marking a new moment in the evolution of humanity's consciousness concerning our relationship to Earth and to the cosmos. We now accept that human beings are interacting with a living planet and we understand that this living planet has an energetic relationship to the galaxy. We have also come to understand that the entire biological and energy system of this beautiful planet we live on is totally dependent on how humans treat the planet, the environment and other life forms on Earth. Biorelativity describes the ability of human beings to telepathically communicate with the spirit of the Earth. The goal of such communication is to influence the outcome of natural Earth events such as storms, volcanoes and earthquakes. *A New Formula for Creation* Judith K. Moore, 2006-05. The most significant events in Earth's history are happening in secret. Despite official denial and tactics of derision, inquiring minds are demanding the truth. This truth is stranger than all the fictions about ETs, alien bases and the secret government. This courageous book shines the light to expose truths that will change forever how we view our lives on this planet. It asks the reader to join in the investigations, ask the questions and think the unthinkable. Explore the truth about the controllers of Earth and their alien allies. Discover the updated news about what is happening on the third dimension and what it really means from the higher dimensions perspective. The revelations are shocking and enlightening. A crashed UFO leads to information on the secret government's time travel spacecraft, Renegade ETs mining on the Moon, The U.S. peace avatar president, Ancient Pleiadian warships, The prime directive, now, Underground alien bases and populations. And many more startling facts.

**Beyond Ascension** Joshua David Stone, 1995. This book brings forth incredible new channeled material that completely demystifies the seven levels of initiation and how to attain them. It contains revolutionary new information on how to anchor and open our thirty-six chakras and how to build our light quotient at a rate of speed never dreamed possible. The book includes a chapter on cosmic ascension and a unique cosmic map that outlines the process of planetary ascension. The map also charts the course for full cosmic ascension through the seven cosmic planes and forty-eight dimensions of reality back to the Godhead and undifferentiated Source.
