The Late Medieval Hebrew Book in the Western Mediterranean Javier del Barco,2015-09-29 This collection takes the Hebrew book as a focal point for exploring the production circulation transmission and consumption of Hebrew texts in the cultural context of the late medieval western Mediterranean The authors elaborate in particular on questions concerning private vs public book production and collection the religious and cultural components of manuscript patronage collaboration between Christian and Jewish scribes artists and printers and the impact of printing on Iberian Jewish communities Unlike other approaches that take context into consideration merely to explain certain variations in the history of the Hebrew book from antiquity to the present the premise of these essays is that context constitutes the basis for understanding practices and processes in late medieval Jewish book culture

Text and Transmission in Medieval Europe Chris Bishop, 2008-12-18 Scholars of the Middle Ages are familiar with the notion of text as an inscribed document whether that inscription occurs upon stone metal vellum or textiles but the concept of inscription and therefore of text can be extended to cover a range of evidence Thus one might speak of archaeological remains land use patterns traditional stories remnant practices and revenant beliefs as constituting texts in their own right Broadly defined then text is the means by which we engage with the historical subject The medievalist however faces particular constraints in interpreting these texts through the agencies of their transmission Questions such as who authored these texts when and why intersect with problems of transcription translation and redaction to inform a complex discourse The majority of the chapters in this book started life as papers presented at a conference entitled Text and Transmission in Early Medieval Europe and the title of this book ultimately derives from that theme The subjects these chapters deal with range in geography from Ireland through to Byzantium and cover almost a millennium of European history but they are united in their effort to prise from their subjects some truths about texts transmission and the critical literacies needed to interpret both

The Cambridge History of Judaism: Volume 6, The Middle Ages: The Christian World Robert Chazan, 2018-10-31 Volume 6 examines the history of Judaism during the second half of the Middle Ages Through the first half of the Middle Ages the Jewish communities of western Christendom lagged well behind those of eastern Christendom and the even more impressive Jewries of the Islamic world As Western Christendom

began its remarkable surge forward in the eleventh century this progress had an impact on the Jewish minority as well The older Jewries of southern Europe grew and became more productive in every sense Even more strikingly a new set of Jewries were created across northern Europe when this undeveloped area was strengthened demographically economically militarily and culturally From the smallest and weakest of the world s Jewish centers in the year 1000 the Jewish communities of western Christendom emerged despite considerable obstacles as the world s dominant Jewish center by the end of the Middle Ages This demographic economic cultural and spiritual dominance was maintained down into modernity

Out of Bounds Pamela A. Patton, Maria Alessia Rossi, 2023-10-03 Where are the limits of medieval art as a field of study What happens when conventionally trained art

historians disregard the chronological geographical or cultural parameters that both direct and protect their scholarship Beginning with Thelma K Thomas and Alicia Walker s acute assessment of the need for a medieval art history for now the essays in Out of Bounds ask what happens when the study of medieval art disregards boundaries that it once obeyed The volume focuses on questions surrounding the production of knowledge and on how scholarly investigation beyond the conventional thematic boundaries of medieval art history is changing demonstrating how the field can address the ethics of scholarship today by positing a global turn in response to growing demands for socially responsible medieval studies Collectively the contributors demonstrate how going out of bounds can transform modern understanding of the people traditions and relationships that gave rise to medieval works As such this book argues for the necessity of reshaping scholarly discourse about the nature and significance of medieval art and generates fresh scholarly interpretations and important new critical tools for teaching and researching the Middle Ages The contributors to this volume are Suzanne Conklin Akbari Michele Bacci Jill Caskey Eva Frojmovic Sarah M Gu rin Christina Maranci Alice Isabella Sullivan Thelma K Thomas Michele Tomasi and Alicia Walker

People of the Image Marc Michael Epstein, 2025-06-24 The Middle Ages provide us with one of the richest repositories of art in the West Yet the rise in the production of art made for and by Jews especially in the form of illuminated manuscripts is often neglected in general surveys or viewed as a mere emulation of Christian art during this period In People of the Image Marc Michael Epstein demonstrates how medieval Jews transformed their visual art into a vital site of critical commentary Through bold speculation and radical interpretation Epstein considers how viewers might have empathized with depicted emotions how they envisioned the relationship between the monstrous and the human and how they could effectively perpetrate subversive acts merely by anticipating what might occur next in a given image were it to be set in motion Examining these artworks and imagining the circumstances of their production and reception Epstein uncovers otherwise inaccessible social political and theological perceptions among Europe s major medieval minority He goes on to illuminate the afterlives of medieval Jewish art in its reimaginings by postmodern Jews struggling to establish a conceptual as well as a political space for themselves as a minority in majority Christian society Bringing together diverse currents from various fields and bodies of literature People of the Image reveals how medieval Jews understood themselves the world and God Provocative and engagingly written the book will appeal to audiences across medieval studies cultural studies art history and Jewish studies
