

The background of the book cover is a classical landscape painting. In the foreground, there is a dense forest of tall, slender trees with green foliage. A path or stream winds through the trees. In the middle ground, a large, multi-story castle or manor house with a red-tiled roof sits atop a hill. The castle has several windows and a prominent chimney. In the background, there are rolling green hills and a cloudy sky. The overall style is reminiscent of 19th-century landscape art.

All too often ancient herbal and other remedies have been dismissed as simply folklore of no relevance to medical science John Riddle's approach however has been to explore the history of drugs with the hypothesis that ancient and medieval medicines were effective a methodology that he expounds in the final essay hitherto unpublished Indeed he shows both from detailed case studies and from the comparison of the listings given by classical and medieval authorities with those in modern pharmacopoeias that our ancestors had discovered and made effective use of many of the drugs used in medicine today from antiseptics and analgesics to oral contraceptives even chemotherapy for cancer There is the suggestion therefore that more careful examination and identification of the drugs used in the past may reveal chemicals that can be exploited anew Central to these studies is the investigation of how a drug was used and how knowledge about it was transmitted and perhaps also distorted in the process from the Classical world through the Middle Ages Les anciens rem des phytoth rapie et autres ont trop souvent t mis aux rangs du folklore et consid r s comme n ayant aucun rapport avec la science m dicale L approche de John Riddle cependant a t d explorer l histoire des drogues en prenant pour hypoth se l efficacit de la m decine ancienne et m di vale une m thodologie qu il expose dans son dernier essai jusqu pr sent jamais publi En effet il d montre partir de cas d tudes d taill s et de la comparaison tablie entre les listages fournis par les autorit s antiques et m di vales et ceux des pharmacop es modernes que nos anc tres avaient d couvert et mis bon escient l utilisation de nombreux rem des dont se sert la m decine l heure actuelle des antiseptiques et analg siques aux contraceptifs oraux et m me jusqu la chimioth rapie pour le cancer Sugge

web 3 2 2 references what is reflection when a ray of light comes back into the same medium after striking the surface of another medium then the phenomenon is called reflection of light in other words reflection is the bouncing back of the light rays from a surface in the same medium what is refraction

web 692 reflection and refraction of light p25 9 a as measured from the diagram the incidence angle is 60 and the refraction angle is 35 from snell s law  $\sin \theta_1 \sin \theta_2 = \frac{v_1}{v_2}$  then  $\sin \theta_1 = \frac{\sin 35}{\sin 60} = \frac{v_1}{v_2}$  and the speed of light in the block is 20 10 8 ms b the frequency of the light does not change upon refraction

web there are two laws that govern how light changes direction when it interacts with matter the law of reflection for situations in which light bounces off matter and the law of refraction for situations in which light passes through matter in this section we consider the geometric optics of reflection

web refraction is the bending of light it also happens with sound water and other waves as it passes from one transparent substance into another this bending by refraction makes it possible for us to have lenses magnifying glasses prisms and rainbows even our eyes depend upon this bending of light
