Niman, 1997 Since 1972 the Rainbow Family of Living Light a loosely organized and anarchistic nomadic community have been holding large gatherings in remote forests to pray for world peace and create a model of a functioning utopian society In *People of the Rainbow* Michael I Niman offers the first comprehensive study of this countercultural group also known as the Rainbow Nation or Rainbow Family Niman's insightful and compelling profile describes the origins and recent history of the Rainbows and explains the eclectic philosophy of environmentalism feminism peace activism group sharing libertarianism and consensus government they espouse A fictional re-creation of a day in the life of a Rainbow character named Sunflower begins the book illustrating events that might typically occur at an annual North American Rainbow Gathering Using interviews with Rainbows content analysis of media reports participant observation and scrutiny of government documents relating to the group Niman presents a complex picture of the Family and its relationship to mainstream culture called Babylon by the Rainbows Niman also looks at internal contradictions within the Family and examines members problematic relationship with Native Americans whose culture and spiritual beliefs they have appropriated The nomadic nature of the Rainbow Family has long exasperated the U S government especially the Forest Service and has baffled the media Niman places the Rainbow Family's gatherings in a historical context by framing the group's activities in terms of the long tradition of intentional communities and utopian experimentation within the United States Concluding with reflections on the successes and limitations of the Rainbow movement *People of the Rainbow* provides an extensive ethnography of this intriguing subculture and provides fresh insights into the ongoing legacy of utopian communalism The Author Michael I Niman is an adjunct assistant professor of American studies at the State University of New York at Buffalo and a lecturer in the communication department at Buffalo State College **The Bumpy Road, A Memoir of Culture Clash Including**

Art, Space and the City Malcolm Miles, 2005-08-16 Public art the making management and mediation of art outside its conventional location in museums and galleries and the livable city a concept involving user centred strategies for urban planning and design are both socially produced but have emerged from different fields and tend to be discussed in isolation This book applies a range of critical perspectives which have emerged from different disciplines art criticism urban design

urban sociology geography and critical theory to examine the practice of art for urban public spaces seeing public art from positions outside those of the art world to ask how it might contribute to possible urban futures Exploring the diversity of urban politics the functions of public space and its relation to the structures of power the roles of professionals and users in the construction of the city the gendering of space and the ways in which space and citizen are represented the book explains how these issues are as relevant to architecture urban design and urban planning as they are to public art Drawing on a wealth of images from across the UK and Europe and the USA in particular the author questions the effectiveness of public art in achieving more convivial urban environments whilst retaining the idea that imagining possible futures is as much part of a democratic society as using public space *Activating Human Rights* Elisabeth J. Porter, Baden Offord, 2006 Papers originally presented at an international conference held in Australia 2003 **Urban Avant-Gardes** Malcolm Miles, 2004-07-31 Can art or architecture change the world Is it possible to think of a new cultural avant garde today This book contributes to the debate by looking back to past avant gardes and by profiling contemporary cases of radical cultural practices *Media in Postapartheid South Africa* Sean Jacobs, 2019-03-11 A study of mass media in twenty first century South Africa offering revelations about the nature of citizenship and public engagement in our media saturated age Daniel R Magaziner author of *The Law and the Prophets Black Consciousness in South Africa 1968 1977* In *Media in Postapartheid South Africa* Sean Jacobs turns to media politics and the consumption of media as a way to understand recent political developments in South Africa and their relations with the African continent and the world Jacobs looks at how mass media define the physical and human geography of the society and what it means for comprehending changing notions of citizenship in postapartheid South Africa Jacobs claims that the media have unprecedented control over the distribution of public goods rights claims and South Africa s integration into the global political economy in ways that were impossible under the state controlled media that dominated the apartheid years Jacobs takes a probing look at television commercials and the representation of South Africans reality television shows and South African continental expansion soap operas and postapartheid identity politics and the internet as a space for reassertions and reconfigurations of identity As South Africa becomes more integrated into the global economy Jacobs argues that local media have more weight in shaping how consumers view these products in unexpected and consequential ways *In Search of New Age Spiritualities* Adam Possamai, 2019-01-22 The search for an adequate understanding of the New Age phenomenon is fraught with difficulties when examined within the perspectives of sociology of religion which have shed light on religion in modernity New Agers cannot be located easily in the secularisation narrative they move through fluid networks rather than settled collectivities they assemble personal syncretisms of belief myth and practice rather than subscribe to codified doctrines and prescribed rituals New Age is quickly found to be a label that is unacceptable to many of those designated as New Agers This book advances our understanding of the so called New Age phenomenon by analysing accounts of insiders religious experience

