Sherlock Holmes The Man And His World:

Sherlock Holmes, the Man and His World Henry Raymond Fitzwalter Keating, 1979 Discusses the life of Sherlock Holmes from his first appearance in a story in 1873 and describes the times in which the stories are set **The Oxford Companion to Twentieth-century Literature in English** Jenny Stringer, 1996 Survey of twentieth century English language writers and writing from around the world celebrating all major genres with entries on literary movements periodicals more than 400 individual works and articles on approximately 2 400 authors *The Logical Foundations of Cognition* John Macnamara, Gonzalo E. Reyes, 1994-10-13 This volume examines the role of logic in cognitive psychology in light of recent developments such as Gonzalo Reyes's new semantic theory Chapters reveal the prospects of applying these new theories to cognitive psychology cognitive science linguistics the philosophy of language and logic The Complete Works of W.R. Bion W. R. Bion, 2019-01-15 The Complete Works of W R Bion is now available in a coherent and corrected format Comprising sixteen volumes bound in green cloth this edition has been brought together and edited by Chris Mawson with the assistance of Francesca Bion Incorporating many corrections to previously published works it also features previously unpublished papers Including a general index and editorial introductions to all the works these volumes will be a useful and valuable aid to psychoanalytic scholars and clinicians and all those interested in studying and making use of Bion's thinking Bion's writings including the previously unpublished papers and additions to his Cogitations collected together in the Complete Works show that the clinical thrust of Bion's work has clear lines of continuity with that of Melanie Klein just as her work has an essential continuity with the later work of Freud In Bion's clinical work and supervision the goal remains insightful understanding of psychic reality through a disciplined experiencing of the transference and countertransference the setting and the method however much Bion's terminology might suggest otherwise remains rigorously psychoanalytic The Two Worlds, 1926 *Reference Guide to Short Fiction* Thomas Riggs, 1999 Reference Guide to Short Fiction provides study and commentary on the most instrumental writers of short fiction through the 20th century International in scope this single scholarly volume includes 779 entries on 377 authors and 402 short stories **Twentieth-century Science-fiction Writers** Curtis C. Smith, 1986 **Paul Auster's "The New York Trilogy" as Postmodern Detective Fiction** Matthias Kugler, 1999-10-28 Inhaltsangabe Abstract Paul Auster's New York Trilogy published in one volume for the first time in England in 1988 and in the U S in 1990 has been widely categorised as detective fiction among literary scholars and critics There is however a striking diversity and lack of consensus regarding the classification of the trilogy within the existing genre forms of the detective novel Among others Auster's stories are described as metaanti detective fiction mysteries about mysteries a strangely humorous working of the detective novel very soft boiled a metamystery glassy little jigsaws a mixture between the detective story and the nouveau roman a metaphysical detective story a deconstruction of the detective novel antidetective fiction a late example of the anti detective genre and being related to hard boiled novels by authors like

Hammett and Chandler Such a striking lack of agreement within the secondary literature has inspired me to write this paper It does not however elaborate further on this diversity of viewpoints although they all seem to have a certain validity and underline the richness and diversity of Auster's detective trilogy neither do I intend to coin a new term for Auster's detective fiction I would rather place The New York Trilogy within a more general and open literary form namely postmodern detective fiction This classifies Paul Auster as an American writer who is part of the generation that immediately followed the classical literary movement of American postmodernism of the 60s and 70s His writing demonstrates that he has been influenced by the revolutionary and innovative postmodern concepts characterised by the notion of anything goes on a planet of multiplicity as well as by French poststructuralism He may however be distinguished from a traditional postmodern writer through a certain coherence in the narrative discourse a neo realistic approach and by showing a certain responsibility for social and moral aspects going beyond mere metafictional and subversive elements Many of the ideas of postmodernism were formulated in theoretical literary texts of the 60s and 70s and based on formal experiments include the attempt of subverting the ability of language to refer truthfully to the world and a radical turning away from coherent narrative discourse and plot These ideas seem to have been internalized by the new generation of postmodern writers of the 80s to such World's Greatest Classics in One Volume Herman Hesse, Marcel Proust, Leo Tolstoy, Friedrich Nietzsche, Dante, Henrik Ibsen, Fyodor Dostoyevsky, Confucius, William Makepeace Thackeray, P.
