1543 and All That G. Freeland, Anthony Corones, 2013-11-09. Australia and New Zealand boast an active community of scholars working in the field of history, philosophy and social studies of science. *Australasian Studies in History and Philosophy of Science* aims to provide a distinctive publication of essays on a connected outlet for their work. Each volume comprises a group theme edited by an Australian or a New Zealander with special expertise in that particular area. In each volume a majority of the contributors is from Australia or New Zealand. Contributions from elsewhere are by no means ruled out however and are indeed actively encouraged wherever appropriate to the balance of the volume in question. Earlier volumes in the series have been welcomed for significantly advancing the discussion of the topics they have dealt with. I believe that the present volume will be greeted equally enthusiastically by readers in many parts of the world.
