production cultures and film histories Historical Dictionary of Scandinavian Cinema John Sundholm, Isak Thorsen, Lars Gustaf Andersson, Olof Hedling, Gunnar Iversen, Birgir Thor Møller, 2012-09-20 Although relatively small the northern countries of Scandinavia have made a disproportionately large contribution to world cinema. Indeed some of their films are among the best known of all times including *The Seventh Seal*, *Dancer in the Dark* and *The Girl with the Dragon Tattoo*. And Scandinavian directors are also among the best known just to mention Ingmar Bergman and Lars von Trier. But there is much more to the cinema of Denmark, Norway, Sweden, Finland and Iceland than that and this book shows us what they have been accomplishing over more than a century from the beginnings of cinema until the present. *The Historical Dictionary of Scandinavian Cinema* shows just how long and busy this history has been in the chronology starting in 1896. The introduction then describes the situation in each one of the component countries, all of which approached and developed the field in a similar but also slightly different manner. The dictionary section with over 400 substantial entries looks at the situation in greater detail with over 400 substantial entries on major actors, directors and others, significant films, various genres and themes and subjects such as animation, ethnicity, migration and censorship. Given its contribution to world cinema it is good to finally have an encyclopedia like this which can meet the interests of the scholar and researcher but also the movie fan.

The Cinema of James Cameron James Clarke, 2014-09-16 This timely volume explores the massively popular cinema of writer-director James Cameron. It couches Cameron's films within the evolving generic traditions of science fiction, melodrama and the cinema of spectacle. The book also considers Cameron's engagement with the aesthetic of visual effects and the now technology of performance capture which is arguably moving a certain kind of event movie cinema from photography to something more akin to painting. This book is explicit in presenting Cameron as an authentic auteur and each chapter is dedicated to a single film in his body of work from *The Terminator* to *Avatar*. Space is also given to discussion of *Strange Days* as well as his short films and documentary works. *South Korean Film* Hyon Joo Yoo, 2021-01-01 *South Korean Film: Critical and Primary Sources* is an essential three-volume reference collection representing three distinct phases in the development of South Korean national cinema, foregrounding how epochal characteristics inform the way in which the national cinema represents the penetrating thematic concern of auteurship, genre, spectatorship, gender and nation as well as the way in which these themes find expression in distinct visual styles and forms. **The ^A Documentary Film Reader**

Cinemas and Theatres of Portsmouth From Old Photographs Ron Brown,2009-10-15 The new edition of the highly popular Cinemas of PortsmouthA updated and extended to include the area s theatres *Flickers of Film* Jason Sperb,2015-12-15 Whether paying tribute to silent films in *Hugo* and *The Artist* or celebrating arcade games in *Tron Legacy* and *Wreck It Ralph* Hollywood suddenly seems to be experiencing a wave of intense nostalgia for outmoded technologies To what extent is that a sincere lament for modes of artistic production that have nearly vanished in an all digital era And to what extent is it simply a cynical marketing ploy built on the notion that nostalgia has always been one of Hollywood s top selling products In *Flickers of Film* Jason Sperb offers nuanced and unexpected answers to these questions examining the benefits of certain types of film nostalgia while also critiquing how Hollywood s nostalgic representations of old technologies obscure important aspects of their histories He interprets this affection for the prehistory and infancy of digital technologies in relation to an industry wide anxiety about how the digital has grown to dominate Hollywood pushing it into an uncertain creative and economic future Yet he also suggests that Hollywood s nostalgia for old technologies ignores the professionals who once employed them as well as the labor opportunities that have been lost through the computerization and outsourcing of film industry jobs Though it deals with nostalgia *Flickers of Film* is strikingly cutting edge one of the first studies to critically examine Pixar s role in the film industry cinematic representations of videogames and the economic effects of participatory culture As he takes in everything from *Terminator Salvation* to *The Lego Movie* Sperb helps us see what s distinct about this recent wave of self aware nostalgic films how Hollywood nostalgia today isn t what it used to be

Cinema's Sinister Psychiatrists Sharon Packer, M.D.,2012-09-19 Film history is merged with psychiatric history seamlessly to show how and why bad depictions of mind doctors especially hypnotists occur in early film long before Hannibal Lecter burst upon the scene The German Expressionist Dr Caligari is not cinema s first psychotic charlatan but he launches the stereotype of screen psychiatrists who are sicker than their patients Many film psychiatrists function as political metaphors while many more reflect real life clinical controversies This book discusses films with diabolical drugging unethical experimentation involuntary incarceration sexual exploitation lobotomies shock schlock conspiracy theories and military medicine to show how fact informs fantasy and when fantasy trumps reality Traditional asylum thrillers changed after hospital stays shortened and laws protected people against involuntary commitment Except for six short golden years from 1957 to 1963 portrayals of bad psychiatrists far outnumber good ones and this book tells how and why that was

The Moving Form of Film Lúcia Nagib, Stefan Solomon, 2023 The Moving Form of Film Historicizing the Medium through Other Media charts the ways in which crossing borders between film and other arts and media can provide an encompassing inclusive and non teleological understanding of film history Evolutionary narratives of cinema have traditionally adopted the Second World War as a watershed that separates classical Hollywood films from modern European productions a scheme that subjects the entire

world to the cinematic history of two hegemonic centres. In turn, histories of film as a technological medium have focused on the specificity of cinema as it gradually separated from the other art and medial forms: theatre, dance, fairground spectacle, painting, literature, still photography and other pre-cinematic modes. Taking an ambitious step forward with relation to these approaches, this book focuses on the fluid quality of the film form by exploring an array of exciting and often neglected artistic expressions worldwide as they compare and interconnect films across temporal, geographical and cultural borders. By observing the ebb and flow of film's contours within the bounds of other artistic and medial expressions, the chapters aspire to establish a flexible historical platform for the moving form of film, posited from production to consumption as a transforming and transformative medium.

Deleuze and Film Music Gregg Redner, 2010-12-15

The analysis of film music is emerging as one of the fastest growing areas of interest in film studies. Yet scholarship in this up and coming field has been beset by the lack of a common language and methodology between film and music theory. Drawing on the philosophy of Gilles Deleuze, film studies scholar Gregg Redner provides a much needed analysis of the problem which then forms the basis of his exploration of the function of the film score and its relation to film's other elements. Not just a groundbreaking examination of persistent difficulties in this new area of study, *Deleuze and Film Music* also offers a solution: a methodological bridge that will take film music analysis to a new level.
