected by many Superstitions and myths are analyzed into a logical rational and partly scientific framework There are strong cultural differences between people from the western hemisphere and those from the orient and even between people that speak a common language but are separated by geographical or political boundaries But when common human reactions and events are observed in several different environments this makes us think that certain truth should be something underlying as the origin and outcomes of those events      *Game of Thrones as a Contemporary Feminist Revenge Tragedy* Lea M. Peters,2023-10-11 It is common knowledge that the television series Game of Thrones and revenge go together well but whether Game of Thrones and feminism are compatible is debatable to say the least This book shows how the series female characters in particular utilise revenge to acquire autonomy fight objectification and pursue equality On the one hand they do so by mirroring the female characters of English Renaissance Revenge Tragedies On the other prevailing feminist ideas of the 21st century are also incorporated The resulting tension between models from the Renaissance and

current feminist impulses allows for an interpretation of Game of Thrones as a contemporary feminist version of a Revenge Tragedy Thus this book discusses gender equality and representation problematising the heteronormative binary perspective so commonly given on the series As such the book is for everyone interested in popular culture and its influences and developments both fans and critics of the show feminists and those who aspire to educate themselves
