Media in Motion Elisabeth Eide, 2016-04-29 Owing to increased migration dating from the 1990s Nordic countries have gone through substantial cultural and social changes resulting in increased debate surrounding the politics of multiculturalism. One of the central realms of the discussion around multiculturalism in the Nordic region concerns the media which is considered to be a vital factor in the construction of society's values as well as an essential tool in the integration process of migrants providing as it does a symbolic arena for learning about and becoming part of society. This collection draws together the latest research from Denmark, Finland, Norway and Sweden to look at different aspects of the relationship between media and migration in the Nordic region. Exploring the role played by the media in nation building and the power of the media in the definition of who belongs in society. Media in Motion examines the practices of inclusion and exclusion that characterise mainstream media representations. The book also examines the manner in which recent technological changes suggest the emergence of a transnational and cosmopolitan media landscape a space which blurs the boundaries of the national and transnational as well as between the public and the private with significant implications for the ways migrants may take and become part of society. As such it will be of interest to those working in the fields of media, race and ethnicity, colonialism and postcolonial studies and migration.

Koko illan ilo? Heikki Hellman, 2012-04-04 Channel Three will entertain you when television gets too serious the new entrant in Finland's broadcast television announced proudly at its launch in 1986. Channel Three was the first fully commercial television channel in the Nordic countries founded

and owned by a group of odd bedfellows the public broadcaster YLE its long standing commercial companion MTV and a growing electronics giant Nokia The plans to start a commercial TV station were first severely opposed by leading politicians but it was finally approved as a means to fight back international satellite channels and the efforts of major newspaper companies to enter the television market Drawing from media policy studies and based on archive documents contemporary media coverage and interviews of the main actors the book provides a thorough analysis of the stages of Channel Three indicating how it despite its short lifespan contributed profoundly to the commercialization and marketization of television in Finland *Finnish Mass Media* Tuomo Sauri,1994
