Short History Of The Western Liturgy:

A Short History of the Western Liturgy Theodor Klauser, 1969 **A Brief History of Christian Worship** James F. White, 2010-09-01 Most histories of Christian worship are written as if nothing significant in liturgical history ever happened in North America as if cultural diversities were insignificant in the development of worship and as if most of what mattered were words the priest or minister addressed to God This book is a revisionist work attempting to give new direction to liturgical history by treating the experience of worship of the people in the pews as the primary liturgical document It means liturgical history written facing the other way that is looking into the chancel rather than out of it Relishing the liturgical diversity of recent centuries as firm evidence of Christianity's ability to adapt to a wide variety of peoples and places Professor White shows that this tendency has been apparent in Christian worship since its inception in the New Testament churches Instead of imposing one tradition's criteria on worship he tries to give a balanced and comprehensive approach to the development of the dozen or more traditions surviving in the modern world **Beginning At Jerusalem** Glenn W. Olsen, 2010-10-29 A highly regarded historian and professor presents a sustained reflection on the meaning of the Church's life in time Divided into five parts each section takes up a period of Church history and considers how the developments in church history relate to the Church today From doctrines to customs Olsen examines both the theological and historical impact of each new development Beginning with ancient Christianity the author illustrates how both secularization and sacralization take place in history and how it corresponds to our own age Taking the reader from late ancient and early medieval Christianity to the full bloom of medieval scholasticism and scholarship to the dawn of the Renaissance and the aggressively anti religious time of the Enlightenment Olsen considers all aspects of every age The final section is a discussion of the Church in our own time confronting such problems as modernization and the relation of the Church to culture Appendices expand on The Catechism of the Catholic Church's teaching on the relation between prayer and history **The Oxford History of Christian Worship** Geoffrey Wainwright, 2006 The Oxford History of Christian Worship is a comprehensive and authoritative history lavishly illustrated of the origins and development of Christian worship up to the present day Following contemporary methods in scholarship it attends to social and cultural contexts and examines the worship traditions from both Eastern and Western Christianity ancient and modern It offers a chronological account while encompassing spatial and confessional variations from Baptists in Britain to Roman Catholics in Mexico from Orthodox in Ethiopia to Pentecostals in the United States from Lutheran and Reformed in Europe to united churches in India and Australia The material details of Christian worship such as music architecture and the visual arts are considered within specific cultural contexts throughout the volume as well as studied thematically in individual chapters **BOOK JACKET** *The Penguin History of the Church* Henry Chadwick, 1993-09-30 Examines the beginning of the Christian movement during the first centuries AD and the explosive force of its expansion throughout the Roman world **The Western Church in the**

Later Middle Ages Francis Oakley, 1985 Francis Oakley addresses late medieval church history in its own terms pointing out not only discontinuities but also continuities with earlier medieval experience By doing so he writes I hope to have avoided the distortions and refractions that occur when that history is seen too obsessively through the lens of the Reformation

The Eucharist as Offering of Firstfruits Lawrence Francis Ligoeki, 2017-06-04 One of the difficulties for Protestant Evangelical Pentecostal and other Christians is how to understand the Eucharist as sacrifice offering and oblation A return to ancient Jewish and Christian sources has uncovered the category of the offering of firstfruits This is found in a lesser degree among Second Temple Judaism and to a greater degree in early Christian literature beginning with the New Testament itself This has brought renewed interest in understanding the Eucharist not only in the context of the Feast of Passover but also in light of the Feast of Pentecost and the offering of firstfruits and within the context of the Zebach t d that is the sacrifice of praise and thanksgiving This has strong implications for a theological liturgical spiritual and practical awakening in understanding the Eucharist as Sacrifice In the Eucharist the Church offers the firstfruits of creation Christ and also herself to the Father in the Holy Spirit Each member is called to actively participate in the Eucharistic sacrifice through which they themselves become a Holy and Living sacrifice for the life of the world This has implications for a renewed Eucharistic spirituality and worship the New Evangelization and new works of mercy

