**Shipwrecks & Sea Monsters of California's Central Coast** Randall A. Reinstedt,1975      **Mysterious Sea Monsters of California's Central Coast** Randall A. Reinstedt,1993      **Lake and Sea Monsters** Linda S. Godfrey,2009 Explores humanity's fascination with lake and sea monsters and separates fact from fiction by examining ancient legends and myths contemporary eyewitness accounts and the latest scientific discoveries      **Encyclopedia of Cryptozoology** Michael Newton,2016-10-05 On every continent and in every nation animals unrecognized by modern science are reported on a daily basis People passionately pursue these creatures the name given to their field of study is cryptozoology Coined in the 1950s the term literally means the science of hidden animals When the International Society of Cryptozoology ISC was formed in 1982 the founders declared that the branch of science is also concerned with the possible existence of known animals in areas where they are not supposed to occur either now or in the past as well as the unknown persistence of presumed extinct animals to the present time or to the recent past what makes an animal of interest to cryptology is that it is unexpected This reference work presents a flesh and blood view of cryptozoology Here 2 744 entries are listed the majority of which each describe one specific creature or type of creature Other entries cover 742 places where unnamed cryptids are said to appear profiles of 77 groups and 112 individuals who have contributed to the field descriptions of objects and events important to the subject and essays on cryptotourism and hoaxes for example Appendices offer a timeline of zoological discoveries annotated lists of movies and television series with cryptozoological themes a list of crypto fiction titles and a list of Internet websites devoted to cryptozoology      *Encarnación's Kitchen* Encarnación Pinedo,2005-10-24 It's a rare cookbook that is as pleasurable to think about as it is to cook from But that's what Dan Strehl has accomplished with his elegant translation of Encarnación's Kitchen a book that provides a fascinating look at the life and cooking of the wealthy Californios in the final days of the rich Rancho culture of California Russ Parsons author of *How to Read a French Fry* At long last It is with enormous pleasure that I greet Dan Strehl's authoritative English translation Encarnación's Kitchen I should like to have had the original Spanish edition as well but I dream Karen Hess author of *The Carolina Rice Kitchen* Encarnación's Kitchen is far more than a historical curiosity or a mere kitchen fragment that sketches silhouettes of ingredients and techniques The recipes of Encarnación Pinedo's kitchen brought alive and set in context by Dan Strehl and Victor Valle's lucid introduction offer rich examples of how California's Mexican culinary culture developed as it bumped into and cross pollinated with young multifarious America These dishes lay bare the often overlooked reality that food can be more than a reflection of culture Food as Encarnación understood can be a seductively delicious catalyst for social understanding change even rebellious protest Rick Bayless author of *Mexico One Plate at a Time*      **Pacific Grove** Kent Seavey,2005 Pacific Grove in the pine forests on the westernmost tip of Monterey Bay is a magnet for wildlife tourists and scientists Site of the first operational lighthouse in California and the first marine laboratory on the Pacific Coast its beaches attracted camp meetings in the 19th

century Rows of tent housing that lined the original streets grew into charming neighborhoods of seaside cottages lit annually by the Feast of Lanterns since 1905 Botanical and biological splendor attracted scientists like Edward Flanders Ricketts made famous by his friend and one time Pacific Grove resident John Steinbeck Each year hundreds of groups use its famous conference center Asilomar and each fall tens of thousands of Monarch butterflies make a 2 500 mile journey to hang from the pines in great clusters of wafting wings Shipwrecks and Lime Kilns ,2018 **San Mateo County Coast** Michael Smookler,2005 From Pacifica to Pescadero and south to the Santa Cruz County line San Mateo County has 75 miles of stunning rugged coastline Development has been minimal but a detailed history lurks among these rocky coves sandy beaches and barking sea lions After European contact Portuguese fishermen set up shop here establishing themselves throughout the coast and pulling in a remarkable catch from the waters Others soon joined and built the larger cities of Half Moon Bay and Pacifica along with smaller communities like Montara El Granada and San Gregorio Fishing and agriculture have coexisted here for decades along with government operations such as Coast Guard light stations defense artillery bunkers and the Air Force station at Pillar Point *Catalog of Copyright Entries.
