we are to understand global capital neoliberalism and the state in meaningful ways we must understand them as they
operate in and on particular places and people Amanda Walsh Globalisation is an inescapable term in the 21st century but its
real meaning is often difficult to pin down This book sheds new light on the political and economic implications of
globalisation by examining the lived experience of a particular region the Shoalhaven area of New South Wales where two
iconic Australian industries dairying and manufacturing struggled to survive in the face of global competition Drilling down
through layers of theory policy and politics Amanda Walsh surveys how globalisation has played out in regional Australia
Using industry case studies she explores how decisions made at a national level have affected regional communities and
considers the role of the state in promoting and mediating globalising forces **Forthcoming Books** Rose Arny,2000

Arcady in Australia Coral Lansbury,1971-01-01 This provocative book examines the vision of Australia in nineteenth
century English literature The industrial revolution destroyed the myth of an idyllic rural way of life in England and writers
like Charles Dickens Bulwer Lytton and Charles Reade created it anew in the improbable environment of Australia The
popular image of Australia in English literature was Arcadian in turn it dominated the thought and traditions of writing in
Australia The man who supplied the material for English writers was Samuel Sidney he was for a time regarded as an expert
on Australia although he had never set foot in the antipodes and all his material was second hand His influence on the
literature of the period and consequently on Australia has received scant attention Sidney s influence is fully examined the
book also offers entirely new material on Wakefield Dickens Lytton and Reade It provides a new and challenging
interpretation of literature and social history in both England and Australia
