human mind. But certainty is generally
illusion.

Rose and Karin Bauer to be the originator of Adorno's negative dialectics. Kastrinakis argues that there are in fact at least two Nietzsches: one with an irrationalistic and one with a rationalistic critique of identity thinking on which both poststructuralism, Deleuze, and Critical Theory/Adorno respectively lay a legitimate claim. He moreover enacts the missing in the literature debate between Adorno and Deleuze which concludes that Adorno's critique of identity thinking, his negative dialectics when modified to include an affirmative moment at its heart, unacknowledged by Adorno himself, can effectively challenge Deleuze's Nietzschean critique of dialectics. Critical Theory/Poststructuralism and Nietzsche's Paradox intervenes in the boundary between political philosophy and philosophy and will be of interest to scholars of Nietzsche, Deleuze, Adorno, but also generally of poststructuralism and Critical Theory in these disciplines.

The Legacy of Oliver Wendell Holmes, Jr. Robert Watson Gordon, 1992. On his retirement from the Supreme Court at the age of 90 in 1932, Oliver Wendell Holmes Jr. was celebrated as few judges have ever been: beloved and revered as a national treasure. Holmes's influence, magnified into legend by the attention he has continued to receive, has helped to constitute the identity of the legal profession, the conception of the judicial function, and the role of the public intellectual in modern American culture. The present collection of seven essays attempts to view Holmes's work apart from the restricted framework supplied by traditional jurisprudence by reassessing Holmes as an intellectual, a legal theorist, and an iconic public figure and culture hero. Each essay adds something new and distinctive to the scholarly controversies that have surrounded Holmes for over a century. J. W. Burrow begins the volume by looking at Holmes's relations to various strands of Victorian social thought; the next three essays approach each from a different angle: the problem of Holmes's relationship to formalism or classical orthodoxy in legal thought; Morton Horowitz provides a sweeping reassessment of the development of Holmes's legal thinking between the early period of the 1870s and 1880s and *The Path of the Law* in 1897; Mathias Reimann presents the first thorough exploration of Holmes's use of German philosophy, notably his discrediting in *The Common Law* of the legacy of Kant and Hegel; Stephen Diamond approaches Holmes's jurisprudence and his broader social and personal views by another original pathway: his legal opinions in taxation cases and his private views on taxation. The final three essays consider Holmes as a man of letters and representative man of the American scene, both as he created himself and as he was created by others. Robert Ferguson shows how Holmes deliberately went about the work of fashioning the public persona of a judge; Peter Gibian shows how Holmes's construction of his public style was formed as a deliberate reaction against that of his famous father, Dr. Oliver Wendell Holmes Sr. The final essay by David Hollinger has a dual purpose: to ask what Holmes meant by the scientific way of looking at the world and to discover how Holmes came to be such a hero to liberal Jewish intellectuals like Felix Frankfurter and Harold J. Laski.

The Longing Paul K. Hooker, 2024-04-02. Beneath the noise and errands of everyday life, there is a longing, a yearning. What precisely we long for is not always clear; indeed, perhaps it is many things. Or perhaps it is finally one thing: the

One that is behind and beneath all things Paul Hooker probes this longing in the poem cycle of this book exploring poetically the yearning that underlies life love work worship and faith itself In the collections Traditions and Transitions he explores that longing in both biblical and experiential contexts And in the concluding essay Sightings of the Holy he meditates on four poems and the glimpses they provide of the Holy a reality accessible only out of the corners of one's eyes Protestant Journalism Anonymous,2025-07-18 Reprint of the original first published in 1874 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage *Loving to Know* Esther Lightcap Meek,2011-06-01 Knowing is less about information and more about transformation less about comprehension and more about being apprehended This radical book develops the notion of covenant epistemology an innovative biblically compatible holistic embodied life shaping epistemological vision in which all knowing takes the shape of interpersonal covenantal relationship Rather than knowing in order to love we love in order to know Meek argues that all knowing is best understood as transformative encounter Creatively blending insights from a diverse range of conversation partners including Michael Polanyi Michael D Williams Lesslie Newbigin Parker Palmer John Macmurray Martin Buber and James Loder Meek offers critically needed epistemological therapy in response to the pervasive and damaging presumptions that those in Western culture continue to bring to efforts to know The book's innovative approach an unfolding journey of discovery through dialogue itself subverts standard epistemological presumptions of timeless linearity While it offers a sustained and sophisticated philosophical argument *Loving to Know*'s texts and textures interweave loosely to effect therapeutic epistemic transformation in the reader

Pragmatism, Spirituality and Society Ananta Kumar Giri,2020-12-02 This book explores border crossing among pragmatism spirituality and society It opens up American pragmatism to dialogues with pragmatism and spiritual quest from other traditions such as India and China thus making contemporary pragmatism a part of much needed planetary conversations It cultivates new visions and practices of spiritual pragmatism building upon the seminal works of Charles Sanders Pierce William James Sri Aurobindo John Dewey Martin Heidegger Mahatma Gandhi B R Ambedkar Ludwig Wittgenstein and Luce Irigaray which can help us rethink and transform conventional conceptions and constructions of practice pragmatism language religion politics society culture and democracy and create new relationships of pragmatism spirituality and society *The Tragedy of Almightyness* Sybe Schaap,2016-01-06 The Tragedy of Almightyness encircles the theme of human yearning for omnipotence as expressed in religion and various ideologies The central question revolves around the matter of what in pursuing such an extreme power of the will man seeks to achieve While exploring the question a thought provoking link is made between religion and atheism between the Biblical longing for God's promise and the Marxist appeal for man to realize that same promise Omnipotence must vouch for the fulfilling of the promise for justice and for man's dream of redemption However that is not where it ends The longing for salvation turns out to have a dangerous reverse

side to it because it encourages a turning away from the actual world and the all pervading evil Omnipotence also facilitates the avenging of such evil History has shown what this kind of yearning can lead to The book demonstrates how modernity translates Biblical longings into ideologically justified revengefulness The description of this process leads to a plea for renewed ethical purpose in life It is a challenge that also extends to religion Hence the reason that it is necessary to depart from the idea of omnipotence