The Medieval Church Carl A. Volz, 2011-07-01 Why does one's concept of the medieval church have a direct bearing on one's attitude toward ecumenism How was Europe evangelized Why is it essential to understand the different relationships of church to state between the West and Byzantium in order to understand the church's role in Eastern culture today What common practices of public worship and personal piety have their roots in the medieval church The Medieval Church From the Dawn of the Middle Ages to the Eve of the Reformation addresses these questions and many more to demonstrate the pervasive influence of the past on modern piety practice and beliefs For many years the Medieval period of church history has been ignored or denigrated as being the dark ages an attitude fostered by Enlightenment assumptions Yet not only does this millennium provide a bridge to the early church it created modern Europe and its nations institutions and the concept of Christendom as well The Medieval Church written in an easily accessible style introduces the reader to the fascinating interplay of authority and dissent the birth and development of doctrinal beliefs the spirituality of the common person and the enduring allure of Christian mysticism The Medieval Church is a companion to The Early Church Origins to the Dawn of the Middle Ages by E Glenn Hinson and The Modern Church From the Dawn of the Reformation to the Eve of the Third

Worship in Spirit and Truth Julia Upton, 2010-01-01 Following the death of H A Reinhold in 1968 Godfrey Diekmann referred to him as a liturgical prophet Diekmann a liturgical giant in his own right called on others to follow in Reinhold's

steps and take up his mantle in the thorny task of pastorally implementing the liturgical changes brought about by the Second Vatican Council Over forty years later that task remains every bit the challenge it was in Reinhold's day As cries for social justice resound liturgy more than ever must be the tie of relevance that binds the church to the world It is this essential link between liturgy and social justice that Julia Upton discovered in Reinhold and that she wonderfully retrieves in tracing his life and legacy In doing so she takes up H A Reinhold's prophetic mantle and inspires us to do so as well Julia Upton RSM is a member of the Institute of the Sisters of Mercy of the Americas She holds a doctorate in theology from Fordham University and is professor in the Department of Theology and Religious Studies at St John's University NY where she currently serves as university provost

Inside the Offertory Rebecca Maloy, 2010-03-12 The offertory has played a crucial role in

recent vigorous debates about the origins of Gregorian chant Its elaborate solo verses are among the most splendid of chant melodies yet the verses ceased to be performed in the twelfth and thirteenth centuries making them among the least known and studied members of the repertory Rebecca Maloy now offers the first comprehensive investigation of the offertory drawing upon its music texts and liturgical history to shed new light on its origins and chronology Maloy addresses issues that are at the very heart of chant scholarship such as the relationship between the Gregorian and Old Roman melodies the nature of oral transmission the presence of non Roman pieces in the Gregorian repertory and the influence of theoretical thought on the transmission of the melodies Although the Old Roman chant versions were not recorded in writing until the eleventh century it has long been assumed that they closely reflect the eighth century state of the melodies Maloy illustrates however that rather than preserving a pristine earlier version of the melodies the prolonged period of oral transmission from the eighth to the eleventh centuries instead enforced a formulaic trend Demonstrating that certain musical and textual traits of the offertory are distributed in distinct patterns by liturgical season she outlines new chronological layers within the repertory and along the way explores the presence and implications of foreign imports into the Roman and Gregorian repertories Carefully weighing questions surrounding the origins of elaborate verse melodies Maloy deftly establishes that these melodies reached their final form at a relatively late date Available for the first time as a complete critical edition ninety four Gregorian and Old Roman offertories are presented on a companion website in transcriptions which readers can view side by side The book also provides music examples and essays that elucidate these transcriptions with significant insights into their similarities and differences Inside the Offertory will be an important and longstanding resource for all students and scholars of early liturgical music as well as performers of early music and medievalists interested in music

The Restoration and Organic Development of the Roman Rite Laszlo Dobszay,2010-03-17 *The Early Church* Henry Chadwick,1993-10-01 Examines the beginning of the Christian movement during the first century AD and the explosive force of its expansion throughout the Roman world
