more **Read Me a Tree, Rhyme Me a Bee** Heather McNeil, 2025-07-10 Experts agree that it's essential for children to spend time exploring and enjoying the outdoors when they come back in. Librarians and teachers can supplement their adventures with nature storytimes. In this comprehensive book full of storytime plans, veteran children's librarian Heather McNeil recommends storytime books that encourage respect for nature and an understanding of the fragility of ecosystems. Each chapter includes crafts, games, songs, and rhymes that focus on learning about and appreciating nature. Some crafts use items from the outdoors; others represent nature's beauty or mystery. Storytime plans include all the components of a successful storytime: books, songs, movement, and creative participation. Librarians and early elementary teachers will enjoy using this book to support literacy and social-emotional goals while helping children develop an appreciation of the natural world.

Forest and Stream, 1903 *Progress of Reality of Insanity the Second Coming* Ron McIntyre, 2021-04-08 The mind excited with blazes of fiery thoughts flashes forth wonders of amazement far past the imaginable somewhere in the far out extremes beyond non-existence somewhere God is frightened to wander around. I have seen him tip-toe across the stars and stroll around in the sky like he owned them. And command the lightning where to strike. His powers of wonderment cause hysterical raptures of ecstasy. He can transport a man's mind from reality into oblivion. His frenzied mind teeters on the brink of infinity; his thinking is so complex he had to invent new words to explain them. He can force the trumpets of the seventh heavenly plague to blast before their appointed time and confuse the armies in heaven to where they do not know whose command to follow. Lightning and voices and thunders exist only by his permission. He commands the powers in heaven; the angels fall at his feet; the sun no longer sheds light and the moon turns to blood and the stars fall from the sky. Who is this? The Almighty. The Only Begotten or the Third in Command? No, though some think so, this is the author Ron McIntyre. Bowker's Complete Video Directory, 2000 Bowker's Complete Video Directory 2001, 2001 Caring for Place E. N. Anderson, 2014-03-31 How can cultural forms motivate people to care about their environment? While important scientific data about ecosystems is mushrooming, E. N. Anderson argues in this powerful new book that putting effective conservation into practice depends primarily on social solidarity and emotional factors. Marshaling decades of research on cultures across several continents, he shows how societies have been more or less successful in sustainably managing their environments based on collective engagements such as religion, art, song, myth, and story. This provocative and deeply felt book by a leading writer and scholar in human ecology and anthropology will be read and debated widely for years to come.
