Clément, 2023-06-27 How do collective actors move from moderate politics to violent extremism Faced with high risks of repression and implosion they need to legitimate such radical change to keep members and followers committed to collective action Drawing on the texts audios and videos of five Islamist organisations in the UK and Germany in the 2000s and 2010s the book develops a transdisciplinary theoretical framework and innovative methodological approach to explore how radical changes in activism are mediated Clément argues that political violence has to feel right as a collective for an organisation and its followers to move from moderate activism to violent extremism She shows that organisations mediate this change by performing collective emotions in and through narrative The book offers a provocative and nuanced account which departs from conventional interpretations of radicalisation and reminds us of the power of emotions
