Sherpa Of Khumbu People Livestock And Landscape:

Sherpa of Khumbu Barbara Anne Brower, 1991 In the three and a half decades since Nepal opened its borders and Edmund Hillary stood with Tenzing on the summit of Everest the Sherpa world has changed irreversibly Becoming a part of the rest of the world and being defined as a natural park have brought new pressures on the people and the land new expectations about what Sagarmatha National Park ought to look like whom it is for and by whom it should be managed Expeditions and trekking groups with demands for human and animal portage have affected old animal husbandry practices and together with other concomitant developments have vitally affected both the traditional life of the Sherpa people and the fragile high mountain environment of Khumbu This study based on extensive fieldwork looks at animal management in Sagarmatha National Park in the context of Sherpa subsistence demonstrating the intricacy of the man land relationship the adaptability of traditional people and the range of considerations that must be taken into account in any attempt to modify traditional land use practices The Khumbu landscape is graphically described and the human role in modifying the natural landscape is explored Sherpa history and economy are discussed as are the substantial changes that the traditional life of Khumbu has undergone in the past few decades Livestock provides a focal point for this wide ranging investigation and the cattle economy in particular is described in some detail In sum this work provides a well rounded and very readable account of Sherpa society in transition and its interaction with its environment and the external world Although focusing on the Sherpa its relevance stretches far beyond its immediate subject to the study of all traditional societies subject to the pressures of change and the debate on the apparent hiatus between preservation of the environment and the legitimate rights of the people who depend upon it for a livelihood **The Sherpa of Khumbu** Barbara

Brower, 1991-01-01 Sherpa of Khumbu Barbara Brower, 1991 Based on extensive fieldwork this study looks at animal management in Sagarmatha National Park in the context of Sherpa subsistence It demonstrates the intricacy of human land relationships the adaptability of traditional people and the problems of modifying traditional land use practices **The**

Sherpas of the Himalayas Manis Kumar Raha, Palash Chandra Coomar, Sudip Bhui, 2016-01-01 The present book is a detailed first of its kind study of the Sherpas inhabiting Darjeeling District of West Bengal and South District of Sikkim This ethnographic study among the Sherpas of these two areas was undertaken by the authors because firstly the Sherpas here have very interesting culture and secondly these people here are very little known All detailed studies so far published are on the Sherpas of Nepal So people know about the Sherpas of Nepal but not about them living in Darjeeling and Sikkim From this detailed study the readers of this book particularly those who are interested about the people of the Himalayas and of North East India will get a comprehensive idea about the life and activities of these inhabitants of the Himalayas Moreover in this book a comparison between their society and culture and those of their congeners in Nepal has also been made As a result the readers will get a complete life sketch of these people from this book This book will also help in formulating and

undertaking development programmes among them and also in the areas they live *The Sherpas and Their Original Identity* Serku Sherpa, Yana Wengel, 2023-04-11 This book offers a cultural and historical perspective on the Sherpa people exploring how their traditional way of life has been impacted by such factors as urbanisation modernisation globalisation and tourism Though Nepal is a small country it is rich in ethnic religious linguistic and cultural resources Various communities living in Nepal including the Sherpas have their own original cultures traditions and practices Despite outside influence the Sherpa people have preserved their distinct lifestyle which encompasses a unique history culture religion language cuisine and set of traditions It was only after the summit of Everest in 1953 that domestic and foreign scholars began to take an interest in documenting the Sherpa people's way of life The Sherpa's language is an oral one and with this comes difficulties Various translations into other languages have caused mistranslations and a loss of meaning Written by a Sherpa this book seeks to overcome these linguistic barriers and bring Sherpa culture to the reader Serving as a collection of knowledge from distinguished scholars of the Sherpa community religious leaders intellectuals social workers and community organisations this book is a unique auto ethnographic work which bridges the gap between researchers speaking other languages and Sherpa people Indigenous Peoples and the Collaborative Stewardship of Nature Anne Ross, Kathleen Pickering Sherman, Jeffrey G Snodgrass, Henry D Delcore, Richard Sherman, 2016-09-17 Involving Indigenous peoples and traditional knowledge into natural resource management produces more equitable and successful outcomes Unfortunately argue Anne Ross and co authors even many progressive methods fail to produce truly equal partnerships This book offers a comprehensive and global overview of the theoretical methodological and practical dimensions of co management The authors critically evaluate the range of management options that claim to have integrated Indigenous peoples and knowledge and then outline an innovative alternative model of co management the Indigenous Stewardship Model They provide detailed case studies and concrete details for application in a variety of contexts Broad in coverage and uniting robust theoretical insights with applied detail this book is ideal for scholars and students as well as for professionals in resource management and policy *Tigers of the Snow and Other Virtual Sherpas* Vincanne Adams, 2014-05-06 Sherpas are portrayed by Westerners as heroic mountain guides or tigers of the snow as Buddhist adepts and as a people in touch with intimate ways of life that seem no longer available in the Western world In this book Vincanne Adams explores how attempts to characterize an authentic Sherpa are complicated by Western fascination with Sherpas and by the Sherpas' desires to live up to Western portrayals of them Noting that diplomatic aides at world summit meetings go by the name Sherpa as do a van in the U K built for rough terrain and a software product from Silicon Valley Adams examines the authenticating effects of this mobile signifier on a community of Himalayan Sherpas who live at the base of Mount Everest Nepal and its deauthenticating effects on anthropological representation This book speaks not only to anthropologists concerned with ethnographic portrayals of Otherness but also to those working in cultural studies who are concerned with ethnographically grounded

