**Contributions to Education**, 1929      Towers in the Void S. E. Kile, 2023-05-30 The maverick cultural entrepreneur Li Yu survived the tumultuous Ming Qing dynastic transition of the mid seventeenth century through a commercially successful practice founded on intermedial experimentation He engaged an astonishingly broad variety of cultural forms from theatrical performance and literary production to fashion and wellness from garden and interior design to the composition of letters and administrative documents Drawing on his nonliterary work to reshape his writing he translated this wide ranging

expertise into easily transmittable woodblock printed form *Towers in the Void* is a groundbreaking analysis of Li Yu's work across these varied fields. It uses the concept of media to traverse them, revealing Li Yu's creative enterprise as a remaking of early modern media forms. S. E. Kile argues that Li Yu's cultural experimentation exploits the seams between language and the tangible world. He draws attention to the materiality of particular media forms, expanding the scope of early modern media by interweaving books, buildings, and bodies. Within and across these media, Li Yu's cultural entrepreneurship with the technology of the printed book embraced its reproducibility while retaining a personal touch. His literary practice informed his garden design, and conversely, he drew on garden design to transform the vernacular short story. Ideas for extreme body modification in Li Yu's fiction remade the possibilities of real human bodies in his nonfiction writing. *Towers in the Void* calls for seeing books, bodies, and buildings as interlinked media forms both in early modern China and in today's media-saturated world, positioning the Ming and Qing as a crucial site of global early modern cultural change.

It promotes research in reading Chinese and celebrates the distinguished and longstanding career of Richard C. Anderson.

**Topics and Concepts in Literary Translation** Roberto A. Valdeón, 2020-06-29. This book explores literary translation in a variety of contexts. The chapters showcase the research into literary translation in North America, Europe, and Asia. Written by a group of experienced researchers and young academics, the contributors study a variety of languages, including English, Spanish, Italian, Chinese, French, Japanese, Dutch, German, and Swedish, using a wide range of approaches, including quantitative review of literary translations, transfictional approaches to translation, and a review of concepts such as paratexts, intralingual translation, intertextuality, and retranslation, and aim to expand on existing debates on translation and translation studies as a discipline. The chapters aim to provide a panorama of the variety of topics and interests of contemporary translation studies, as well as problematize some of the concepts and approaches that seem to have become the only accepted, acceptable model in some academic quarters. This book was originally published as a special issue of *Perspectives Studies in Translation Theory and Practice*.
