The Spiritual Life Adolphe Tanquerey,1951

Isaac of Nineveh's Ascetical Eschatology Jason Scully,2017-11-03 Isaac of Nineveh s Ascetical Eschatology demonstrates that Isaac s eschatology is an original synthesis based on ideas garnered from a distinctively Syriac cultural milieu Jason Scully investigates six sources relevant to the study of Isaac s Syriac source material and cultural heritage These include ideas adapted from Syriac authors like Ephrem John the Solitary and Narsai but also adapted from the Syriac versions of texts originally written in Greek like Evagrius s Gnostic Chapters Pseudo Dionysius s Mystical Theology

and the Pseudo Macarian homilies Isaac's eschatological synthesis of this material is a sophisticated discourse on the psychological transformation that occurs when the mind has an experience of God. It begins with the premise that asceticism was part of God's original plan for creation. Isaac says that God created human beings with infantile knowledge and that God intended from the beginning for Adam and Eve to leave the Garden of Eden. Once outside the garden, human beings would have to pursue mature knowledge through bodily asceticism. Although perfect knowledge is promised in the future world, Isaac also believes that human beings can experience a proleptic taste of this future perfection. Isaac employs the concepts of wonder and astonishment in order to explain how an ecstatic experience of the future world is possible within the material structures of this world. According to Isaac, astonishment describes the moment when a person arrives at the threshold of eschatological perfection but is still unable to comprehend the heavenly mysteries, while wonder describes spiritual comprehension of heavenly knowledge through the intervention of divine grace.

Asceticism and the New Testament

Leif E. Vaage, Vincent L. Wimbush, 2002-09-11 As a complex historical phenomenon, asceticism raises the question about ordinary impulses, the orientation and practices, the power dynamics and politics with transcendental religions. The question of the role of asceticism has often been overlooked in examining the New Testament. This book is both comprehensive and comparative in its representation of how the question of asceticism might reorder the way in which we interpret the New Testament. Looking at the New Testament from an ascetic perspective asks questions about issues including the milieu of Jesus and Paul and the social practices of self-denial and considers the Scriptural texts in light of a desire to separate oneself from the world. In interpreting all the books in the New Testament, this collection is the first effort to take seriously the crucial role played by asceticism and its detractors in the formation of the New Testament.

Exploring the Spirituality of the Gospels Patrick J. Hartin, 2011-05-01 Within each of the four gospels, there is a foundational spirit, a spirituality of the gospels. That is to say, each gospel contains rich images and values central to the vision of the person of Jesus and to the path toward spiritual transformation in his image. In this volume, Patrick Hartin first looks at each gospel and asks such questions as: Who is Jesus? and What transformation does this encounter with Jesus invite? Hartin then follows with examples of people who have appropriated the transformative power of these particular spiritualities from Saint Antony and Dorothy Day to Saint Augustine and Archbishop Romero. Hartin's twofold approach gives us a deeper appreciation for the spiritual dimension of the gospels and helps us to be transformed in Christ by their message and vision.
