how the senses were important for crafting and successfully deploying new nation building heritage projects in South Africa during the postapartheid period The book also highlights how heritage dynamics are entangled in evocative changing sensory worlds Jethro uses five case studies that correlate with the five main Western senses Examples include touch and the ruination of a series of art memorials how vision was mobilised to assert the authority of the state sponsored Freedom Park project in Pretoria how smell memories of apartheid era social life in Cape Town informed contemporary struggles for belonging after forced removal how taste informed debates about the attempted rebranding of Heritage Day as barbecue day and how the sound of the vuvuzela popularized during the FIFA 2010 Football World Cup helped legitimize its unofficial African and South African heritage status This book makes a valuable contribution to the field of sensory studies and with its focus on aesthetics and material culture is in sync with the broader material turn in the humanities **Yevu** Pietro Giacomo Menolfi, 2015-01-30 **YEVU** ruthlessness on the aid system Yevu is a kind of diary of a volunteer doctor in Africa with a personal analysis of the problems of the Third World The author uses a concise language generating something like a report directly coming from the field Through the paper the book is trying to enhance images in the reader's mind One can clearly get the author's sincere passion for the subject The content is innovative in its field It is a work of a good standard maybe a bit redundant in the presentation It offers a pleasant reading dense of descriptions of places people and traditions The book may be of interest for casual readers due to the passionate stories close to the true life It can be a book where the specialist readers can find a well of novelties The book describes the reality of the AID system from an unusual point of view from a direct observation with a realistic ruthlessness borne from a decade of volunteering in Africa The doctor carries within himself many disappointments and disillusionments that switch a light on the world of volunteering which seems to be in an obscure oblivion The book is based on indisputable facts The story opens some windows to the readers who have the opportunity to make their own conclusions **Food Culture in Sub-Saharan Africa** Fran Osseo-Asare, 2005-06-30 East African notably Ethiopian cuisine is perhaps the most well known in the States This volume illuminates West southern and Central African cuisine as well to give students and other readers a solid understanding of how the diverse African peoples grow cook and eat food and how they celebrate special occasions and ceremonies with special foods Readers will also learn about African history religions and ways of life plus how African and American foodways are related For example cooking techniques such as deep frying and ingredients such as peanuts chili peppers okra watermelon and even cola were introduced to the United States by sub Sahara Africans who were brought as slaves Africa is often presented as a monolith but this volume treats each region in turn with representative groups and foodways presented in manageable fashion with a truer picture able to emerge It is noted that the boundaries of many countries are imposed so that food culture is more fluid in a region Commonalities are also presented in the basic format of a meal with a starch with a sauce or stew and vegetables and perhaps some protein typically cooked over a fire in a pot supported by three stones Representative recipes a timeline
