Mezhdu Proshlym I Budushchim:

Cars for Comrades Lewis H. Siegelbaum, 2011-08-15 The automobile and Soviet communism made an odd couple The quintessential symbol of American economic might and consumerism never achieved iconic status as an engine of Communist progress in part because it posed an awkward challenge to some basic assumptions of Soviet ideology and practice In this rich and often witty book Lewis H Siegelbaum recounts the life of the Soviet automobile and in the process gives us a fresh perspective on the history and fate of the USSR itself Based on sources ranging from official state archives to cartoons car enthusiast magazines and popular films Cars for Comrades takes us from the construction of the huge Soviet Detroit's emblems of the utopian phase of Soviet planning to present day Togliatti where the fate of Russia's last auto plant hangs in the balance The large role played by American businessmen and engineers in the checkered history of Soviet automobile manufacture is one of the book's surprises and the author points up the ironic parallels between the Soviet story and the decline of the American Detroit In the interwar years automobile clubs car magazines and the popularity of rally races were signs of a nascent Soviet car culture its growth slowed by the policies of the Stalinist state and by Russia's intractable roadlessness In the postwar years cars appeared with greater frequency in songs movies novels and in propaganda that promised to do better than car crazy America Ultimately Siegelbaum shows the automobile epitomized and exacerbated the contradictions between what Soviet communism encouraged and what it provided To need a car was a mark of support for industrial goals to want a car for its own sake was something else entirely Because Soviet cars were both hard to get and chronically unreliable and such items as gasoline and spare parts so scarce owning and maintaining them enmeshed citizens in networks of private semi illegal and ideologically heterodox practices that the state was helpless to combat Deeply researched and engagingly told this masterful and entertaining biography of the Soviet automobile provides a new perspective on one of the twentieth century's most iconic and important technologies and a novel approach to understanding the history of the Soviet Union itself *Rossiiskaia pedagogika mezhdunarodnoy i budushchey -- poisk novoy paradigmy*, 2001 *Bnei Baruch Kabbalah Official Songbook* Michael Laitman, 2018-10-09 As the language of music is abstract the spiritual sensations of Kabbalists are expressed by music that may be partially perceived by all Kabbalistic music expresses two conditions of the Kabbalists an aspiration to sense the Spiritual Realm and an aspiration to merge with the Creator in the joyful sensation of total perfection The music bathes the listener in a wondrous light There is no need to know anything about it before listening to it since it is wordless Yet its affect on the heart is direct and swift due to the intricate connection between our souls and the roots of the notes Hearing these melodies over and over again allows the listener to feel the music penetrating deep within the soul completely unobstructed

Kazakhstan - Ethnicity, Language and Power Bhavna Dave, 2007-09-13 Kazakhstan is emerging as the most dynamic economic and political actor in Central Asia It is the second largest country of the former Soviet Union after the Russian Federation and has rich natural resources particularly oil which

is being exploited through massive US investment Kazakhstan has an impressive record of economic growth under the leadership of President Nursultan Nazarbaev and has ambitions to project itself as a modern wealthy civic state with a developed market economy At the same time Kazakhstan is one of the most ethnically diverse countries in the region with very substantial non Kazakh and non Muslim minorities Its political regime has used elements of political clientelism and neo traditional practices to bolster its rule Drawing from extensive ethnographic research interviews and archival materials this book traces the development of national identity and statehood in Kazakhstan focusing in particular on the attempts to build a national state It argues that Russification and Sovietization were not simply top down processes that they provide considerable scope for local initiatives and that Soviet ethnically based affirmative action policies have had a lasting impact on ethnic lite formation and the rise of a distinct brand of national consciousness The Bear Watches the Dragon Alexander Lukin,2016-09-16 China and Russia two giants dominating the Eurasian landmass share a history of understanding and misunderstanding whose nuances are not well appreciated by outsiders In his interpretation of this relationship from the Russian point of view Alexander Lukin shows how over the course of three centuries China has seemed alternately to threaten mystify imitate mirror and rival its northern neighbor Lukin traces not only the changing dynamics of Russian Chinese relations but the ways in which Russia s images of China more profoundly reflected Russia s self perception and its perceptions of the West as well As both Russia and China take distinctive approaches to political and economic development and integration in the twenty first century global economy this reinterpretation of their relationship is timely and valuable not only to historians but to all students of international affairs *Environmental Crises* Tatvana Sailko,2014-09-19 Provides students with an in depth historic and contemporary understanding of the causes magnitude and implications of the different types of environmental crises in the countries of the former Soviet Union and Eastern Europe **The Central Asian States** Gregory W Gleason,2018-10-08 This book traces the incorporation of Central Asia into the Soviet system the region s path of development under socialism and the vicissitudes of the economic and political collapse of socialism before considering the trajectories of the new states as they chart their independent futures Stalinism Alter L. Litvin,John L. H. Keep,2005 This volume the fruit of co operation between a British and Russian historian seeks to review comparatively the progress made in recent years largely thanks to the opening of the Russian archives in enlarging our understanding of Stalin and *Tsars, Cossacks, and Nomads* Yuriy Malikov,2020-08-10 No detailed description available for Tsars Cossacks and Nomads **The Code of Civilization** Vyacheslav Nikonov,2021-06-07 In his book Vyacheslav Nikonov shows the origins of the modern world and traces the chronologies and histories of peoples and countries Nikonov discusses the main centers of influence and forces that shape the world in which we live The world demonstrates a variety of development models shaped by the national regional historical religious and other aspects of each country The center of gravity of world development is shifting from West to East from North to South from developed economies to developing ones Thirty years ago Western countries