and orientations This approach is brought to bear not only on the study of written documents relating to New Age and its putative antecedents but on the analysis of in depth interviews with thirty five spiritual actors Last Cry - Native American Prophecies & Tales of the End Times Robert Ghost Wolf,2003-11-16 Last cry remains a time tested revelation about Prophecy and the coming of the Awakening Dr Ghost Wolf has the unique ability of bridging many realities Here he brings to light not only an indepth look at the teachings of the indigenous masters but he also gives us profound insights into his own remarkable gifts of prophecy as a Shaman for the Metis People and leaves us looking ahead into the 21st Century with new eyes Welcome to the Awakening *Manifesto for the Noosphere* Jose Arguelles,2011-09-06 The noosphere identified in the early twentieth century as intrinsic to the next stage of human and terrestrial evolution is defined as the Earth s mental sphere or stratum of human thought Manifesto for the Noosphere the final work by renowned author Jos Arg elles predicts that the noosphere will be fully accessed on December 21 2012 but warns that we will only successfully make this evolutionary jump through an act of collective consciousness among humans on Earth The ascension to the noosphere or Supermind using the terminology of Sri Aurobindo Arg elles says will be an unprecedented mind shift that mirrors the emergence of life itself on the planet Manifesto for the Noosphere is intended to inform and prepare humanity for the nature and magnitude of this shift Arg elles brings in the Mayan long count calendar radical theories on the nature of time advanced states of consciousness and the possible intervention of galactic intelligence He carefully details the role of the noosphere in relation to other planetary strata hydrosphere biosphere atmosphere as well as the history and nature of the biosphere noosphere transition and the intermediary phases of the technosphere and cybersphere About the Imprint EVOLVER EDITIONS promotes a new counterculture that recognizes humanity s visionary potential and takes tangible pragmatic steps to realize it EVOLVER EDITIONS explores the dynamics of personal collective and global change from a wide range of perspectives EVOLVER EDITIONS is an imprint of North Atlantic Books and is produced in collaboration with Evolver LLC

Urban Utopias Malcolm Miles,2007-11-21 Utopia tends to generate a bad press regarded as impracticable perhaps nostalgic or contradictory when visions of a perfect world cannot accommodate the change that is necessary to a free and self organizing society But people from diverse backgrounds are currently building a new society within the old balancing literal and metaphorical utopianism and demonstrating plural possibilities for alternative futures and types of settlement Thousands of such places exist around the world including intentional communities eco villages permaculture plots religious and secular retreats co housing projects self build schemes projects for low impact housing and activist squats in urban and rural sites This experience suggests however that when planning and design are not integral to alternative social formations the modern dream to engineer a new society cannot be realized The book is structured in four parts In part one literary and theoretical utopias from the early modern period to the nineteenth century are reconsidered Part two investigates twentieth century urban utopianism and contemporary alternative settlements focusing on social and environmental issues activism

and eco village living Part three looks to wider horizons in recent practices in the non affluent world and Part four reviews a range of cases from the author s visits to specific sites This is followed by a short conclusion in which a discussion of key issues is resumed This book brings together insights from literary theoretical and practical utopias drawing out the characteristics of groups and places that are part of a new society It links today s utopian experiments to historical and literary utopias and to theoretical problems in utopian thought
