The major themes explored are the impact of globalisation on young people, their reference systems, and their use of private and public spaces. Evidence is presented of global, national, and local dimensions of growing up in different countries in a post-modern world. The book contributes to a better understanding of issues of contemporary citizenship in a globalised world where the commodification of knowledge blurs boundaries and values. Effective citizenship in a world of time-space compression and instant access to diverse sources of information is problematic. This book provides a fascinating insight into the discerning values of young people. As they reveal their hopes and dreams within the knowledge society, the young people involved in this cross-cultural enquiry also highlight their conservatism and the traditional core values associated with their homes and families. **The Bible Study Department of the Student Young Men's Christian Association** John Raleigh Mott, 1901 **The Secret Life of the Sea Otter** Laurence Pringle, 2022-05-31 Follow a year in the life of an adorable sea otter as she creatively hunts for food, deftly avoids danger from a great white shark, and gives birth to a pup.
