Short History Of The Far East:

A Short History of the Far East Kenneth Scott Latourette, 1957 *A Short History of the Far East* Kenneth Scott Latourette, 1970 **Books on Asia from the Near East to the Far East** Eleazar Birnbaum, 1971-12-15 This is a selected annotated list of some 2 000 books on Asia in English and French currently in print chosen with the aim of providing a long term historical perspective for the general reader The list is presented in four main parts Asia as a whole the Islamic world India South and Southeast Asia the Far East Subdivisions cover such topics as general and reference works history social science and law history of literature literature in translation religion and ideas arts crafts architecture and science and the lands in modern times **On the Frontiers of History** Tessa Morris-Suzuki, 2020-08-17 Why is it that we so readily accept the boundary lines drawn around nations or around regions like Asia as though they were natural and self evident when in fact they are so mutable and often so very arbitrary What happens to people not only when the borders they seek to cross become heavily guarded but also when new borders are drawn straight through the middle of their lives The essays in this book address these questions by starting from small places on the borderlands of East Asia and looking outwards from the small towards the large asking what these minor pasts tell us about the grand narratives of history In the process it takes the reader on a journey from Renaissance European visions of Tartary through nineteenth century racial theorising imperial cartography and indigenous experiences of modernity to contemporary debates about Big History in an age of environmental crisis *A Short History of the Middle East* George E. Kirk, 2016-11-10 This book first published in 1948 grew out of a series of lectures delivered since the War at the Middle East Centre for Arab Studies to British students who required a solid grounding in Middle East history and politics to assist in fitting them for active careers in the region These lectures by a leading specialist on Middle Eastern history generated such interest that they were adapted and published in book form for a wider reading public The book forms a comprehensive introduction to the history of the Middle East **A Short History of the Twentieth Century** John Lukacs, 2013-10-07 The great themes woven through John Lukacs s spirited concise history of the twentieth century are inseparable from the author s own intellectual preoccupations the fading of liberalism the rise of populism and nationalism the achievements and dangers of technology the continuing democratization of the globe and the limitations of knowledge **A Short History of Sino-Soviet Relations, 1917-1991** Zhihua Shen, 2019-10-31 Drawing on the rich trove of recently declassified Russian and Chinese archival materials this history of Sino Soviet relations in the 20th century sheds new light on key events during this period It offers fresh insights into the role of ideology and national interests in the evolution of the complex and turbulent relationship between not just the two countries but also their respective Communist Parties The chapters on the normalization of bilateral ties provide an in depth analysis of divisions in the socialist camp that culminated in both its collapse and the disintegration of the Soviet Union The book argues that 20th century Sino Soviet relations reflected both long standing and emerging political and geopolitical challenges facing members

of the Cold War socialist camp in particular tensions between the ideal of internationalism and national aspirations between commitment to the principle of sovereignty and commitment to that of equality in international relations and between inter party relations and inter state relations This makes for a valuable addition to the reading lists of all those interested in the development of the relationship between two of the world s most important countries

A Short History of England Simon Jenkins, 2011-09-08 From the invaders of the dark ages to the aftermath of the coalition, one of Britain's most respected journalists Simon Jenkins weaves together a strong narrative with all the most important and interesting dates in a book that characteristically is as stylish as it is authoritative. *A Short History of England* sheds light on all the key individuals and events, bringing them together in an enlightening and engaging account of the country's birth, rise to global prominence and then partial eclipse. There have been long synoptic histories of England, but until now there has been no standard short work covering all significant events, themes and individuals. Now updated to take in the rapid progress of recent events and beautifully illustrated, this magisterial history will be the standard work for years to come. *A Short History of the Far East* Wing-ho Ha (Timothy), 1970 **A Short History of the World** H.
