Field and Stream ,1973-02 *Targeting Guns* Gary Kleck,2017-07-05 This new paperback comprehensively reviews the research evidence on the links between guns violence and gun control and reports results of the author s own research as well In *Targeting Guns* Kleck follows the line of argument and careful statistical inference of his earlier prizewinning volume *Point Blank* while updating the literature reviews and statistical information and adding two chapters *Point Blank* Gary Kleck,2017-07-12 By 1990 there were approximately 200 million guns in private hands in the United States and around half of American households contained a gun Over 30 000 people a year are killed with guns in suicides homicides and accidents and Americans use guns for defensive purposes as many as a million times a year There is little doubt that gun violence and control are issues of vital importance and they continue to inspire national debate It is doubtful however that most gun debates are worth listening to Not surprisingly they generally leave their participants exactly where they began with their biases intact and onlookers perplexed Written deliberately to counter an atmosphere of hysteria and extremism *Point Blank* now in paperback offers logical argument supported by empirical information It confronts fundamental questions head on On its initial publication in 1993 *Point Blank* won the Michael J Hindelang Award of the American Society of Criminology for the book that made the most outstanding contribution to criminology *Point Blank* reports both original research and assesses existing evidence drawn from a wide variety of academic disciplines including criminology sociology law and medicine
