Looking After John Daniel, 1996 Vagabond and spiritual seeker wife and mother and former labor organizer Zilla Daniel led a full and varied life But in the fall of 1988 troubled with the onset of Alzheimer s she comes to Portland Oregon to live with her son and his wife Evolving slowly into the unfamiliar she watches the dogwood outside their kitchen window reads poetry asks and re asks the names of birds Uneasy in his role as caregiver and coping with his own depression John Daniel struggles with guilt embarrassment and anger over his mother s transformation As she loses her memory Daniel delves into his own uncovering both the root of his depression and the medicine for its cure in fragmented long dormant recollections of his childhood and youth Mother and son journey through difficult and mysterious terrain ultimately divining a path to each other Whatever she recognized whatever she perceived whatever she sensed she faced the good world she had loved The world flowed in through her window flowed into her open eyes whatever they saw even as she flowed forth to join the world from the personhood of her many days Combining graceful prose with the tenacity of a lifelong seeker John Daniel pays tribute to the life of a remarkable woman and depicts the burdens and unexpected blessings of caring for her In the midst of daily tension and occasional despair Daniel comprehends then shares with us Zilla s deep smile of the spirit BOOK JACKET

Marina Frolova Walker Nelly Kravetz Leonid Maximenkov Stephen Press and Peter Schmelz **Living in Death's Shadow** Emily K. Abel, 2017-02-28 Challenging assumptions about caregiving for those dying of chronic illness What is it like to live with and love someone whose death while delayed is nevertheless foretold In *Living in Death's Shadow* Emily K Abel an expert on the history of death and dying examines memoirs written between 1965 and 2014 by family members of people who died from chronic disease In earlier eras death generally occurred quickly from acute illnesses but as chronic disease became the major cause of mortality many people continued to live with terminal diagnoses for months and even years Illuminating the excruciatingly painful experience of coping with a family member's extended fatal illness Abel analyzes the political personal cultural and medical dimensions of these struggles The book focuses on three significant developments that transformed the experiences of those dying and their intimates the passage of Medicare and Medicaid the growing use of high tech treatments at the end of life and the rise of a movement to humanize the care of dying people It questions the exalted value placed on acceptance of mortality as well as the notion that it is always better to die at home than in an institution Ultimately *Living in Death's Shadow* emphasizes the need to shift attention from the drama of death to the entire course of a serious chronic disease The chapters follow a common narrative of life threatening disease learning the diagnosis deciding whether to enroll in a clinical trial acknowledging or struggling against the limits of medicine receiving care at home and in a hospital or nursing home and obtaining palliative and hospice care *Living in Death's Shadow* is essential reading for everyone seeking to understand what it means to live with someone suffering from a chronic fatal condition including cancer AIDS Alzheimer's and heart disease

MEMOIRS OF GRAMFLAKES E.B. Hayes,2008-10-23 Eleanor was inspired by her father at an early age to appreciate family history During her retired lonely years as a widow she started writing for entertainment She did not enjoy pity parties and found a joy in sitting in front of her computer to write about her memories Some of her children and friends enjoyed hearing about past events that interested them and encouraged her to write She was the only girl and oldest child and spent the majority of her growing up years around adults as they told their stories That was their prime entertainment She would like to inspire others to make notes and write stories for their future generations She found that it is amazing how much one can remember and relive as the words appear on the computer screen
