Seeing A Color Blind Future The Paradox Of Race

Seeing A Color Blind Future The Paradox Of Race:

Seeing a Color-Blind Future Patricia J. Williams, 2016-08-02 In these five eloquent and passionate pieces which she gave as the prestigious Reith Lectures for the BBC Patricia J Williams asks how we might achieve a world where color doesn't matter where whiteness is not equated with normalcy and blackness with exoticism and danger Drawing on her own experience Williams delineates the great divide between the poles of other people's imagination and the nice calm center of oneself where dignity resides and discusses how it might be bridged as a first step toward resolving racism Williams offers us a new starting point a sensible and sustained consideration from which we might begin to deal honestly with the legacy and current realities of our prejudices *Seeing a Colour-blind Future* Patricia J. Williams, 1997 A collection of lectures which focussed on the small constant aggressions of racism **The Problem of the Color[blind]** Brandi Wilkins

Catanese, 2012-10-16 Catanese's beautifully written and cogently argued book addresses one of the most persistent sociopolitical questions in contemporary culture She suggests that it is performance and the difference it makes that complicates the terms by which we can even understand multicultural and colorblind concepts A tremendously illuminating study that promises to break new ground in the fields of theatre and performance studies African American studies feminist theory cultural studies and film and television studies Daphne Brooks Princeton University Adds immeasurably to the ways in which we can understand the contradictory aspects of racial discourse and performance as they have emerged during the last two decades An ambitious smart and fascinating book Jennifer DeVere Brody Duke University Are we a multicultural nation or a colorblind one The Problem of the Color blind examines this vexed question in American culture by focusing on black performance in theater film and television The practice of colorblind casting choosing actors without regard to race assumes a performing body that is somehow race neutral But where exactly is race neutrality located in the eyes of the spectator in the body of the performer in the medium of the performance In analyzing and theorizing such questions Brandi Wilkins Catanese explores a range of engaging and provocative subjects including the infamous debate between playwright August Wilson and drama critic Robert Brustein the film career of Denzel Washington Suzan Lori Parks's play *Venus* the phenomenon of postblackness as represented in the Studio Museum in Harlem's *Freestyle* exhibition the performer Ice Cube's transformation from icon of gangsta rap to family movie star and the controversial reality television series *Black White* Concluding that ideologies of transcendence are ahistorical and therefore unenforceable Catanese advances the concept of racial transgression a process of acknowledging rather than ignoring the racialized histories of performance as her chapters move between readings of dramatic texts films popular culture and debates in critical race theory and the culture wars

What Might Be Susan Sturm, 2025-02-11 How to turn the paradoxes built into anti racism work into drivers of learning and change Even as anti racism practices seemed to be gaining momentum the nation shows signs of falling back into long standing patterns of racial injustice and inequality Leaders who introduce anti racist approaches to their organizations often

face backlash from white colleagues and skepticism from colleagues of color leading to paralysis In *What Might Be* Susan Sturm explores how to navigate the contradictions built into our racialized history relationships and institutions She offers strategies and stories for confronting racism within predominantly white institutions describing how change agents can move beyond talk to build the architecture of full participation Sturm argues that although we cannot avoid the contradictions built into efforts to confront racism we can make them into engines of cross racial reflection bridge building and institutional reimagination rather than falling into a Groundhog Day like trap of repeated failures Drawing on her decades of experience researching and working with institutions to help them become more equitable and inclusive Sturm identifies three persistent paradoxes inherent in anti racism work These are the paradox of racialized power whereby anti racism requires white people to lean into and yet step back from exercising power the paradox of racial salience which means that effective efforts must explicitly name and address race while also framing their goals in universal terms other than race and the paradox of racialized institutions which must drive anti racism work while simultaneously being the target of it Sturm shows how people and institutions can cultivate the capacity to straddle these contradictions enabling those in different racial positions to discover their linked fate and become the catalysts for long term change The book includes thoughtful and critical responses from Goodwin Liu Freeman Hrabowski and Anurima Bhargava

Race and the Genetic Revolution Sheldon Krinsky, Kathleen Sloan, 2011-09-27 Do advances in genomic biology create a scientific rationale for long discredited racial categories Leading

scholars in law medicine biology sociology history anthropology and psychology examine the impact of modern genetics on the concept of race Contributors trace the interplay between genetics and race in forensic DNA databanks the biology of intelligence DNA ancestry markers and racialized medicine Each essay explores commonly held and unexamined assumptions and misperceptions about race in science and popular culture This collection begins with the historical origins and current uses of the concept of race in science It follows with an analysis of the role of race in DNA databanks and racial disparities in the criminal justice system Essays then consider the rise of recreational genetics in the form of for profit testing of genetic ancestry and the introduction of racialized medicine specifically through an FDA approved heart drug called BiDil marketed to African American men Concluding sections discuss the contradictions between our scientific and cultural understandings of race and the continuing significance of race in educational and criminal justice policy

