## **Looking Backward Thinking Forward Signed:**

**The Betrayal** Kim Christian Priemel, 2016-09-08 At the end of World War II the Allies faced a threefold challenge how to punish perpetrators of appalling crimes for which the categories of genocide and crimes against humanity had to be coined how to explain that these had been committed by Germany of all nations and how to reform Germans The Allied answer to this conundrum was the application of historical reasoning to legal procedure In the thirteen Nuremberg trials held between 1945 and 1949 and in corresponding cases elsewhere a concerted effort was made to punish key perpetrators while at the same time providing a complex analysis of the Nazi state and German history Building on a long debate about Germany's divergence from a presumed Western path of development Allied prosecutors sketched a historical trajectory which had led Germany to betray the Western model Historical reasoning both accounted for the moral breakdown of a civilised nation and rendered plausible arguments that this had indeed been a collective failure rather than one of a small criminal clique The prosecutors therefore carefully laid out how institutions such as private enterprise academic science the military or bureaucracy which looked ostensibly similar to their opposite numbers in the Allied nations had been corrupted in Germany even before Hitler's rise to power While the argument depending on individual protagonists subject matters and contexts met with uneven success in court it offered a final twist which was of obvious appeal in the Cold War to come if Germany had lost its way it could still be brought back into the Western fold The first comprehensive study of the Nuremberg trials *The Betrayal* thus also explores how history underpins transitional trials as we encounter them in today's courtrooms from Arusha to The Hague

[Making the American Century](#) Bruce J. Schulman, 2014-02-03 The twentieth century has been popularly seen as the American Century a long period in which the United States had amassed the economic resources the political and military strength and the moral prestige to assume global leadership By century's end the trajectory of American politics the sense of ever waxing federal power and the nation's place in the world seemed less assured Americans of many stripes came to contest the standard narratives of nation building and international hegemony charted by generations of historians In this volume a group of distinguished U.S. historians confronts the teleological view of the inexorable transformation of the United States into a modern nation The contributors analyze a host of ways in which local places were drawn into a wider polity and culture while at the same time revealing how national and international structures and ideas created new kinds of local movements and local energies Rather than seeing the century as a series of conflicts between liberalism and conservatism they illustrate the ways in which each of these political forces shaped its efforts over the other's cumulative achievements accommodating to shifts in government social mores and popular culture They demonstrate that international connections have transformed domestic life in myriad ways and in turn that the American presence in the world has been shaped by its distinctive domestic political culture Finally they break down boundaries between the public and private sectors showcasing the government's role in private life and how private organizations influenced national politics Revisiting and revising many

of the chestnuts of American political history this volume challenges received wisdom about the twentieth century American experience Lord for the Body James Opp,2005-12-19 In the early 1920s English Canadians were captivated by the urban campaigns of faith healing evangelists Crowds squeezed into local arenas to witness the afflicted slain in the spirit casting away braces and crutches Professional faith healers although denounced by critics as promoting mass hypnotism gained notoriety and followers in their call for people to choose the Lord for the Body Canada: The State of the Federation, 2012 Loleen Berdahl, André Juneau, Carolyn Hughes Tuohy,2015-07-03 Regional resource disparities and the tensions they generate are a perennial Canadian topic This edition of Canada The State of the Federation presents essays on regions resources and the resiliency of the Canadian federal system Contributors consider questions such as to what extent do Canada s natural resource industries benefit the Canadian economy Do Canada s federal institutions hinder or promote the ability of the economy to respond to global economic shifts Do current intergovernmental structures allow for constructive dialogue about national policy issues In responding to these and related questions many of the authors touch on energy issues Others consider the importance of functional institutions in a federal or multilevel context as an essential requirement for the effective resolution of issues Together the volume raises questions about the relationship of state and society the importance of identity trust and moral legitimacy for the operation of our federal institutions and the extent to which federal institutions are reinforced or placed under stress by societal structures The theme of this volume was triggered by Richard Simeon the outstanding scholar of federalism who passed away in October 2013 and it is dedicated in his honour *We Are Theologians* Fredrica Harris Thompsett,2004-09-01 All of us are natural theologians willing and able to think through questions of belief and relate the insights of theologians to our public and personal lives In this clear and engaging introduction Thompsett gives us the tools to think theologically by grounding us in the history theology spirituality and biblical foundations of Anglican belief particularly that of the Episcopal church Beginning with the Bible and what it reveals to us about the distinct calling of the People of God Thompsett goes on to consider the insights of the Reformation regarding the importance of the laity and the contribution of lay people particularly women to the expansive mission of the nineteenth century in education and social work She then explores different aspects of Anglican identity and lay movements of liberation in the global South Aimed primarily at a lay and non specialist audience this book introduces key facets of Anglicanism and aspects of contemporary theology It is an excellent parish educational resource especially for adult forums and group study
