Democratization Through the Looking-glass Peter Burnell,2018-02-06 In *Democratization through the Looking Glass* Peter Burnell provides a revealing image of how our knowledge and understanding of democratization could be improved by viewing the topic through a more multi disciplinary lens and from the perspective of more broadly based comparative analyses Burnell and his contributors encourage readers to both look and think outside of the box beyond the limited parameters that usually shape the study of democratization The goal of *Democratization through the Looking Glass* is to pursue a more comprehensive understanding of democratization as a process taking many forms rather than just as a political phenomenon With a viewpoint from a wider multi disciplinary stance and broader global geopolitical knowledge base the contributors hope to get readers to better recognize and address gaps in the political science literature on the subject of democratization The contributors seek to do this by specifically explaining what democratization is while also making sense of the wide variety of experiences undergone by different societies at