analyses of representations Throughout Adams illustrates how one might undertake an ethnography of transnationally produced subjects by using the notion of virtual identities In a manner informed by both Buddhism and shamanism virtual Sherpas are always both real and distilled reflections of the desires that produce them

Towards Sustainable Tourism in the Everest Region of Nepal Dr. Paul Rogers, J. W. Aitchison, 1998 *Nature-based Tourism in Peripheral Areas* Colin Michael Hall, Stephen W. Boyd, 2005-01-01 Nature based Tourism in Peripheral Areas provides a comprehensive examination of this form of tourism development as it occurs within alpine forest sub polar island coastal and marine environments This book goes beyond much of the debate surrounding ecotourism and the impacts of tourism in vulnerable environments to place nature based tourism in a wider regional context particularly when for many peripheral regions tourism remains one of the key opportunities for economic development Therefore a central theme that is present throughout many of the chapters is the role that nature based tourism can play as the catalyst for larger regional development of regions The book will serve as essential reading to senior undergraduate and postgraduate students taking courses in tourism and related degrees where the major focus is on tourism that occurs within peripheral regions It will also serve as a key reference to researchers and professionals interested in the role of tourism as a regional development tool

Ecotourism and Environmental Sustainability Tim Gale, 2016-04-29 This book offers conceptual and practical insights into the complex interactions between ecotourism and the natural environment with consideration given to government policy marketing by suppliers consumer behaviour and visitor environmental management Illustrated by international case studies the roles of and interplay between tour operators their clients resource managers and local communities are examined This creates a comprehensive and insightful overview of the factors that work for and against the achievement of environmental sustainability in and through ecotourism The result is a critical examination of ecotourism and environmental sustainability that highlights ideas for best practice and proposes new directions for future research

Space, Place and Religious Landscapes Darrelyn Gunzburg, Bernadette Brady, 2020-10-01 Exploring sacred mountains around the world this book examines whether bonding and reverence to a mountain is intrinsic to the mountain constructed by people or a mutual encounter Chapters explore mountains in England Scotland Wales Italy Ireland the Himalaya Japan Greece USA Asia and South America and embrace the union of sky landscape and people to examine the religious dynamics between human and non human entities This book takes as its starting point the fact that mountains physically mediate between land and sky and act as metaphors for bridges from one realm to another recognising that mountains are relational and that landscapes form personal and group cosmologies The book fuses ideas of space place and material religion with cultural environmentalism and takes an interconnected approach to material religio landscapes In this way it fills the gap between lived religious traditions personal reflection phenomenology historical context environmental philosophy myths and performativity In defining material religion as active engagement with mountain forming and humanshaping landscapes the research and ideas presented here provide theories

that are widely applicable to other forms of material religion

Mountains: Physical, Human-Environmental, and Sociocultural Dynamics Mark A. Fonstad, 2018-12-07 Mountains have captured the interests and passions of people for thousands of years Today millions of people live within mountain regions and mountain regions are often areas of accelerated environmental change This edited volume highlights new understanding of mountain environments and mountain peoples around the world The understanding of mountain environments and peoples has been a focus of individual researchers for centuries more recently the interest in mountain regions among researchers has been growing rapidly The articles contained within are from a wide spectrum of researchers from different parts of the world who address physical political theoretical social empirical environmental methodological and economic issues focused on the geography of mountains and their inhabitants The articles in this special issue are organized into three themed sections with very loose boundaries between themes 1 physical dynamics of mountain environments 2 coupled human physical dynamics and 3 sociocultural dynamics in mountain regions This book was first published as a special issue of the Annals of the American Association of Geographers
