 Beno t Challand explore the formation of modern European identity Europe has not always been there although we have been
 imagining it for quite some time Even after the birth of a polity called the European Union the meaning of Europe remained a
 very much contested topic What is Europe What are its boundaries Is there a specific European identity or is the EU just the
 name for a group of institutions This book answers these questions showing that in Europe s formation myth and memory
 although distinct are often merged in a common attempt to construct an identity for its present and its future In a time when
 Europe is facing an existential crisis when its meaning is being questioned *Imagining Europe* explores a vital and often
 unacknowledged aspect of the European project *The Myth of the Clash of Civilizations* Chiara Bottici,Benoît
 Challand,2013-01-11 While globalization unifies the world divisions re emerge within it in the form of a spectacular
 separation between Islam and the West How can it be that Huntington s contested idea of a clash of civilizations became
 such a powerful political myth through which so many people look at the world Bottici and Challand disentangle such a
 process of myth making both in the West and in Muslim majority countries and call for a renewed critical attitude towards it

By analysing a process of elaboration of this myth that took place in academic books arts and media comics and Hollywood films they show that the clash of civilizations has become a cognitive scheme through which people look at the world a practical image on the basis of which they act on it as well as a drama which mobilizes passions and emotions Written in a concise and accessible way this book is a timely and valuable contribution to the academic literature and more generally to the public debate As such it will be an important reference for scholars and students of political science sociology philosophy cultural studies Middle Eastern politics and Islam *GED Social Studies For Dummies* Achim K.
