Tai, 2014-08-28 How is modern civil society created There are few contemporary studies on this important question and when it is addressed scholars tend to emphasize the institutional environment that facilitates a modern civil society However there is a need for a new perspective on this issue Contemporary China where a modern civil society remains in a nascent stage offers a valuable site to seek new answers Through a comparative analysis of nongovernmental organizations NGOs in today s China this study shows the importance of the human factor notably the NGO leadership in the establishment of a modern civil society In particular in recognition of the social nature of NGOs this study engages in a comparative examination of Chinese NGO leaders state linkage media connections and international ties in order to better understand how each factor contributes to effective NGOs

**The New Autocracy** Daniel Treisman, 2018-02-06 Corruption fake news and the informational autocracy sustaining Putin

in power After fading into the background for many years following the collapse of the Soviet Union Russia suddenly has emerged as a new threat at least in the minds of many Westerners But Western assumptions about Russia and in particular about political decision making in Russia tend to be out of date or just plain wrong Under the leadership of Vladimir Putin since 2000 Russia is neither a somewhat reduced version of the Soviet Union nor a classic police state Corruption is prevalent at all levels of government and business but Russia s leaders pursue broader and more complex goals than one would expect in a typical kleptocracy such as those in many developing countries Nor does Russia fit the standard political science model of a competitive authoritarian regime its parliament political parties and other political bodies are neither fakes to fool the West nor forums for bargaining among the elites The result of a two year collaboration between top Russian experts and Western political scholars Autocracy explores the complex roles of Russia s presidency security services parliament media and other actors The authors argue that Putin has created an informational autocracy which relies more on media manipulation than on the comprehensive repression of traditional dictatorships The fake news hackers and trolls that featured in Russia s foreign policy during the 2016 U S presidential election are also favored tools of Putin s domestic regime along with internet restrictions state television and copious in house surveys While these tactics have been successful in the short run the regime that depends on them already shows signs of age over centralization a narrowing of information flows and a reliance on informal fixers to bypass the bureaucracy The regime s challenge will be to continue to block social modernization without undermining the leadership s own capabilities

Social Movements in Post-Communist Europe and Russia Kerstin Jacobsson,Steven Saxonberg,2015-12-22 This volume provides a much needed update on the state of civil society in post communist Europe and Russia more than two decades after the fall of the communist regimes The chapters offer new perspectives on social

movement strategies in post communist Central Eastern Europe and Russia The chapters illustrate how social movements develop particular repertoires of action and contention which are better suited for their specific local contexts in the post communist setting In Russia and Poland the most popular and effective choices are using domestic and transnational legal opportunities judicial activism and litigation that complement the traditional lobbying and mass mobilization Human rights framing has become important in Hungary and the Czech Republic The chapters analyse various types of rights based activism that operate in otherwise prohibitive social and political environments thereby raising highly contentious issues such as animal rights environment and sustainability human rights women s rights and gay rights activism The contributions richly illustrate the often surprising and multiple ways in which transnational discourses and norm pressure are received translated or resisted in the local contexts Finally the volume provides a novel reconceptualisation and offers new understandings of the relationships between the state and civil society in the post communist context This book is based on a special issue of East European Politics

*Civil Society in Central and Eastern Europe* Sabine, 2014-04-15 As well as promoting debates about liberal democracy the dramatic events of 1989 also bought forth a powerful revival in the interest of the notion of civil society This revival was reflected mainly in two broad tracts of literature The first was primarily focused on the events surrounding the Solidarity movement in Poland and the tumultuous events of 1980 81 The second was concerned with the Velvet Revolutions more broadly Following the events of 1989 there appeared a number of works sharing the common central argument that civil society played a key role in the overthrow of these Communist regimes in 1989 Challenging the centrally accepted wisdom that dissent in totalitarian regimes was representative of civil society Civil Society and Communism posits the argument that the totalitarian public sphere a new theoretical typology presents a more robust and rigorous way by which to understand dissent and opposition in totalitarian

Czechoslovakia Poland and the GDR      Social Rights in Russia Eleanor Bindman, 2017-10-16 Russia's human rights record especially violations of the right to life liberty and freedom of expression has been the subject of much international concern Social or welfare rights on the other hand including the right to housing health and access to social security have received much less attention This book explores the changing position in Russia towards such social rights It explores how social rights are defined in Russia and why they are contested and discusses how increasing liberalisation and privatisation have radically changed the very extensive former communist welfare system It considers recent initiatives by both Putin and Medvedev to re-emphasise the role of the state in providing social services and shows how activism to secure social benefits especially at the local level is relatively strong The book concludes by assessing how social rights and welfare are likely to develop in Russia in a world increasingly concerned with austerity and the transformation of citizens into market citizens where attitudes towards social rights remain less than favourable      *Post-Communist Civil Society and the Soviet Legacy* Huseyn Aliyev, 2015-08-11 This book argues that the weakness of civil society in the post-Soviet Caucasus is a result not only of post-communist political and economic problems but also of the effects of historical legacies These influence both formal and informal civil societies and weaken the countries' ability to facilitate democratisation      **Women and Transformation in Russia** Aino Saarinen, Kirsti Ekonen, Valentina Uspenskaia, 2013-11-26 This book looks at Russian women's mobilization and agency during the two periods of transformation the turn of the 19th 20th century and the 20th 21st century Bringing together the parallels between the two great transformations it focuses on both the continuities and breaks and importantly it shows them from the grassroots point of view emphasizing the local factor Chapters show the international and transnational aspects of Russian women's agency of different spheres and different historical periods The book goes on to raise new research questions such as the evaluation and comparison of Soviet society and contemporary Russia from the point of view of gender and women's possibilities in society      **Civil Society Revisited** Kerstin Jacobsson, Elżbieta Korolczuk, 2017-06-01 In much social scientific literature Polish civil society has been portrayed as weak and passive This volume offers a much needed corrective challenging this characterization on both theoretical and empirical grounds and suggesting new ways of conceptualizing civil society to better account for events on the ground as well as global trends such as neoliberalism migration and the renewal of nationalist ideologies Focusing on forms of collective action that researchers have tended to overlook the studies gathered here show how public discourse legitimizes certain claims and political actions as true civil society while others are too often dismissed Taken together they critique a model of civil society that is made from above      **Politics Russia** Catherine Danks, 2014-01-14 *Politics Russia* provides the most comprehensive accessible and up to date introduction to all aspects of the political development of Russia in the post-communist era Writing with the undergraduate student specifically in mind Danks' fluent style and masterly grasp of complex material will make this an indispensable guide for many years to come Divided into five sections *Politics Russia* maps a clear path towards an
