Communication Arts ,1994-03 *The Making of American Liberal Theology* Gary J. Dorrien,2006-01-01 In this first of three volumes Dorrien identifies the indigenous roots of American liberal theology and demonstrates a wider longer running tradition than has been thought The tradition took shape in the nineteenth century motivated by a desire to map a modernist third way between orthodoxy and rationalistic deism atheism It is defined by its openness to modern intellectual inquiry its commitment to the authority of individual reason and experience its conception of Christianity as an ethical way of life and its commitment to make Christianity credible and socially relevant to modern people Dorrien takes a narrative approach and provides a biographical reading of important religious thinkers of the time including William E Channing Ralph Waldo Emerson Horace Bushnell Henry Ward Beecher Elizabeth Cady Stanton and Charles Briggs Dorrien notes that although liberal theology moved into elite academic institutions its conceptual foundations were laid in the pulpit rather than the classroom

Fuller,2001-12-20 Nearly 40% of all Americans have no connection with organized religion Yet many of these people even though they might never step inside a house of worship live profoundly spiritual lives But what is the nature and value of unchurched spirituality in America Is it a recent phenomenon a New Age fad that will soon fade or a long standing and essential aspect of the American experience In Spiritual But Not Religious Robert Fuller offers fascinating answers to these questions He shows that alternative spiritual practices have a long and rich history in America dating back to the colonial period when church membership rarely exceeded 17% and interest in astrology numerology magic and witchcraft ran high Fuller traces such unchurched traditions into the mid nineteenth century when Americans responded enthusiastically to new philosophies such as Swedenborgianism Transcendentalism and mesmerism right up to the current interest in meditation channeling divination and a host of other unconventional spiritual practices Throughout Fuller argues that far from the flighty and narcissistic dilettantes they are often made out to be unchurched spiritual seekers embrace a mature and dynamic set of basic beliefs They focus on inner sources of spirituality and on this world rather than the afterlife they believe in the accessibility of God and in the mind s untapped powers they see a fundamental unity between science and religion and an equality between genders and races and they are more willing to test their beliefs and change them when they prove untenable Timely sweeping in its scope and

informed by a clear historical understanding Spiritual But Not Religious offers fresh perspective on the growing numbers of Americans who find their spirituality outside the church Jesus and the Cosmos Denis Edwards,2004-07-22 At the end of the twentieth century we began to understand that the earth is vulnerable that it is like a tiny garden in space under threat on all sides Jesus and the Cosmos is an attempt to think theologically about the ecological crisis we face in the light of the great Christian tradition Our theological tradition has been shaped within the worldview of a static universe By contrast we are told today that the universe began with a cosmic explosion called the Big Bang that we live in an expanding universe with galaxies rushing away from us at an enormous rate that we human beings are part of an evolutionary movement on the earth and that we are intimately linked with the health of delicately balanced life systems on our planet Not only has modern science given this age a new cosmology but contemporary historical studies have provided us with a new approach to the historical Jesus Critical biblical study has allowed us to know far more about the Jesus who brought joy and liberation into people s lives In Jesus and the Cosmos Denis Edwards tells the story of the cosmos the story of Jesus of Nazareth and shows their connections Ultimately he will assert Jesus of Nazareth risen from the dead IS the dynamic power at the heart of the cosmic process A Moment In The Universe Surinder Deol,2006-08 These poems are about life both the little things scattered here and there and the great events that stand alone like seasoned rocks Through the prism of these poems the poet is looking at polarities that define the context of our being good and evil sacred and profane inner and outer big and small objective and subjective We experience life in brief segments of time called moments They come and go Moments become our memories memories condition our thinking and we are thus condemned to lead a life of loss and sorrow fighting shadows that are basically our own creation As a result we move further away from the great stream of life that is harmonious and peaceful at its core Arranged around four themes life love work and beyond these poems take the reader on a journey that proceeds from the purely personal to widely shared experiences of living loving leading and connecting with the unknown The beauty of the written word is enhanced by 25 images that illuminate different themes covered in the book

The Distance Learning Funding Sourcebook Arlene Krebs, 1996 **Yuga** Marty Glass, 2001. YUGA describes five falls: the Fall into Time, the Reign of Quantity, the Mutation into Machinery, the End of Nature, and the Prison of Unreality. Taken together, these comprise the fate of historical humanity, and the author is convinced one way trips. And the urban, industrial, vehicular, commercial, technological, pharmaceutical, electronic, information, spectator, secular society they have produced has ripped the human world to shreds. The book is hard hitting, but readers who find it disturbing overlook the invincible beatitude that undergirds its every line. When we awaken from our modern nightmare, as sooner or later we all shall, this book will help us remember what that nightmare was. In YUGA, the perennial wisdom has found a new and clarion voice. Glass's poetic and novelistic vocabulary combined with exhaustive and blithely eclectic research, the mind-boggling diversity of his sources and references, even the peculiar Table of Contents is a radical departure. Equally at home with the Diamond Sutra and the Grundrisse of Karl Marx while being a careful student of magazine displays at the checkout counters of supermarkets, the author cheerfully presents his book as a provocation rather than as argument. But the master achievement of YUGA, which lies neither in its argument nor its style, is its voice. That voice speaks so palpably from the author's heart that we find it resonating in our hearts as well. The final pages of YUGA are celebrations of joy and love, and the discerning reader will detect those qualities lurking between the lines of the book's every page. For remember, Marty Glass is a spokesman for the truth that underlies all the world's wisdom traditions. Behind the world of appearances, samsara, maya, and the shadows on Plato's cave stands the uncreated Light, Reality, which is eternal Bliss. This reality speaks to individuals in the darkest of times, and its grace never falters. No one need be completely captive to history's downward trajectory. Its dream unfolds, and we can actually love that dream if we are awake to the fact that it is we ourselves that are collectively the immortal Dreamer. The message of YUGA is the message of Tradition, the Sophia Perennis. Huston Smith, author of *The World's Religions*, etc. For those seriously concerned with the plight of present-day humanity and the unprecedented crises through which human society is passing, this book offers many profound insights. It can offer guidelines and openings onto the understanding of the traditional world and that perennial wisdom whose loss has brought about the present age of spiritual darkness. Seyyed Hossein Nasr, author of *Knowledge and the Sacred*, etc.
