Japan Modern Michiko Rico Nose,2012-06-05 This Japanese design book featuring over 200 stunning photographs captures the delightful modern style of the Japanese home Japan has always intrigued the world with its deceptively simple blending of architecture landscape and design Zen temples the famous tea ceremony formal gardens the use of wood paper and other materials in the form of screens and floors all have evolved over the years to create a varied yet indisputably unique style Japan Style showcases 40 contemporary homes many never photographed before and explores the unique Japanese design in all its manifestations The book is divided into four chapters Reworking Tradition Managing Space Experimenting with Materials Personal Statements Each home is representative in its own way of the changing face of Japanese interior design and architecture and will be sure to inspire some new design ideas for your own home *Breathing with Missoku* Akikazu Nakamura,2024-11-26 The interest in all things Japan as well as the increasing effort to center both physical and mental health as a core value of any flourishing society leads to the nexus explored in this book Missoku a unique breathing method that has been handed down through Japanese Zen tradition Missoku is a form of breathing in which the pelvis is tilted and the abdomen is in an expanded state It's proven to be effective in sports martial arts dance theatre and playing musical instruments The benefits to overall health and stamina are bountiful One incentive includes an increase in respiration capacity which in turn stimulates the brain balances autonomic nerves and improves immune defenses *The Politics of Furniture* Freddie Floré,Cammie McAtee,2017-02-10 In many different parts of the world modern furniture elements have served as material expressions of power in the post war era They were often meant to express an international and in some respects apolitical modern language but when placed in a sensitive setting or a meaningful architectural context they were highly capable of negotiating or manipulating ideological messages The agency of modern furniture was often less overt than that of political slogans or statements but as the chapters in this book reveal it had the potential of becoming a persuasive and malleable ally in very diverse politically charged arenas including embassies governmental ministries showrooms exhibitions design schools libraries museums and even prisons This collection of chapters examines the consolidating as well as the disrupting force of modern furniture in the global context between 1945 and the mid 1970s The volume shows that key to understanding this phenomenon is the study of the national as well as transnational systems through which it was launched promoted and received While some chapters squarely focus on individual furniture elements as vehicles communicating political and social meaning others consider the role of furniture within potent sites that demand careful negotiation whether between governments cultures or buyer and seller In doing so the book explicitly engages different scholarly fields design history history of interior architecture architectural history cultural history diplomatic and political history postcolonial studies tourism studies material culture studies furniture history and heritage and preservation

studies Taken together the narratives and case studies compiled in this volume offer a better understanding of the political agency of post war modern furniture in its original historical context At the same time they will enrich current debates on reuse relocation or reproduction of some of these elements *The International Collection of Interior Design* ,1986 The International Design Yearbook 2001 Michele De Lucchi,Jennifer Hudson,2001 The editor has grouped together objects in catagories which illuminate current developments in design such as home office furniture the work of leading architects ranging from Norman Foster and David Chipperfield to Zaha Hadid and Kazuyo Sejima new treatments of traditional forms like wickerware minimalist designs and innovations from leading companies like Apple Philips Sharp and Siemens