Social Justice and the World of Work Brian Langille, Anne Trebilcock, 2023-02-23 In this book leading international thinkers take up the demanding challenge to rethink our understanding of social justice at work and our means for achieving it at a time when global forces are tearing the familiar fabric of our working lives and the laws regulating them When fabric is torn we can see deeply into it understand its structural weaknesses and imagine alterations in the name of resilience and sustainability Seizing that opportunity the authoritative commentators examine the lessons revealed by the pandemic and other global shocks for our ideas about justice at work and how to advance that cause in the world as we now find it The chapters deliver critical re assessments of our goals explore our new challenges and creatively re imagine trajectories for progress on two global fronts via international institutions and by a myriad of other transnational techniques These forward looking essays are in honour of Francis Maupain whose international career and scholarly writing are inspiring models for those who in a changing world seize opportunities for creativity in the pursuit of global justice at work

Race and College Admissions Jamillah Moore, 2005-02-17 Affirmative action was meant to redress the lingering vestiges of the discrimination and exclusion so prominent in America's past and afford underrepresented groups the opportunities most take for granted Its impact on higher learning has been immeasurable diversity is part of the mission of most colleges and universities and exposure to a variety of ethnicities cultures and perspectives benefits all Yet institutions are scrambling to reevaluate their mission and methods as courts mandate colorblind admissions and affirmative action is misconstrued and attacked as reverse discrimination patronizing and insulting to minorities or simply unnecessary Diversity has plummeted on many campuses as a result and elite institutions now struggle to enroll underrepresented groups Discussions of the controversy reflect little understanding of the role of race in college admissions ignore the fact that eligibility does not guarantee admission and falsely cast affirmative action as a policy based on race alone This assessment of the role of race in college admissions examines misconceptions surrounding affirmative action and the place of race in the admission process Chapters explore declining diversity the effect upon professional schools the historical perspective of the subject the courts role in affirmative

qualitative methods from their home disciplines to offer practical strategies for discussing race and racism with students while also reflecting on broader issues in higher education Contributors examine how teachers can respond productively to emotionally charged contexts recognize the roles and pressures that faculty assume as activists in the classroom focus a timely lens on the shifting racial politics and economics of higher education and call for a more historically sensitive reading of the pedagogies involved in teaching race The volume offers a corrective to claims following the 2016 US presidential election that the current moment is unprecedented highlighting the pivotal role of the classroom in contextualizing and responding to our perilous times

Healing Identities Cynthia Burack, 2018-08-06 Group identifications famously pose the problem of destructive rhetoric and action against others Cynthia Burack brings together the theory work of women of color and the tools of psychoanalysis to examine the effects of group collaborations for social justice and progressive politics This juxtaposition illuminates some assumptions about race and equality encoded in psychoanalysis Burack's discursive analysis suggests the positive identity affirming aspects of group relational life for African American women One analytic response to groups emphasizes the dangers of these identifications and exhorts people to abandon or transcend them for their own good and for the good of others who may be harmed by group based forms of cultural or material violence Another response understands that people feel a need for group identifications and asks how they may be made more resistant to malignant group based discourse and action What can black feminist thought teach scholars and democratic citizens about groups Burack shows how the rhetoric of black feminism models reparative rather than destructive forms of group dialogue and action Although it may be impossible to eliminate group identifications that provide much of the impetus for bias and violence she argues we can encourage more progressive forms of leadership solidarity and coalition politics

The War on Critical Race Theory David Theo Goldberg, 2023-04-03 Critical Race Theory is consuming conservative America The mounting attacks on a once obscure legal theory are upending public schooling legislating censorship driving elections and cleaving communities In this much needed response renowned scholar David Theo Goldberg cuts to the heart of the claims expressed in these attacks He punctures the demonization of Critical Race Theory uncovering who is orchestrating it funding the assault and eagerly distributing the message The book richly illustrates the enduring nature of structural racism even as a conservative insistence on colorblindness serves to silence the possibility of doing anything about it Crucially Goldberg exposes the political aims and effects of the vitriolic attacks The upshot of CRT's targeting he argues has been to unleash racisms anew and to stymie any attempt to fight them all with the aim of protecting white minority rule Also available as an audiobook

The Souls of Mixed Folk Michele Elam, 2011-02-21 The Souls of Mixed Folk examines representations of mixed race in literature and the arts that redefine new millennial aesthetics and politics Focusing on black white mixes Elam analyzes expressive works novels drama graphic narrative late night television art installations as artistic rejoinders to the perception that post Civil Rights politics are bereft and post Black art is apolitical Reorienting attention to the cultural

invention of mixed race from the social sciences to the humanities Elam considers the creative work of Lezley Saar Aaron McGruder Nate Creekmore Danzy Senna Colson Whitehead Emily Raboteau Carl Hancock Rux and Dave Chappelle All these writers and artists address mixed race as both an aesthetic challenge and a social concern and together they gesture toward a poetics of social justice for the mulatto millennium The Souls of Mixed Folk seeks a middle way between competing hagiographic and apocalyptic impulses in mixed race scholarship between those who proselytize mixed race as the great hallelujah to the race problem and those who can only hear the alarmist bells of civil rights destruction Both approaches can obscure some of the more critically astute engagements with new millennial iterations of mixed race by the multi generic cohort of contemporary writers artists and performers discussed in this book The Souls of Mixed Folk offers case studies of their creative work in an effort to expand the contemporary idiom about mixed race in the so called post race moment asking how might new millennial expressive forms suggest an aesthetics of mixed race And how might such an aesthetics productively reimagine the relations between race art and social equity in the twenty first century

