## **Russian Revolution Problems In Civilization:**

**The Russian Revolution and Civil War 1917-1921** Jonathan Smele, 2006-04-15 The Russian Revolution and Civil War in the years 1917 to 1921 is one of the most widely studied periods in history. It is also somewhat inevitably one that has generated a huge flow of literature in the decades that have passed since the events themselves. However, until now, historians of the revolution have had no dedicated bibliography of the period and little claim to bibliographical control over the literature. *The Russian Revolution and Civil War 1917-1921* offers for the first time a comprehensive bibliographical guide to this crucial and fascinating period of history. The Bibliography focuses on the key years of 1917 to 1921, starting with the February Revolution of 1917 and concluding with the 10th Party Congress of March 1921, and covers all the key events of the intervening years. As such, it identifies these crucial years as something more than simply the creation of a communist state.

**A History of Civilizations** Fernand Braudel, 1995-04-01 Written from a consciously anti-ethnocentric approach, this fascinating work is a survey of the civilizations of the modern world in terms of the broad sweep and continuities of history rather than the event-based technique of most other texts. **Europe, 1890-1945** Stephen J. Lee, 2020-03-27 Europe 1890-1945 is a new approach to teaching and learning early twentieth-century European history at A level. It meets the needs of teachers and students studying for today's revised AS and A2 exams. In a unique style, *Europe 1890-1945* focuses on the key topics within the period. Each topic is then comprehensively explored to provide background information, essay-writing advice, and examples of source work and historical skills exercises. From 1890 to 1945, the key topics featured include the origins and impact of the First World War, the Russian Revolution and the rise of Stalin, the Weimar Republic and the rise of Hitler, Mussolini and Fascist Italy, Stalin and the Soviet Union, 1928-41. **The Russian Revolution of 1917 - Memory and**

**Legacy** Carol S. Leonard, Daniel Orlovsky, Jurej Petrov, 2024-07-30 The way in which the Russian Revolution of October 1917 is regarded and commemorated has changed considerably over time and is a contentious subject well demonstrated by the absence of any official commemoration in Russia in 2017, a huge contrast to the very large celebrations which took place in Soviet times. This book, which brings together a range of leading historians of the Russian Revolution from both Russia and the West, and both younger and older historians, explores the changes in the way in which the October 1917 Revolution is commemorated and also examines fundamental questions about what the Russian Revolution indeed was, what any revolution was, anyway. Among the issues covered are how Soviet and Western historians diverged in their early assessments of what the Revolution achieved, how the period studied by historians has recently extended both much earlier, before 1917, and much later afterwards, and how views of the Revolution within the Soviet Union changed over time from acceptance of the official Communist Party interpretation to more independent viewpoints. Overall, the book provides a major reassessment of one of the twentieth century's most important events. **The Revolt Against Civilization** Lothrop Stoddard, 1922 Written by

racist theorist Lothrop Stoddard, this book advocates eugenics as a response to Communism. *The Origins of the Russian*

*Revolution, 1861-1917* Alan Wood, 2004-06 A concise introduction to the Russian Revolution and its origins dating back to the emancipation of the Russian peasant serfs in 1861 *Catalog of Copyright Entries. Olgin, 1917 Handbook of War Facts and Peace Problems Arthur Lincoln Frothingham, 1919 **On Civilization, Power, and Knowledge** Norbert Elias, 1998-02-17 Norbert Elias has been described as among the great sociologists of the 20th century A collection of his most important writings this book sets out Elias thinking during the course of his long career with a discussion of how his work relates to that of other sociologists **Lenin and the Problem of Marxist Peasant Revolution** Esther Kingston-Mann, 1983-08-25 Examines the evolution of Lenin's thinking on the place of the Russian peasant in theory and in the potential reality of Marxist revolution Recollections of the Russian Revolution

Mikhail Markovich Shneerov,1960      **The Prophet Armed** Isaac Deutscher,2003 This first volume of the trilogy traces Trotsky's political development      *World Civilizations And History Of Human Development* Robert Holton,William Richard Nasson,2009-09-29 World Civilizations and History of Human Development is a component of Encyclopedia of Social Sciences and Humanities in the global Encyclopedia of Life Support Systems EOLSS which is an integrated compendium of twenty Encyclopedias The Theme on World Civilizations and History of Human Development discusses the essential aspects such as Civilizational Analysis A Paradigm in the Making The European Civilizational Constellation A Historical Sociology African Civilizations From the Pre colonial to the Modern Day Industrial Civilization Global Civilization Yesterday Today and Tomorrow Islamic Civilizations War Peace And Civilizations History The Meaning and Role of History in Human Development Role of Human Societies in the History of The Biosphere Environmentalism Role of Gender and Family Identities in Human History Modern Approaches to the Teaching of History Developing Dialogues The Value of Oral History Historical Knowledge Nature and Man Orientations to Historical Time Big History This volume is aimed at the following five major target audiences University and College Students Educators Professional Practitioners Research Personnel and Policy Analysts Managers and Decision Makers NGOs and GOs      **Rethinking the Russian Revolution as Historical Divide** Matthias Neumann,Andy Willimott,2017-11-22 The Russian Revolution of 1917 has often been presented as a complete break with the past with everything which had gone before swept away and all aspects of politics economy and society reformed and made new Recently however historians have increasingly come to question this view discovering that Tsarist Russia was much more entangled in the processes of modernisation and that the new regime contained much more continuity than has previously been acknowledged This book presents new research findings on a range of different aspects of Russian society both showing how there was much change before 1917 and much continuity afterwards and also going beyond this to show that the new Soviet regime established in the 1920s with its vision of the New Soviet Person was in fact based on a complicated mixture of new Soviet thinking and ideas developed before 1917 by a variety of non Bolshevik movements      **From Empire to Eurasia** Sergey Glebov,2017-05-15 The Eurasianist movement was launched in the 1920s by a group of young Russian migrants who had recently emerged from years of fighting and destruction Drawing on the cultural fermentation of Russian modernism in the arts and literature as well as in politics and scholarship the movement sought to reimagine the former imperial space in the wake of Europe's Great War The Eurasianists argued that as an heir to the nomadic empires of the steppes Russia should follow a non European path of development In the context of rising Nazi and Soviet powers the Eurasianists rejected liberal democracy and sought alternatives to Communism and capitalism Deeply connected to the Russian cultural and scholarly milieu Eurasianism played a role in the articulation of the structuralist paradigm in interwar Europe However the movement was not as homogenous as its name may suggest Its founders disagreed on a range of issues and argued bitterly about what weight should be accorded to one or another idea in their overall conception of Eurasia In this first English language history

of the Eurasianist movement based on extensive archival research Sergey Glebov offers a historically grounded critique of the concept of Eurasia by interrogating the context in which it was first used to describe the former Russian Empire This definitive study will appeal to students and scholars of Russian and European history and culture
