Teaching and Learning English in Non-English-Speaking Countries Shahnaz Shoro, 2019-01-29 The English language is currently used as a second or foreign language in those countries which had once been British colonies For example when united India was partitioned into two main countries India and Pakistan it was intended that English would gradually be replaced as the language of administration in both countries However as the countries were also home to several regional languages attempts to introduce a sole official language and abolish English as the second official language have never succeeded In today's world English is the language of the cultural social and political elite offering significant economic political and social advantages to fluent speakers Speakers of the English language automatically enjoy greater social status and have easier access to positions of power and influence Learning and teaching the English language has therefore become a concern for those who cannot afford to study in native speaking countries or at local expensive English medium schools This book provides various government and non government educational and professional institutions with simple and practical