accounted for 80% of the world economy now it is less than half Asia already home to most of humanity will become a global leader in the coming decades What does this mean What will the world be like and what place will Russia take in it Will American hegemony continue Will China become a superpower Will Europe become a museum for tourists from other continents History has resumed its course and the world is rushing towards an unstoppable diversity Published with the support of the Institute for Literary Translation Russia *The St. Petersburg Imperial Theaters* Murray Frame, 2015-07-11 The opulent St Petersburg Imperial Theaters were subsidized and administered by the Russian court from the eighteenth century until the collapse of the tsarist order in 1917 This close association raises many questions about the uses of these theaters and where their loyalties lay in early twentieth century Russia This history begins in 1900 with the theater flourishing but undergoing change then chronicles the impact of war and revolution as well as audience and administration leading up to the effective re establishment of state control over the theaters by the Bolsheviks in 1920 While the theaters were often allied with the forces of change their grandeur harked back to the age of the tsars creating an irony that is explored here in depth Photographs and diagrams of the theaters are included along with photographs of the central historical figures and contemporary cartoons referring to the theaters Russian Foreign Policy in the Post-Soviet Era B. Lo, 2002-08-12 In the first comprehensive treatment of its kind Bobo Lo examines the course of Russian foreign policy in the decade following the Soviet collapse Adopting a conceptual approach he identifies the principal ideological and institutional factors that have influenced the thinking of decisionmaking behind the policies Bobo Lo challenges many of the conventional assumptions that have dominated much of the preceding literature on Russian foreign policy **The Dangerous God** Dominic Erdozain, 2017-10-02 At the heart of the Soviet experiment was a belief in the impermanence of the human spirit souls could be engineered conscience could be destroyed The project was in many ways chillingly successful But the ultimate failure of a totalitarian regime to fulfill its ambitions for social and spiritual mastery had roots deeper than the deficiencies of the Soviet leadership or the chaos of a command economy Beneath the rhetoric of scientific communism was a culture of intellectual and cultural dissidence which may be regarded as the prehistory of perestroika This volume explores the contribution of Christian thought and belief to this culture of dissent and survival showing how religious and secular streams of resistance joined in an unexpected and powerful partnership The essays in *The Dangerous God* seek to shed light on the dynamic and subversive capacities of religious faith in a context of brutal oppression while acknowledging the often collusive relationship between clerical elites and the Soviet authorities Against the Marxist notion of the ideological function of religion the authors set the example of people for whom faith was more than an opiate against an enduring mythology of secularization they propose the centrality of religious faith in the intellectual political and cultural life of the late modern era This volume will appeal to specialists on religion in Soviet history as well as those interested in the history of religion under totalitarian regimes **IBSS: Sociology: 2002 Vol.52** Compiled by the British Library of Political and Economic

The Things of Life Alexey Golubev,2020-12-15 The Things of Life is a social and cultural history of material objects and spaces during the late socialist era It traces the biographies of Soviet things examining how the material world of the late Soviet period influenced Soviet people s gender roles habitual choices social trajectories and imaginary aspirations Instead of seeing political structures and discursive frameworks as the only mechanisms for shaping Soviet citizens Alexey Golubev explores how Soviet people used objects and spaces to substantiate their individual and collective selves In doing so Golubev rediscovers what helped Soviet citizens make sense of their selves and the world around them ranging from space rockets and model aircraft to heritage buildings and from home gyms to the hallways and basements of post Stalinist housing Through these various materialist fascinations The Things of Life considers the ways in which many Soviet people subverted the efforts of the Communist regime to transform them into a rationally organized disciplined and easily controllable community Golubev argues that late Soviet materiality had an immense impact on the organization of the Soviet historical and spatial imagination His approach also makes clear the ways in which the Soviet self was an integral part of the global experience of modernity rather than simply an outcome of Communist propaganda Through its focus on materiality and personhood The Things of Life expands our understanding of what made Soviet people and society Soviet *The Many Lives of Khrushchev's Thaw* Stephen V. Bittner,2008 The Arbat neighborhood in central Moscow has long been home to many of Russia s most famous artists writers and scholars as well as several of its leading cultural establishments In an elegantly written and evocative portrait of a unique urban space at a time of transition Stephen V Bittner explores how the neighborhood changed during the period of ideological relaxation under Khrushchev that came to be known as the thaw The thaw is typically remembered as a golden age a period of artistic rebirth and of relatively free expression after decades of Stalinist repression By considering events at the Vakhtangov Theater the Gnesin Music Pedagogy Institute the Union of

