Brown, 2005-07-26 Winner Association of American Publishers Professional and Scholarly Publishing Award in Business Management and Accounting In the late nineteenth century corporate managers began to rely on photography for everything from motion studies to employee selection to advertising This practice gave rise to many features of modern industry familiar to us today consulting scientific approaches to business practice illustrated advertising and the use of applied psychology In this imaginative study Elspeth H Brown examines the intersection of photography as a mass technology with corporate concerns about efficiency in the Progressive period Discussing among others the work of Frederick W Taylor Eadweard Muybridge Frank Gilbreth and Lewis Hine Brown explores this intersection through a variety of examples including racial discrimination in hiring the problem of photographic realism and the gendered assumptions at work in the origins of modern marketing She concludes that the goal uniting the various forms and applications of photographic production in that era was the increased rationalization of the modern economy through a set of interlocking managerial innovations technologies that sought to redesign not only industrial production but the modern subject as well **History of Magic and Experimental Science (Vol. 1&2)** Lynn Thorndike, 2023-12-26 Lynn Thorndike's seminal work *History of Magic and Experimental Science* Volumes 1 2 is a groundbreaking exploration of the intricate interplay between magic alchemy and the nascent field of experimental science from antiquity to the Renaissance Thorndike employs a meticulous historical approach blending rigorous scholarship with an engaging narrative style that brings to life the evolution of scientific thought The two volumes cover a spectrum of practices and beliefs dissecting how magical traditions laid the groundwork for what would eventually become modern scientific inquiry thus situating magic at the crux

of intellectual history Thorndike a prominent historian of science in the early 20th century drew on his extensive background in both philosophy and history to illuminate the often overlooked connections between magic and science His deep interest in the historical roots of scientific practices coupled with a conviction that understanding these roots is crucial for comprehending modern science propelled him to undertake this ambitious project His work challenges the prevailing narrative that dismisses magic as mere superstition instead arguing for its essential role in shaping scientific minds This two volume set is invaluable for scholars students and anyone intrigued by the foundations of scientific thought Thorndike s intricate narrative not only enriches our understanding of history but also encourages readers to reassess the boundaries between magic and science It is a must read for those who wish to grasp the profound interrelation of cultural beliefs and scientific advancement **T.P.'s Weekly** ,1929 **National Union Catalog, 1982** ,1983 *Principles of Experimental Psychology* Henri Piéron,1999 First Published in 1999 Routledge is an imprint of Taylor Francis an informa company **The Rotarian** ,1941-05 Established in 1911 The Rotarian is the official magazine of Rotary International and is circulated worldwide Each issue contains feature articles columns and departments about or of interest to Rotarians Seventeen Nobel Prize winners and 19 Pulitzer Prize winners from Mahatma Ghandi to Kurt Vonnegut Jr have written for the magazine
