Modernity, Domesticity and Temporality in Russia Rebecca Friedman, 2020-07-09 Revolution war dislocation famine and rivers of blood these traumas dominated everyday life at turn of the century Russia As *Modernity Domesticity and Temporality in Russia* explains amidst such public turmoil Russians turned inwards embracing and carefully curating the home in an effort to express both personal and national identities From the nostalgic landed estate with its backward gaze to the present focused and efficient urban apartment to the utopian communal dreams of a Soviet future the idea of time was deeply embedded in Russian domestic life Rebecca Friedman is the first to weave together these twin concepts of time and space in relation to Russian culture and in doing so this book reveals how the revolutionary domestic experiments reflected a desire by the state and by individuals to control the rapidly changing landscape of modern Russia Drawing on extensive popular and literary sources both visual and textual this fascinating book enables readers to understand the reshaping of Russian space and time as part of a larger revolutionary drive to eradicate however ambivalently the 19th century gentrified sloth in favour of the proficient Soviet comrade

Reform in Modern Russian History Theodore Taranovski, Peggy McNerny, 1995-01-27 This volume provides a comparative study of the problems and prospects of reform in modern Russian history Drawn from contributions to a May 1990 conference sponsored by the Kennan Institute for Advanced Russian Studies the book raises important methodological and historiographic questions regarding the content scope and significance of various reform efforts ranging from the Great Reforms of tsar Alexander II to attempts to salvage the Soviet system undertaken by Khrushchev and Gorbachev One of the key issues raised is whether various attempts to modernise the political and social system were a series of cyclical failures or demonstrate a pattern of progressive development Reform in Modern

Russian History favours the second mode of interpretation and provides an excellent background for all who want to understand the Gorbachev era and contemporary Russian politics *The Policy-Making Process and Social Learning in Russia* Marina Khmel'nitskaya, 2016-04-29 Centering its study around three explanatory variables actors institutions and ideas this book argues that Russia's hybrid institutional environment reduces the competition of policy ideas both at the stage of policy elaboration by the community of state and non state policy experts and also at the stage of policy adoption by parliament Hegel's Philosophy of Reality, Freedom, and God Robert M. Wallace, 2005-04-04 Showing the relevance of Hegel's arguments this book discusses both original texts and their interpretations *Stories of House and Home* Christine Varga-Harris, 2016-02-19 *Stories of House and Home* is a social and cultural history of the massive construction campaign that Khrushchev instituted in 1957 to resolve the housing crisis in the Soviet Union and to provide each family its own apartment Decent housing was deemed the key to a healthy productive home life which was essential to the realization of socialist collectivism Drawing on archival materials as well as memoirs fiction and the Soviet press Christine Varga Harris shows how the many aspects of this enormous state initiative from neighborhood planning to interior design sought to alleviate crowded undignified living conditions and sculpt residents into ideal Soviet citizens She also details how individual interests intersected with official objectives for Soviet society during the Thaw a period characterized by both liberalization and vigilance in everyday life Set against the backdrop of the widespread transition from communal to one family living *Stories of House and Home* explores the daily experiences and aspirations of Soviet citizens who were granted new apartments and those who continued to inhabit the old housing stock due to the chronic problems that beset the housing program Varga Harris analyzes the contradictions apparent in heroic advances and seemingly inexplicable delays in construction model apartments boasting modern conveniences and decrepit dwellings happy housewarmings and disappointing moves and new residents and individuals requesting to exchange old apartments She also reveals how Soviet citizens identified with the state and with the broader project of building socialism Meanings and Values of Water in Russian Culture Jane Costlow, Arja Rosenholm, 2016-11-25 Bringing together a team of scholars from the diverse fields of geography literary studies and history this is the first volume to study water as a cultural phenomenon within the Russian Soviet context Water in this context is both a cognitive and cultural construct and a geographical and physical phenomenon representing particular rivers the Volga the Chusovaia in the Urals the Neva and bodies of water from Baikal to sacred springs and the flowing water of nineteenth century estates but also powerful systems of meaning from traditional cultures and those forged in the radical restructuring undertaken in the 1930s Individual chapters explore the polyvalence and contestation of meanings dimensions and values given to water in various times and spaces in Russian history The reservoir of symbolic association is tapped by poets and film makers but also by policy makers the popular press and advertisers seeking to incite reaction or drive sales The volume's emphasis on the cultural dimensions of water will link material that is

