No Passing Glory Leonard Cheshire:

Lancaster Leo McKinstry, 2009-09-03 The Spitfire and the Lancaster were the two RAF weapons of victory in the Second World War but the glamour of the fighter has tended to overshadow the performance of the heavy bomber Yet without the Lancaster Britain would never have been able to take the fight to the German homeland Highlights the scale of the bomber's achievements including the famous Dambusters attacks With its vast bomb bay ease of handling and surprising speed the mighty Lancaster transformed the effectiveness of the Bomber Command Whilst addressing the political controversy surrounding the bombing offensive against Germany Leo McKinstry also weaves individual tales into this compelling narrative Rich characters are brought to life such as Roy Chadwick the designer who taught himself engineering at night school and Sir Arthur Harris the austere head of the Bomber Command This is a rich saga a story of triumph over disaster and the history of an iconic plane

Bomber Harris: His Life and Times Henry Probert,2016-08-05 This is the definitive biography of one of the most controversial figures of the Second World War Sir Arthur Harris remains the target of criticism and vilification by many while others believe that the contribution he and his men made to the Allied victory is grossly undervalued Harris has been condemned in particular for his Area Bombing tactics which saw civilians and their homes become legitimate targets along with industrial and military installations This is explored by the author and placed fully within its context and just as importantly within the instructions he received from Churchill s administration Henry Probert s critical but highly sympathetic account draws on wide ranging research and for the first time all of Harris own papers to give an outstanding insight into a man who combined leadership professionalism and decisiveness with kindness humour and generosity
