Railways Of Canada A Pictorial History:

Railways of Canada Nick Mika, Helma Mika, 1972 The growth of the network of railway lines across Canada is presented here with contemporary material and photographs to assist the text **Railways of Canada ; a pictorial history by Nick and Helma Mika** Nick Mika, 1972 *The Pictorial History of Railroads* John Westwood, 1988 The story of the railroads parallels the history of the United States and Canada This pictorial history explores the early days of steam the first transcontinental tracks the robber barons the luxury trains and the decline of the railroads in recent years 140 photos 120 in color **Canadian Books for Young People/Livres canadiens pour la jeunesse, 3e** Irma McDonough, 1980-12-15 This third completely revised edition contains hundreds of new entries for a total of almost 2 000 children s books and magazines carefully selected and described by a team of children s librarians Entries are arranged by subject with reading levels indicated where necessary and are also listed in a separate author title index A list of prize winning Canadian children s books and a basic book list for librarians teachers and parents are included in this charmingly illustrated volume *Pictorial History of America* , 1958 The dramatic story of the United States and Canada from the age of discovery to the Atomic Era told in 2500 pictures 200 000 words and 55 historical maps in full color **The Iron Road** Christian Wolmar, 2014-05-01 The Iron Road is full of wondrous curiosities Did you know that early trains in Australia were pulled by convicts or that elephants were until recently used to shunt freight wagons in India The world s most magnificent railway station the Chhatrapati Shivaji terminal in Mumbai took 10 years to build The longest possible continuous railway journey in the world is the 10 600 miles between Algeciras in Spain and Ho Chi Minh City in Vietnam And the idea that Mussolini made the trains run on time is a myth No invention not even the Internet has ever transformed the way the world traveled worked thought fought ate drank made love you name it the way the train did From the historic moment in September 1830 when the first train chuffed between Liverpool and Manchester UK there was a race to lay down tracks across the planet Adventurers visionaries and rogues were attracted to grandiose projects linking distant corners of the globe in a quest for wealth power and national unity The achievements were heroic India s railway network was the biggest public works project since the building of the pyramids But the human costs were huge In the 1850s six thousand workers died during the construction of the Panama railway the world s first transcontinental line 120 for each mile of railroad The cadavers were pickled and sold to medical schools around the world to defray costs But for the shareholders there were fortunes to be made and at their peak the railroads represented luxury almost beyond belief The Iron Road tells of great invention grand vision mind boggling engineering military strategy colonial ambition groundbreaking trade changes and social impact all the ways that railroads utterly changed the world in which we live **Harry Livingstone's Forgotten Men** Dan Black, 2019-10-01 During the WWI more than 80 000 Chinese labourers were secretly transported from China across Canada to the Western Front where they built bridges and roads repaired tanks unloaded supplies and then after the war cleaned up the grisly battlefields Though the

use of Chinese labourers for the war has been known the story of their journey and their work and the role of Canadians in recruiting and transporting them has not been fully told until now In *Veil of Secrecy* Dan Black describes the perilous journey taken by the Chinese labourers from their remote villages in China across the North Pacific the vast country of Canada from Vancouver to Halifax and across the North Atlantic to the battlefields of Europe and then back again For political reasons and to prevent them from escaping the Chinese labourers were locked into cattle cars and forbidden to disembark during the journey The Canadian public too was kept in the dark about the trains But their experience is indelibly evident in graves across the country from Vancouver Island to Thunder Bay and Petawawa to Halifax One Canadian plays a central role in this story Captain Harry Livingstone a small town doctor from Listowel Ontario Livingstone joined the Canadian Army Medical Corps in 1917 at the age of 28 His first assignment was to go to northeast China to a recruitment depot where he examined poor young Chinese men to ensure they were fit for service He later joined them on their journey across the North Pacific to a quarantine station on Canada's West Coast Drawing on the diaries written by Livingstone and the letters of the Canadian missionaries who served as temporary officers with the corps in Europe Dan Black traces the experience of the Chinese Labour Corps and sheds new light on the mistreatment and racism they faced in Canada and in wartime Europe

Railway Steamships of Ontario Dana William Ashdown,1988 During the nineteenth and early twentieth centuries the railway and shipping interests of the Great Lakes basin were regularly at odds with one another Accusations of rate cutting and unfair trade practices were constantly being hurled back and forth and at times they seemed to have little in common but this was not always the case Through joint traffic agreements railway and shipping lines found that they could aid and complement one another each furthering the others trade This book examines how Ontario s railways faced the steamship question and in particular why they saw a need to acquire their own vessels By tracing almost 200 individual ships and dozens of corporate entities the history of these waterborne railway enterprises is revealed Not overlooked are the railway harbours and the facilities that made the crucial link between train and ship

with photographs both historic and contemporary this engaging book looks at the industrial pioneers of northwestern Ontario and the activities which brought them to the wilderness surveying railroading lumber gold bush piloting transportation and hydro power Rasky lets the pioneers tell their own story through their own reminiscences and by the monuments they have left behind Published with the assistance of the Ontario Ministry of Citizenship and Culture and the Ontario Ministry of Northern Affairs

A Dutch Heritage Frank Rasky, Joan Magee, 1983-01-01 Industry in the Wilderness by Frank Rasky is an account of the overcoming of natural elements in order to harvest the resource wealth of northwestern Ontario It is part of the Dundurn Local History series It is an oral history of lumberjacks gold seekers bush pilots and early hydro men Herein lies the major problem with the book Rasky attempts to cover four important aspects of northwestern Ontario in only 128 pages This impossible task is even further complicated by the fact that more than half of the book is devoted to pictures and diagrams The pictures and diagrams dominate the book to such an extent that one could ignore the text and still find a wealth of information about the topic The diagrams of a paper mill a gold mine and a hydro electric power plant could be a valuable teaching aid to students interested in those areas The pictures are exceptionally good Umanitoba.ca/cm/cmarchive/vol12no5/industryinthewilderness.html