often widely disparate in time and space it will also serve as the methodological framework for the analysis undertaken both within chapters and in the editors introduction **Stalinist City Planning** Heather D. DeHaan,2013-01-01 Based on research in previously closed Soviet archives this book sheds light on the formative years of Soviet city planning and on state efforts to consolidate power through cityscape design Stepping away from Moscow s central corridors of power Heather D DeHaan focuses her study on 1930s Nizhnii Novgorod where planners struggled to accommodate the expectations of a Stalinizing state without sacrificing professional authority and power Bridging institutional and cultural history the book brings together a variety of elements of socialism as enacted by planners on a competitive urban stage such as scientific debate the crafting of symbolic landscapes and state campaigns for the development of cultured cities and people By examining how planners and other urban inhabitants experienced lived and struggled with socialism and Stalinism DeHaan offers readers a much broader more complex picture of planning and planners than has been revealed to date Dust jacket **Property in**

A comprehensive guide to Russian architecture this volume is designed for students and other readers wishing to gain an understanding of the subject **Vilnius between Nations, 1795-2000** Theodore R. Weeks,2015-12-04 The inhabitants of Vilnius the present day capital of Lithuania have spoken various languages and professed different religions while living together in relative harmony over the years The city has played a significant role in the history and development of at least

three separate cultures Polish Lithuanian and Jewish and until very recently no single cultural linguistic group composed the clear majority of its population Vilnius between Nations 1795 2000 is the first study to undertake a balanced assessment of this particularly diverse city Theodore Weeks examines Vilnius as a physical entity where people lived worked and died as the object of rhetorical struggles between disparate cultures and as a space where the state attempted to legitimize a specific version of cultural politics through street names monuments and urban planning In investigating these aspects Weeks avoids promoting any one national narrative of the history of the city while acknowledging the importance of national cultures and their opposing myths of the city's identity The story of Vilnius as a multicultural city and the negotiations that allowed several national groups to inhabit a single urban space can provide lessons that are easily applied to other diverse cities This study will appeal to scholars of Eastern Europe urban studies and multiculturalism as well as general readers interested in the region

All Russia Is Burning! Cathy A. Frierson, 2012-11-10 Rural fires were an even more persistent scourge than famine in late imperial Russia as Cathy Frierson shows in this first comprehensive study Destroying almost three billion rubles worth of property in European Russia between 1860 and 1904 accidental and arson fires acted as a brake on Russia's economic development while subjecting peasants to perennial shocks to their physical and emotional condition The fire question captured the attention of educated progressive Russians who came to perceive it as a key obstacle to Russia's becoming a modern society in the European model Using sources ranging from literary representations and newspaper articles to statistical tables and court records Frierson demonstrates the many meanings fire held for both peasants and the educated elite To peasants it was an essential source of light and warmth as well as a destructive force that regularly ignited their cramped villages of wooden thatch roofed huts Absent the rule of law they often used arson to gain justice or revenge or to exert social control over those who would violate village norms Frierson shows that the vast majority of arson cases in European Russia were not peasant against gentry acts of protest but peasant against peasant acts of self help law or plain spite Both the state and individual progressives set out to resolve the fire question and to educate cajole or coerce the peasantry into the modern world Fire insurance building codes scientific village layouts and volunteer firefighting brigades reduced the average number of buildings consumed in each blaze but none of these measures succeeded in curbing the number of fires each year More than anything else this history of fire and arson in rural European Russia is a history of their cultural meanings in the late imperial campaign for modernity Frierson shows the special associations of women with fire in rural life and in elite understanding of fire in the Russian countryside Her study of the fire question demonstrates both peasant agency in fighting fire and educated Russians hardening conviction that peasants stood in the way of Russia's advent into the company of prosperous rational civilized nations

The Oxford Handbook of Communist Visual Cultures Aga Skrodzka, Xiaoning Lu, Katarzyna Marciniak, 2020-04-01 Stereotypes often cast communism as a defunct bankrupt ideology and a relic of the distant past However recent political movements like Europe's anti-austerity protests the Arab Spring and Occupy Wall Street suggest that communism is still very much relevant and may even hold the key to a new idealized future In *The Oxford Handbook of Communist Visual Cultures* contributors trace the legacies of communist ideology in visual culture from buildings and monuments murals and sculpture to recycling campaigns and wall newspapers all of which work to make communism's ideas and values material Contributors work to resist the widespread demonization of communism demystifying its ideals and suggesting that it has visually shaped the modern world in undeniable and complex ways Together contributors answer crucial questions like What can be salvaged and reused from past communist experiments How has communism impacted the cultures of late capitalism And how have histories of communism left behind visual traces of potential utopias An interdisciplinary look at the cultural currency of communism today *The Oxford Handbook of Communist Visual Cultures* demonstrates the value of revisiting the practices of the past to form a better vision of the future