Architects and the Institute of World Literature Bittner finds that the thaw was instead characterized by much confusion and contestation As political strictures loosened after Stalin's death cultural figures in the Arbat split often along generational lines over the parameters of reform and over the amount of freedom of expression now permitted De Stalinization provoked great anxiety because its scope was often unclear Particularly in debates about Khrushchev's urban planning initiatives which involved demolishing a part of the historical Arbat to build an ensemble of concrete and steel high rises a conflict emerged over what aspects of the Russian past should be prized in memory the late tsarist city the utopian modernism of the early Soviet period or the neoclassical and gothic structures of Stalinism Bittner's book is a window onto the complex beginning of a process that is not yet complete deciding what to jettison and what to retain from the pre Soviet and Soviet pasts as a new Russia moves to the future

The Political Economy of Russian Aluminium Jakub M. Godzimirski, 2017-07-18 This book addresses how the progress of the Russian aluminium industry which has developed into an important global actor has been influenced by the interaction of global market forces and the evolution of the Russian political system After the collapse of the Soviet Union Russian aluminium producers needed to adapt to changing framework conditions both with regards to the global aluminium market and in Russia Examining the most important changes in the organization of the global aluminium trade the reorganization and consolidation of Russian aluminium industry and its oligarchization Godzimirski charts the evolution of the relationship between political and economic power in Russia and the impact that this development has had on survival and adaptation strategies of key aluminium players in the country

Historical Dictionary of Russian and Soviet Cinema Peter Rollberg, 2016-07-20 Russian and Soviet cinema occupies a unique place in the history of world cinema Legendary filmmakers such as Sergei Eisenstein Vsevolod Pudovkin Dziga Vertov Andrei Tarkovsky and Sergei Paradjanov have created oeuvres that are being screened and studied all over the world The Soviet film industry was different from others because its main criterion of success was not profit but the ideological and aesthetic effect on the viewer Another important feature is Soviet cinema's multinational Eurasian character while Russian cinema was the largest other national cinemas such as Georgian Kazakh and Ukrainian played a decisive role for Soviet cinema as a whole The Historical Dictionary of Russian and Soviet Cinema provides a rich tapestry of factual information together with detailed critical assessments of individual artistic accomplishments This second edition of Historical Dictionary of Russian and Soviet Cinema contains a chronology an introduction and a bibliography The dictionary section has over 600 cross referenced entries on directors performers cinematographers composers designers producers and studios This book is an excellent access point for students researchers and anyone wanting to know more about Russian and Soviet Cinema

Time and Material Culture Julie Deschepper, Antony Kalashnikov, Federica Rossi, 2024-07-05 This edited volume offers an original exploration into the ways in which Soviet culture and experience of time were unique examining the temporalities expressed in the world of socialist things from the objects of everyday life to urban architecture Grounding the analysis of Soviet

temporalities in their material incarnations not only lends concreteness to discussions of temporal culture but also draws out ways in which the specificities of Soviet things and their planning design manufacture and consumption mediated and produced particular ways of experiencing perceiving and representing time As such Time and Material Culture turns a new page in the study of the temporal and material culture of Soviet socialism and in doing so contributes to broader debates on the changing experiences of time in the global twentieth century The book integrates interdisciplinary perspectives as well as regional approaches sensitive to the multinational nature of the Soviet project Time and Material Culture will be useful to academics upper level undergraduates and graduate students interested in twentieth century cultures of time

Power, Culture, and Economic Change in Russia Jeffrey Hass, 2011-04-20 Utilising cutting edge theory and unique data this book examines the role of power culture and practice in Russia s story of post socialist economic change and provides a framework for addressing general economic change No other book places power and culture as centrally as this and in doing so it provides new insights not only into how Russia came to its present state under Putin but also how economies operate and change generally In particular the importance of remaking authority and culture creating and contesting new categories and narratives of meaning is shown as central to Russia s story and to the story of economies overall Power Culture and Economic Change in Russia is an excellent research tool for advanced undergraduate and postgraduate students of sociology political science economics area studies and other related disciplines
