State University Press National Directory of Latin Americanists Library of Congress. Hispanic Division,1985 *Monthly Catalogue, United States Public Documents* ,1983-04 **Trespass** Amy Irvine,2024-06-04 Trespass is the story of one woman s struggle to gain footing in inhospitable territory A wilderness activist and apostate Mormon Amy Irvine sought respite in the desert outback of southern Utah s red rock country after her father s suicide only to find out just how much of an interloper she was among her own people But more than simply an exploration of personal loss Trespass is an elegy for a dying world for the ruin of one of our most beloved and unique desert landscapes and for our vanishing connection to it Fearing what her father s fate might somehow portend for her Irvine retreated into the remote recesses of the Colorado Plateau home not only to the world s most renowned national parks but also to a rugged brand of cowboy Mormonism that stands in defiant contrast to the world at large Her story is one of ruin and restoration of learning to live among people who fear the wilderness the way they fear the devil and how that fear fuels an antagonism toward environmental concerns that pervades the region At the same time Irvine mourns her own loss of wildness and disconnection from spirituality while ultimately discovering that the provinces of nature and faith are not as distinct as she once might have believed **Tribal Arts Review** ,1990 *California Archaeology* Michael J. Moratto,2014-05-10 California Archaeology provides a compilation of knowledge for archeologists who are not California specialists This book explains important cultural events and patterns discovered archeologically Organized into 11 chapters this book begins with an overview of California s historic and ancient environments as well as the evidence of Pleistocene human activity This text then examines the glacial and other environmental conditions that would have influenced the origins adaptations and spread of the earliest North Americans Other chapters consider how California s past is relevant to a wider understanding of human behavior This book discusses as well the perceptions of Central Coast and San Francisco Bay region prehistory that have changed rapidly as a result of intensive fieldwork performed to comply with environmental law The final chapter deals with the data of historical linguistics which indicate something of the cultural relationships and events that might have occurred in the past This book is a valuable resource for archeologists **Capitol Reef National Park (N.P.), General Management Plan** ,1998 *Resources in Education* ,1996-04 *Listing of Education in Archeological Programs, the LEAP Clearinghouse ...
