Sackler Gallery (Smithsonian Institution), Harvard Film Archive, 2007* *Shohei Imamura* Shohei Imamura, Bergamo Film Meeting, 5, 1987* **Shohei Imamura** Cinematheque Ontario, 1997 Shohei Imamura is among the most important artists of postwar Japanese cinema Best known in the west for his award winning *The Ballad of Narayama* Imamura has produced a body of work that is unequalled for its tumultuous energy and formal daring A dozen essays by such eminent authorities of Japanese cinema as Donald Richie Max Tessier and Audie Bock are supplemented by interviews with and articles by Imamura which explore his influences themes and working methods Published by Cinematheque Ontario Distributed in Canada by Wilfrid Laurier University Press Distributed outside Canada by Indiana University Press **Dialectics of the Goddess in Japanese Audiovisual Culture** Lorenzo J. Torres Hortelano, 2017-12-01 Through provocative essays by specialists in different aspects of Japanese culture this book provides an historical and analytical survey of the presence of Goddesses in Japanese audiovisual culture from its origins to the present day It shows how these feminine myths are represented in Japan not only as beneficial or creative deities but also the archetypal strong or dominant woman that sometimes overshadows masculine figures and heroes or as influential figures Therefore it analyzes this rich dialectic of the feminine and how the audiovisual culture has represented it thus far in film TV series and video games made in Japan While many theories have been proposed to explain the presence of Goddesses in Japan this book's focus on audiovisual culture explores how this corpus challenges the traditional conceptions of the feminine as related to Goddesses **A Hundred Years of Japanese Film** 日本映画百年史, 2005-05-27 Donald Richie is one of the foremost authorities on Japanese cinema and has produced several classic works including books on the world renowned directors Kurosawa and Ozu Richie here offers a highly readable insider's look at the achievements of Japanese filmmakers Donald Richie is one of the foremost authorities on Japanese cinema and has produced several classic works including books on the world renowned directors Kurosawa and Ozu Richie here offers a highly readable insider's look at the achievements of Japanese filmmakers He begins in the late 1800s *The Power of Memory in Modern Japan* Sven Saaler, Wolfgang Schwentker, 2008-06-26 Due to their symbolic and iconographic meanings expressions of collective memory constitute the mental topography of a society and make a powerful contribution to its cultural political and social identity In Japan the subject of memory has prompted a huge response in recent years Indeed it has been and continues to be debated at many levels of Japan's political social economic and cultural life For the historian and social scientist the opportunity to access recorded memories is invariably welcomed as a valuable building block in research and a determinant in establishing balance and perspective This volume brings together a selection of the most significant research on memory relating to modern Japan Thematically structured Politics and International Relations Memorials Museums National Heroes Popular and Intellectual

Representations of Memory Realms of Memory Centre and Periphery the subjects treated include the Nanjing massacre comfort women the fate of war monuments the political use of national memory in post war Japan and remembering the atomic bomb

Developments in the Japanese Documentary Mode Marcos Centeno, Michael Raine, 2021-06-10 Writing on Japanese cinema has prioritized aesthetic and cultural difference and obscured Japan's contribution to the representation of real life in cinema and related forms Donald Richie who was instrumental in introducing Japanese cinema to the West even claimed that Japan did not have a true documentary tradition due to the apparent preference of Japanese audiences for stylisation over realism a preference that originated from its theatrical tradition However a closer look at the history of Japanese documentary and feature film production reveals an emphasis on actuality and everyday life as a major part of Japanese film culture That documentary mode crossing genre and medium like Peter Brooks melodramatic mode rather than limited to styles of documentary filmmaking alone identifies rhetoric of authenticity in cinema and related media even as that rhetoric was sometimes put in service to political and economic ends The articles in this Special Issue *Developments in the Japanese Documentary Mode* trace important changes in documentary film schools and movements from the 1930s onwards sometimes in relation to other media and the efforts of some post war filmmakers to adapt the styles and ethical commitments that underpin documentary's impression of authenticity to their representation of fictional worlds
