## **Shisendo Hall Of The Poetry Immortals:**

**Shisendo, Hall of the Poetry Immortals** J. Thomas Rimer, 1991 Shisendo is an elegant hermit's retreat in Kyoto designed and built by the great poet Ishikawa Jozan 1583-1672. Renowned as one of Kyoto's loveliest and most intimate gardens, it has the tranquillity and sad soft beauty that was the aesthetic ideal of Jozan and his time. This book is a collaboration among scholars of Jozan's poetry, his calligraphy, and his design prowess. In addition, it includes a biography of Jozan, a detailed description of his garden and the architectural features of his retreat, and a new translation of Shuichi Kato's short story about Jozan. The Dynamics of Cultural Counterpoint in Asian Studies David Jones, Michele Marion, 2014-03-01 Essays on a wide range of areas and topics in Asian studies for scholars looking to incorporate Asia into their worldview and teaching. Contributors give contemporary presence to Asian studies through a variety of themes and topics in this multidisciplinary and interdisciplinary volume. In an era of globalization, scholars trained in Western traditions increasingly see the need to add materials and perspectives that have been lacking in the past. Accessibly written and void of jargon, this work provides an adaptable entrance to Asia for the integration of topics into courses in the humanities, social sciences, cultural studies, and global studies. Guiding principles developed at the East West Center include noting uncommon differences, the interplay among Asian societies and traditions, the erosion of authenticity and cultural tradition as an Asian phenomenon as well as a Western one, and the possibilities Asian concepts offer for conceiving culture outside Asian contexts. The work ranges from South to Southeast to East Asia. Essays deal with art, aesthetics, popular culture, religion, geopolitical realities, geography, history, and contemporary times. This volume truly lies at the intersection of scholarship and teaching. Each essay has the potential to help rethink approaches to scholarly issues, and there is a great deal of material for classroom discussion and examples. The book's breadth, covering India, China, Korea, the Sea of Malay, Bhutan, and other locations, is impressive. Robert Andr  LaFleur, Beloit College. *The Greenwood Encyclopedia of Homes through World History* James M. Steele, 2009-03-30 The house throughout history in every place in the world has been built to provide shelter from the elements. The dwellings that have resulted are as different as the people that have built them, the social norms that prevailed at the time and place in which they were built, and the natural environment that they adapted to. Studying them now in a comprehensive way allows us to understand the social, political, economic, and religious conditions that existed for their inhabitants. They are a three-dimensional record of culture. Twenty-four pages of color images, along with black and white images through three volumes, illustrate the homes of people throughout the world. The volumes cover ancient times to the late Middle Ages, the Renaissance to the Industrial Revolution, and the Post Industrial Revolution to the Present. *How to Read a Japanese Poem* Steven D. past golden era Although art of the early Edo period 1600 1868 encompasses a spectrum of themes and styles references to the past are so common that many Japanese art historians have variously described this period as a classical revival era of classicism or a renaissance How did seventeenth century artists and patrons imagine the past Why did they so often select styles and themes from the court culture of the Heian period 794 1185 Were references to the past something new or were artists and patrons in previous periods equally interested in manners that came to be seen as classical How did classical manners relate to other styles and themes found in Edo art In considering such questions the contributors to this volume hold that classicism has been an amorphous changing concept in Japan just as in the West Troublesome in its ambiguity and implications it cannot be separated from the political and ideological interests of those who have employed it over the years The modern writers who first

**Storehouse of Treasures** Nelson Foster, 2024-09-10 Storehouse of Treasures unearths wise and beautiful elements of Chan and Zen still little known in the West revealing unexpected aspects of the tradition and new implications for practice Since the dawn of Chan and Zen in medieval China and Japan members of these schools have enlivened their teaching by creatively adopting and adapting terms images principles poetry and lore native to their societies Unfortunately so much of that cultural wealth has been lost in

translation that Western practitioners have barely begun to discover and appreciate this extraordinarily rich legacy In Storehouse of Treasures second generation American Zen teacher Nelson Foster makes a series of adventuresome forays into the trove of material laid up by the Dharma ancestors bringing to light Masters delight in playing with words stories and inherited Buddhist concepts bending them to express the Dharma in inspired ways The powerful influence that Taoist and Confucian thought exerted in the formation of Chan and Zen The emphasis the two schools have laid on excellence of character as well as on profound awakening The experiential meaning and enduring importance to the tradition of ideals little associated with it today like integrity shame and contentment How knowing the tune of a fellow student a mentor or a teacher of old lies at the heart of transmitting the Dharma Lifting to attention a diverse set of ancient yet still luminous Dharma gems Foster urges their relevance and value to us as students of the Buddha Way and as citizens of a world increasingly fractious and imperiled
