## **Shigeru Ban:**

*Shigeru Ban* Shigeru Ban, Riichi Miyake, 2009 This large format monograph is the first to chronicle exclusively Shigeru Ban's explorations in paper architecture. Informed by a thorough and early interest in sustainable forms, his innovative practice pioneered the use of paper as a structural element in buildings. This book features permanent and temporary structures ranging from one-off museums and exhibition spaces to emergency structures for communities displaced by natural and man-made catastrophes. The forty projects featured in the book showcase the variety of possible applications for paper and its derivative forms: cardboard, fiber-based composites. As flexible as it is adaptable when used in tandem with other locally sourced building materials or post-industrial surplus maritime shipping containers, Ban's singular use of paper knowingly references paper's traditional uses in vernacular Japanese buildings and advances modern construction technology, reducing its environmental impact. A number of prominent works from the last decade are featured, including the Nomadic Museums built in New York, Los Angeles, and Tokyo; his work for the Centre Pompidou in Paris and Metz; the Papertainer Museum in Seoul; his pavilions for design and luxury brands like Louis Vuitton and Artek; as well as a number of landmark residences in Japan, Europe, and North America. Of particular focus will be Ban's humanitarian work. Documented in a book for the first time are all the relief projects his studio has undertaken in the last two decades for the U.N. High Commission on Refugees. These include housing for tsunami victims in Sri Lanka and earthquake victims in Turkey and Japan, and emergency shelter for war-ravaged communities in Rwanda and the Congo. **Book Jacket** **Shigeru Ban** Shigeru Ban, David N. Buck, 1997 *Værker af den japanske arkitekt Shigeru Ban 1957* Shigeru Ban Shigeru Ban, Kristin Feireiss, Hans Jürgen Commerell, 2001 Shigeru Ban Shigeru Ban, 2001-05 Shigeru Ban may be best known for his evocative Curtain Wall House in Tokyo, a highlight of the Museum of Modern Art's 1999 *Un-Private House* exhibit, but few know the range of this Japanese architect's work. In this first English language monograph on Ban, 30 built projects reveal his inventiveness and humanitarianism. Ban's primary objectives in his work are the use of low-cost materials and the dissolution of the boundaries between interior and exterior spaces. His paper tube designs, which he first created as emergency housing for victims of Rwanda's civil war, were later reconfigured for earthquake victims in Kobe and are currently incorporated in Ban's Japanese Pavilion at Hannover Expo 2000. Influenced by the Japanese tradition of linking the home with the surrounding environment, Ban has created buildings such as Hanegi Forest and Walls-less House that invite nature to coexist with design. **Shigeru Ban**, 2017 **Shigeru Ban Architects** Shigeru Ban Architects, 2018 The ideas and works set out in this richly photographed monograph of Shigeru Ban's architectural practice make a substantial contribution to the construction of a new vision for world of architecture and society in the 21st century.
