Continuity and Change in the Baltic Sea Region David J. Galbreath, Ainis Lašas, Jeremy W. Lamoreaux, 2008 *Continuity and Change in the Baltic Sea Region* uncovers the Baltic States foreign policy transition from Socialist Republics to EU member states Situated between the Russian Federation and Northern Europe Estonia Latvia and Lithuania have had to manoeuvre within an often delicate sub region Since independence the foreign policies of the Baltic States have been dominated by de Sovietization and European integration Lying at the crossroads between small state theory and identity politics this analysis engages with the development of Baltic foreign policies as post Soviet small and transitioning states The authors argue that Estonia Latvia and Lithuania dictated their early foreign policy agendas based on a process of identity construction and as a response to their regional environment This process took the Baltic States from East to West in their foreign policy aspirations Key factors in foreign policy making and implementation are discussed as well as external factors that shaped Baltic foreign policy agendas Overall the book illustrates how continuity and change in the Baltic foreign policies has been shaped by both hard and soft factors It is a study in the foreign policies of transitioning states and in this regard illuminates a much larger research area beyond its geographic focus

Models of Democracy in Nordic and Baltic Europe Nicholas Aylott, 2016-04-15 This book explores the ways in which representative democracy works in two neighbouring collections of European states the Nordic Denmark Finland Iceland Norway and Sweden and the Baltic Estonia Latvia and Lithuania Starting from a Nordic vantage point contributors explore the extent to which aspects of politics function similarly or dissimilarly across the two groups of democratic states acknowledging the differences in models of democracy that occur within each group Authors explore the possibility that some of the apparently successful institutional features of Nordic politics have somehow influenced politics in the Baltic states despite the considerable contextual differences between the two groups The Nordic Baltic comparison is particularly worthy of study given the comparative stability of the Nordic democracies and the half century of occupation by a totalitarian dictatorship that the Baltic states endured The central guiding questions are how does political representation work in countries that have a lot in common but also a few significant contextual dissimilarities and what if any relationships between the respective styles of democracy can be identified Using a variety of theories perspectives and methods the empirical studies

that populate the book seek to offer reflections on these questions

The Deinstitutionalization of Western European Party

Systems Alessandro Chiaramonte, Vincenzo Emanuele, 2022-04-18 This book offers a systematic and far reaching account of party system institutionalization in Western Europe Drawing upon a wide array of data and through a comparison of 20 countries from the end of WWII to 2019 across three arenas of party competition electoral parliamentary and governmental ones the empirical analysis shows that over the past decade the level of institutionalization in the Western European party systems has dramatically declined compared with previous decades Electoral parliamentary and in some cases governmental instability and unpredictability have reached record high levels Although the impact of the 2008 Great Recession has certainly worked as a catalyst this process of de institutionalization has been mainly driven by long term factors such as

cleavage decline and length of democratic experience Moreover its consequences are relevant not only for the relationship between parties and voters but also for the very quality of democracy as party system deinstitutionalization causes a decline in the citizens satisfaction of the way democracy works and even an erosion of the objective democratic standards In a nutshell Western Europe once seen as the land of stability and the cradle of democracy may have become the land of party system deinstitutionalization and incipient democratic backsliding

Multifaceted Nationalism and Illiberal Momentum at Europe's Eastern Margins Andrey Makarychev,2021-05-19 This edited volume addresses the set of politically challenging issues that the advent of populist movements raised for individual nation states and the whole Europe Based on critical engagements with the extant scholarship in comparative politics political philosophy international relations regional studies and critical geopolitics this collection of chapters offers the interpretation of the contemporary populism as illiberal nationalism and underscores its deeply political challenge to the post political core of the EU project The contributors discuss the deep transformations within the fabric of contemporary European societies that makes scholars rethink the post Cold War hegemonic understanding of liberal democracy as the dominant paradigm destined to expand from its traditional hotbed in the West to other regions This edited volume intends to stretch analysis beyond the conventional accounts of populism as an anti elite and extra institutional appeal to the general public for the sake of its mobilization against incumbent power holders and look for more nuanced meanings inherent to this term The chapters in this book were originally published in *European Politics and Society* and the *Journal of Contemporary European Studies*