Race or Ethnicity? Jorge J. E. Gracia, 2018-07-05 What is race What is ethnicity Should we think of them as identities Can they be effectively individuated How are they related How do the relations between them influence pressing issues concerned with social identity gender racism assimilation exploitation justice the law and public policy And how are the answers to these questions affected by the Black and Latino experience in the United States From the Preface This collection of new essays explores the relation between race and ethnicity and its social and political implications Although much work has been done on the philosophy of race in the past century in the United States the concept of ethnicity has only recently awoken the interest of American philosophers and the relations between race and ethnicity remain largely unexamined The discussion is divided into two parts dealing on the one hand with the nature and the relation between race and ethnicity and on the other with the social consequences of the complex relations between them Part I explores in particular the debated topic of racial and ethnic identities Does it make sense to speak of racial and ethnic identities and especially of black and Latino identities And if it does make sense how should these identities be conceptualized and how are they related to gender Part II examines how race and ethnicity have influenced the lot of some social groups in significant ways How do racially defined institutions deal with racial assimilation How do different conceptions of race and ethnicity influence public policy and various forms of racism How can exploited racial and ethnic groups be effectively recognized And what is the role of affect in social justice as dispensed by the courts

Race Mixing Suzanne W. Jones, 2006-02-15 In the southern United States there remains a deep need among both black and white writers to examine the topic of race relations whether they grew up during segregation or belong to the younger generation that graduated from integrated schools In Race Mixing Suzanne Jones offers insightful and provocative readings of contemporary novels the work of a wide range of writers black and white established and emerging Their stories explore the possibilities of cross racial friendships examine the repressed history of interracial love reimagine

the Civil Rights era through children's eyes herald the reemergence of the racially mixed character investigate acts of racial violence and interrogate both rural and urban racial dynamics Employing a dynamic model of the relationship between text and context Jones shows how more than thirty relevant writers including Madison Smartt Bell Larry Brown Bebe Moore Campbell Thulani Davis Ellen Douglas Ernest Gaines Josephine Humphreys Randall Kenan Reynolds Price Alice Walker and Tom Wolfe illuminate the complexities of the color line and the problems in defining racial identity today While an earlier generation of black and white southern writers challenged the mythic unity of southern communities in order to lay bare racial divisions Jones finds in the novels of contemporary writers a challenge to the mythic sameness within racial communities and a broader definition of community and identity Closely reading these stories about race in America *Race Mixing* ultimately points to new ways of thinking about race relations We need these fictions Jones writes to help us imagine our way out of the social structures and mind sets that mythologize the past fragment individuals prejudice people and divide communities

The End of Race Politics Coleman Hughes, 2024-02-06 An exciting new voice makes the case for a colorblind approach to politics and culture warning that the so called anti racist movement is driving us ironically toward a new kind of racism As one of the few black students in his philosophy program at Columbia University years ago Coleman Hughes wondered why his peers seemed more pessimistic about the state of American race relations than his own grandparents who lived through segregation *The End of Race Politics* is the culmination of his years long search for an answer Contemplative yet audacious *The End of Race Politics* is necessary reading for anyone who questions the race orthodoxies of our time Hughes argues for a return to the ideals that inspired the American Civil Rights movement showing how our departure from the colorblind ideal has ushered in a new era of fear paranoia and resentment marked by draconian interpersonal etiquette failed corporate diversity and inclusion efforts and poisonous race based policies that hurt the very people they intend to help Hughes exposes the harmful side effects of Kendi DiAngelo style antiracism from programs that distribute emergency aid on the basis of race to revisionist versions of American history that hide the truth from the public Through careful argument Hughes dismantles harmful beliefs about race proving that reverse racism will not atone for past wrongs and showing why race based policies will lead only to the illusion of racial equity By fixating on race we lose sight of what it really means to be anti racist A racially just colorblind society is possible Hughes gives us the intellectual tools to make it happen

Race in the Shadow of Law Eddie Bruce-Jones, 2016-12-01 *Race in the Shadow of Law* offers a critical legal analysis of European responses to institutional racism It draws connections between contemporary legal knowledge practices and colonial systems of thought arguing that many people of colour experience the law as a part of a racial problem rather than a solution to racial injustice Based on a critical legal ethnography of anti racism work in Europe and with an emphasis on the German context the book positions Black and anti racist perspectives at the centre rather than the margins of critically thinking through the intersection of race and law Combining this ethnography with comparative legal analysis discourse analysis and critical race

theory the book develops a critical discussion of the European legal frameworks aimed at regulating racism and particularly institutional racism in policy and policing In linking this critique to the transformative potential of social movements however it goes on to examine the strategic and creative possibility of disrupting conventional modes of engaging and resisting law
