Paul Getty Museum, 1998 **Seeing the Getty Center** Getty Center for Education in the Arts, Getty Center (Los Angeles, Calif.), 1998 **American Museums and the Persuasive** Impulse J. Donald Ragsdale, 2009-01-14 In American Museums and the Persuasive Impulse Professor Ragsdale assesses American museums as means of visual persuasion He demonstrates that museums their contents and their manners of display are as capable of influencing visitors as speeches or advertisements and that an awareness of their social influence provides an insight into the cultural roles of museums. The book considers a diverse array of museums ranging from such national cultural icons as the Metropolitan Museum of Art and the Art Institute to such city museums as the Philadelphia Museum of Art and the Los Angeles Country Museum of Art and includes separate chapters on museums devoted to modern and contemporary art and to the specialized collections of individual connoisseurs In addition to these primarily art museums Professor Ragsdale assesses museums devoted to collections such as the National Air and Space Museum and to commemoration and remembrance such as the National World War II Museum and the US Holocaust Memorial Museum American Museums and the Persuasive Impulse makes an important contribution to the theory of persuasion and to visual communication art history and museology It utilizes a theory of visual signs based on the semiotic theory of C S Peirce In so doing it demonstrates that museum buildings the art and other objects contained within them and the spaces used for display may all be thought of in terms of means of social influence **Seeing the Getty Center and Gardens** Getty Publications, Featuring stunning color photographs throughout this beautifully illustrated volume takes readers on a visual tour through Los Angeles s iconic Getty Center and Gardens Designed for the Getty s visiting public this handsome gift book distills highlights of the existing Seeing the Getty Center and Seeing the Getty Gardens souvenir volumes to provide a visual tour of the Getty Center from the masterpieces in the galleries to the iconic architecture to the breathtaking gardens Dazzling details from the J Paul Getty Museum's collections are combined with unforgettable views of the site including the outdoor sculpture close ups of the diverse plants and flowers in the gardens plays of light and shadow on the travertine exterior the ocean and Los Angeles skyline and a stunning view of the Center at sunset Also available in Japanese Chinese Korean Spanish French and German this English edition provides a memento for guests and an inspiring introduction for those who The J. Harrison, 2008-07-08 Which cultural values beliefs and attitudes best promote democracy social justice and prosperity How can we use the forces that shape

cultural change such as religion education and political leadership to promote these values in the Third World and for underachieving minorities in the First World In this book Lawrence E Harrison offers intriguing answers to these questions in a valuable follow up to his acclaimed Culture Matters Drawing on a three year research project that explored the cultural values of dozens of nations from Botswana Sweden and India to China Egypt and Chile Harrison offers a provocative look at values around the globe revealing how each nation s culture has propelled or retarded their political and economic progress. The book presents 25 factors that operate very differently in cultures prone to progress and those that resist it including one s influence over destiny the importance attached to education the extent to which people identify with and trust others and the role of women in society Harrison pulls no punches and many of his findings are controversial Contradicting the arguments of multiculturalists this book contends that when it comes to promoting human progress some cultures are clearly more effective than others It convincingly shows which values beliefs and attitudes work and how we can foster them Harrison takes up the question that is at the center of politics today Can we self consciously change cultures so they encourage development and modernization David Brooks New York TimesI can think of no better entrance to the topic both for what it teaches and the way it invites and prepares the reader to continue A gateway study David S Landes author of The Wealth and Poverty of Nations
