Russia's Great Reforms, 1855-1881 Ben Eklof, John Bushnell, Larissa Zakharova, 1994-06-22 The Great Reforms undertaken during the reign of Alexander II represented a unique attempt by the tsarist government to restructure virtually every aspect of Russian life beginning with the emancipation of the serfs and continuing through reforms of local government the judiciary the military education the financial system censorship and other domains This volume the work of an international group of scholars that includes historians from Russia maps out the major landmarks in the conceptualization and implementation of the Great Reforms during the reign of Alexander II and proposes a variety of perspectives from which to view them From publisher's description Russia in the Nineteenth Century Polunov, This is a comprehensive interpretive history of Russia from the defeat of Napoleon to the eve of World War I It is the first such work by a post Soviet Russian scholar to appear in English Drawing on the latest Russian and Western historical scholarship Alexander Polunov examines the decay of the two central institutions of tsarist Russia serfdom and autocracy Polunov explains how the major social groups the gentry merchants petty townspeople peasants and ethnic minorities reacted to the Great Reforms and why despite the emergence of a civil society and capitalist institutions a reformist evolutionary path did not become an alternative to the Revolution of 1917 He provides detailed portraits of many tsarist bureaucrats and political reformers complete with quotations from their writings to explain how the principle of autocracy although significantly weakened by the Great Reforms in mid century reasserted itself under the last two emperors Polunov stresses the relevance for Russians in the post Soviet period of issues that remained unresolved in the pre Revolutionary period such as the question of private property in land and the relationship between state regulation and private initiative in the economy **A History of Russia and Its Empire** Kees Boterbloem, 2018-06-26 This clear and focused text provides an introduction to imperial Russian and Soviet history from the crowning of Mikhail Romanov in 1613 to Vladimir Putin's new term Through a consistent chronological narrative Kees Boterbloem considers the political military economic social religious and cultural developments and crucial turning points that led Russia from an exotic backwater to superpower stature in the twentieth century The author assesses the tremendous price paid by those who made Russia and the Soviet Union into such a hegemonic power both locally and globally He considers the complex and varied interactions between Russians and non Russians and investigates the reasons for the remarkable longevity of this last of the colonial powers whose dependencies were not granted independence until 1991 He explores the ongoing legacies of this fraught decolonization process on the Russian Federation itself and on the other states that succeeded the Soviet Union The only text designed and written specifically for a one semester course on this four hundred year period it will appeal to all readers interested in learning more about the history of the people who have inhabited one sixth of the earth's landmass for centuries **Imperial Russia** Jane Burbank, David L.
