Brandon, Alan Brooke, 2019-04-30 This unique social history examines 200 years of controversy surrounding British Railways from the dawn of industrialization to contemporary light rail During the Industrial Revolution the power of landowning aristocrats was challenged by the emergent wealth and influence of the urban middle class There was no greater symbol of this seismic shift in society than the British Railways Companies Railways with their powers of compulsory purchase intruded brutally into the previously sacrosanct estates and pleasure grounds of Britain's traditional ruling elite Aesthetes like Ruskin and poets like Wordsworth ranted against railways Sabbatarians attacked them for providing employment on the Lord's Day antiquarians accused them

of vandalism by destroying ancient buildings others claimed their noise would make cows abort and chickens cease laying And while the complaints have certainly changed railways have continued to provoke debate ever since Arguments have raged over railway nationalization and privatization about the Beeching Plan to increase efficiency and around urban light rail systems Examining railways from their beginnings to the present this book provides insights into social economic and political attitudes and emphasizes both change and continuity over 200 years **Night Mail** Scott Anthony,2019-07-25 Night Mail 1936 is one of the best loved and best known films in the canon of British documentary cinema Bringing together the creative talents of Harry Watt Basil Wright W H Auden and Benjamin Britten the film gave John Grierson s documentary school its first popular success Its collectivist politics and its peculiarly modest brand of modernism is as redolent of the inter war age as Agatha Christie Penguin Books or The Shell Guides But it was also a corporate promo part of a publicity campaign initiated by Clement Attlee to stave off Post Office part privatisation and to improve the morale of postal workers Scott Anthony s study provides a lively appreciation of this vivid witty and often just plain eccentric masterpiece In doing so he uncovers the remarkable stories of civic minded idealism creative intrigue and political trickery that underpin this classic documentary Dictionary of Twentieth-Century British Cartoonists and Caricaturists Mark Bryant,2022-07-08 British cartoonists and caricaturists are renowned worldwide Originally published in 2000 this indispensable handbook offers a unique who s who of all the major artists working in Britain in the twentieth century and contains nearly 500 entries Extensively illustrated the book provides information on the work of artists such as Steve Bell Gerald Scarfe Posy Simmonds Ronald Searle Trog mac and Larry as well as such past masters as David Low Vicky H M Bateman Illingworth Heath Robinson and more The dictionary concentrates primarily on political cartoonists caricaturists and joke or gag cartoonists actively working for the main Fleet Street national dailies and weeklies from 1900 to 1995 Each entry is cross referenced and provides a concise biographical outline with an account of the artist s style influences and preferred medium Where relevant the entry includes suggestions for further reading and notes solo exhibitions books illustrated and works held in public collections The Dictionary of Twentieth Century British Cartoonists and Caricaturists offers an insight into the lives of satirical artists working during a century that provoked cartoonists and caricaturists to a pitch of comic and artistic invention that has rarely been matched **The Trains Now Departed** Michael Williams,2015-05-07 SOMETIMES you come across a lofty railway viaduct marooned in the middle of a remote country landscape Or a crumbling platform from some once bustling junction buried under the buddleia If you are lucky you might be able to follow some rusting tracks or explore an old tunnel leading to well who knows where Listen hard Is that the wind in the undergrowth Or the spectre of a train from a golden era of the past panting up the embankment These are the ghosts of The Trains Now Departed They are the railway lines and services that ran on them that have disappeared and gone forever Our lost legacy includes lines prematurely axed often with a gripping and colourful tale of their own as well as marvels of locomotive engineering sent to the scrapyard and grand

termini felled by the wrecker's ball. Then there are the lost delights of train travel such as haute cuisine in the dining car, the grand expresses with their evocative names and continental boat trains to romantic far off places. *The Trains Now Departed* tells the stories of some of the most fascinating lost trains of Britain vividly evoking the glories of a bygone age. In his personal odyssey around Britain Michael Williams tells the tales of the pioneers who built the tracks, the yarns of the men and women who operated them and the colourful trains that ran on them. It is a journey into the soul of our railways summoning up a magic which although mired in time is fortunately not lost for ever. THIS EDITION REVISED AND UPDATED TO INCLUDE MAPS

GWR Story Rosa Matheson, 2012-02-29 The Great Western Railway quickly coming to be known as God's Wonderful Railway was once regarded as the most advanced in the world. Engineered by Isambard Kingdom Brunel it was initially designed to connect Bristol to London and came to develop a distinct character all of its own, one of the many reasons why it remains a much loved and popular area of interest. This book traces its history covering topics such as the company, its engines and carriages, its engineers including Gooch, Dean, Armstrong, Collett, Churchward and of course Brunel as well as the battle of the gauges. Full of little known facts and figures and with numerous photographs and memorabilia as well as a timeline, it is a tale full of record breakers and mighty achievements waiting to be retold to a modern age. **Public**

relations and the making of modern Britain Scott Anthony, 2018-04-30 Public relations was established in Britain by a group of liberal intellectuals in the aftermath of the slump. Central to the startling story of Britain's early public relations pioneers is Sir Stephen Tallents, the inaugural President of the Institute of Public Relations. Tallents was a public sector entrepreneur who lent his patronage to John Grierson's documentary film movement, the BBC Overseas Service, the development of Listener Research and the staging of the Festival of Britain. A compelling portrait of how the social, economic and media revolutions of early twentieth century reshaped national life. Public relations and the making of modern Britain reveals a country struggling to cope with austerity and crisis that is at once very different from and yet surprisingly similar to our own. This book includes the first reprint of Tallents' influential *The Projection of England* for over fifty years. It will interest students and scholars of media studies and modern British culture, history and politics. **LMS Locomotive Design & Development**

Tim Hillier-Graves, 2018-07-30 In 1958 one of Britain's greatest locomotive designers died without public fanfare or recognition, mourned only by his family. Yet William Stanier, arguably one of our greatest engineers and his leader, said of him that without his Chief Draughtsman all he achieved with the LMS would not have been possible. How could such a man slip from our view and remain anonymous although his Princess Coronations, Black 5s and 8Fs are regarded as three of the finest classes of locomotive ever built. And today many survive as stars to grace the ever growing preservation movement. In reality Tom Coleman was an intensely private and modest man who never sought recognition or commendation. His need for privacy may be one reason why his life has remained shrouded in mystery for so long but finally his story has been slowly pieced together from a wide variety of sources, many previously untapped. So now we can see for ourselves his great

contribution to railway history and recognise his singular talents *Computer Control and Human Error* Trevor Kletz, 1995-09-18 *Computer Control and Human Error* presents accounts of various incidents at computer controlled plants These incidents include equipment and software faults treating the computer as a black box misjudging the way operators respond to the computer errors in the data entry failure to inform operators of changes in data or programs and unauthorized interference with peripheral equipment The discussion then turns to the use of hazard and operability studies Hazops to prevent or reduce errors in computer controlled plants The book describes the conventional Hazop as used in the process industry and an overview of the different Chazop frameworks guidelines suggested by engineers and researchers It then presents new Chazop methodology which is based on incident analysis The final chapter presents reasons for failures in computerized systems each of which is illustrated with an example Most of the examples did not cause an actual safety problem simply because they occurred within systems that are not safety related Some of these examples appear in the literature others are from personal experience or from private communications *The Railway Magazine* ,1904
