Politics And The Catholic Church In Nicaragua:

Politics and the Catholic Church in Nicaragua John M. Kirk, 1992 Guerrilla priests and liberation theology are not new phenomena in Nicaragua Ever since the arrival of the Spanish conquistadores Catholic Church leaders have played a major role in that country s politics The result John Kirk writes is a polarized church one with a progressive minority at loggerheads with the conservative hierarchy Kirk sets each stage of the church state debate in a historical continuum then examines the forty year period of Somocismo and the Sandinista period 1979 90 that followed This social revolution blending nationalism Marxism and Catholicism dared to be different he claims and accordingly it paid the price Kirk wrote this book following three trips to Nicaragua during the 1980s when he witnessed firsthand the social polarization occurring at the time But the involvement of the Catholic Church in Nicaraguan politics is not exceptional he says Most if not all religions are also encumbered with socio political concerns that go beyond the essentially religious

The Catholic Church and Politics in Nicaragua and Costa Rica Philip J. Williams, 2010-11-23 Unlike most recent studies of the Catholic Church in Latin America Philip J Williams analyzes the Church in two very dissimilar political contexts Nicaragua and Costa Rica Despite the obvious differences Williams argues that in both cases the Church has responded to social change in remarkably similar fashion The efforts of progressive clergy to promote change in both countries have been largely blocked by Church hierarchy fearful that such change will threaten the Church s influence in society

The Catholic Church and Social Change in Nicaragua Manzar Foroohar, 1989-06-13 This book presents an in depth uniquely historical perspective on Nicaragua focusing on the key role of the Catholic Church in the political social and religious issues that confront this country today It examines the profound transformation of the Church via the radical approach of liberation theology and the development of the clergy s socio political alliances in Nicaragua Foroohar s analysis highlights the complex role of religion in politics and social change in Latin America

The Catholic Church and Politics in Nicaragua and Costa Rica Philip J. Williams, 1986

The Catholic Church and Politics in Nicaragua and Costa Rica Philip J. Williams, 1986 Nicaragua's Other Revolution Michael Dodson, Laura Nuzzi O'Shaughnessy, 2000-11-09 The 1979 rebellion in Nicaragua was the first in modern Latin America to be carried out with the active participation and support of Christians Like all revolutions the Nicaraguan Revolution has provoked controversy and hostility and the Christian presence has been a focal point in the debate In this work Michael Dodson and Laura Nuzzi O Shaughnessy offer a detailed study of the religious sources of the revolution set against the background of the revolutionary traditions of the United States Nicaragua s Other Revolution places the experience of the Nicaraguan Revolution in a historical framework that extends back to the Protestant Reformation and in an institutional framework that encompasses the whole of Nicaraguan politics Examining the broad process of religious change this work explores how that process interacted with the political struggles that culminated in the revolution Dodson and O Shaughnessy conclude that the religious values and attitudes arising out of postconciliar renewal in the church contributed

powerfully to demands for revolutionary change in Nicaragua In England and America the Protestant Reformation gave a tremendous boost to demands for democratic changes in society and politics This work shows that something similar happened in Catholic Central America in the post Medellin period Changes in religious thought and action were part of and served to reinforce and stimulate a wider movement for social and political change Without denying the importance of Marxism the authors demonstrate that other important influences are at work there Originally published in 1990 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value

The political role of ministers of the Catholic church in Nicaragua Fernando Cardenal, 1982 New Worlds John Lynch, 2012-06-26 This extraordinary book encompasses the time period from the first Christian evangelists arrival in Latin America to the dictators of the late twentieth century With unsurpassed knowledge of Latin American history John Lynch sets out to explore the reception of Christianity by native peoples and how it influenced their social and religious lives as the centuries passed As attentive to modern times as to the colonial period Lynch also explores the extent to which Indian religion and ancestral ways survived within the new Christian culture The book follows the development of religious culture over time by focusing on peak periods of change the response of religion to the Enlightenment the emergence of the Church from the wars of independence the Romanization of Latin American religion as the papacy overtook the Spanish crown in effective control of the Church the growing challenge of liberalism and the secular state and in the twentieth century military dictators assaults on human rights Throughout the narrative Lynch develops a number of special themes and topics Among these are the Spanish struggle for justice for Indians the Church's position on slavery the concept of popular religion as distinct from official religion and the development of liberation theology

The Politics of Latin American Development Gary W. Wynia, 1990-01-26 An examination of the historical events that have shaped Latin America's fundamental economic and political dynamics

Catholicism and Politics in Communist Societies Sabrina P. Ramet, 1990 This book is volume two of a three volume work Christianity Under Stress which focuses on the experiences of Christian churches in contemporary communist and socialist societies In this volume a distinguished group of experts examines the changing relationship of the Catholic church to contemporary communist and socialist societies in Eastern Europe Latin America and Asia Catholicism has on the one hand traditionally regarded earthly life as of secondary importance as an instrument of spiritual transformation and on the other has ascribed great value to the early institutions of the church taking great interest in temporal matters that affects its institutional concerns Against the backdrop of this duality the church has changed over the centuries adapting to local and national conditions Catholicism and Politics in Communist Societies surveys these local and national adaptations in their historical contexts linking the past experience of the church to its present circumstances

Organized around themes of tradition vs modernity hierarchy vs lower clergy and institutional structure vs grass roots organization this comprehensive volume presents a detailed country by country portrait of the political and social status of the church today in communist and socialist settings Contributors Pedro Ramet Arthur F McGovern Roman Solchanyk Ivan Hvat Robert F Goeckel C Chrypinski Milan J Reban Leslie Laszlo Janice Broun Eric O Hanson Stephen Denney Thomas E Quigley Humberto Belli Hansjakob Stehle George H Williams *Latin American Politics and Development* Harvey F. Kline, Christine J. Wade, Howard J. Wiarda, 2018-04-24 For over thirty years *Latin American Politics and Development* has kept instructors and students abreast of current affairs and changes in Latin America Now in its ninth edition this definitive text has been updated throughout and features contributions from experts in the field including twenty new and revised chapters on Mexico Central America the Caribbean and South America **The Rebirth of Latin American Christianity** Todd Hartch, 2014-04 Predominantly Catholic for centuries Latin America is still largely Catholic today but the religious continuity in the region masks great changes that have taken place in the past five decades In fact it would be fair to say that Latin American Christianity has been transformed definitively in the years since the Second Vatican Council Religious change has not been obvious because its transformation has not been the sudden and massive growth of a new religion as in Africa and Asia It has been rather a simultaneous revitalization and fragmentation that threatened awakened and ultimately brought to a greater maturity a dormant and parochial Christianity New challenges from modernity especially in the form of Protestantism and Marxism ultimately brought forth new life In *The Rebirth of Latin American Christianity* Todd Hartch examines the changes that have swept across Latin America in the last fifty years and situates them in the context of the growth of Christianity in the global South *Religion and Political Conflict in Latin America* Daniel H. Levine, 2016-08-01 The authors examine popular religion as a vital source of new values and experiences as well as a source of pressure for change in the church political life and the social order as a whole and deal with the issues of poverty and the role of the poor within the church and political structures Exploring areas from Nicaragua El Salvador Brazil Bolivia Colombia and Chile the authors analyze the transformation in popular religion and reevaluate the growth of grassroots organizations **Religion and Contemporary Politics** Timothy J. Demy, Jeffrey M. Shaw Ph.D., 2019-09-19 With respect to the countries of the world this work addresses two basic questions How does religion affect politics in this country and How does politics affect religion in this country Although there are many books on the topics of religion and politics reference works that consider the two together are few with those that do exist primarily addressing theory rather than trends The present work does the latter contextualizing them within regional and national boundaries In so doing it recognizes the power of political and religious ideas and movements on individuals communities and nations making the work a valuable resource for several disciplines among them political science international relations religion and sociology The work focuses on the interplay of religion and politics in countries around the world with an emphasis on the post 2000s It is organized by global geographic regions

including Africa Central and South America and the Middle East and presents countries alphabetically within those sections Each region has a brief overview of the political religious dynamics of the area so readers can compare and contrast the dynamics between and among countries in a region The work also includes an introduction sidebars and a bibliography

The Politics of Transnational Actors in Latin America Frederick M. Shepherd, 2021-03-30 The Politics of Transnational Actors in Latin America Power from Afar explores the important issues of transnational actors and their influence on institutions and people in Latin America raising profound questions of accountability social justice and sovereignty The text focuses on four particularly significant groups that transcend national boundaries the Catholic Church transnational corporations transnational drug networks and transnational human rights networks By comparing each of their impacts on the region Frederick M Shepherd explores larger questions about transnational power and how it has deeply penetrated the nations of Latin America The book s analysis delves into attempts made over the last 100 years by citizens social movements and governments to reassert a degree of control over these transnational actors setting up a framework to understand how local national and global forces interact in a setting of transnational dominance The volume suggests that local and national groups can use principles and power to bring about equitable and just outcomes in relation to transnational actors and that in some cases transnational actors can be a part of constructive change in Latin America This concise volume will be of interest to students of History Latin American and Caribbean Studies and Political Science as well as those interested in 20th century Latin American politics and political history

The Politics of the Spirit Timothy J. Steigenga, 2002-05-24 The Politics of the Spirit is a masterful study of the political effects of evangelical Protestantism in Central America Timothy Steigenga s thoughtfully crafted work questions whether the spread of Protestantism in Latin America has reinforced authoritarian elements in political culture or deepened nascent democracy Steigenga provides a thorough review of the literature on religion and politics in Latin America putting many of the hypotheses generated in this literature to the test through an analysis of comparative survey data and qualitative interviews Steigenga investigates the impact religious affiliation has on political activity and belief and the influence of cross denominational religious beliefs and practices on Latin American life His comparative work explores how different political systems the established democracy of Costa Rica and the transitional system of Guatemala impact the politics of religion This enlightening interdisciplinary book will appeal to scholars seeking to understand the relationships between religious and political change in Latin America
