Davis,2021-10-25 Over the past fifty years transformations of great moment have taken place in South Africa Apartheid and the subsequent transition to a democratic non racial society in particular have exercised a profound effect on the practice of literature This study traces the development of literature under apartheid then seeks to identify the ways in which writers and theatre practitioners are now facing the challenges of a new social order The main focus is on the work of black writers prime among them Matsemela Manaka Mtutuzeli Matshoba and Richard Rive who as politically committed members of the oppressed majority bore witness to the black experience through their writing Despite the draconian censorship system they were able to address the social problems caused by racial discrimination in all areas of life particularly through forced removals the migrant labour system and the creation of the homelands Their writing may be read both as a comprehensive record of everyday life under apartheid and as an alternative cultural history of South Africa Particular attention is paid to theatre as a barometer of social change in South Africa The concluding chapters consider how in the current period of transition writers and arts institutions have set about reassessing their priorities redefining their function and seeking new aesthetic directions in taking up the challenge of imagining a new society **The Cambridge History of South African Literature** David Attwell,Derek Attridge,2012-01-12 South Africa s unique history has produced literatures in many languages in both oral and written forms reflecting the diversity in the cultural histories and experiences of its people The Cambridge History offers a comprehensive multi authored history of South African literature in all eleven official languages and more minor ones of the country produced by a team of over forty international experts including contributors from all of the major regions and language groups of South Africa It will provide a complete portrait of South Africa s literary production organised as a chronological history from the oral traditions existing before colonial settlement to the post apartheid revision of the past In a field marked by controversy this volume is more fully representative than any existing account of South Africa s literary history It will make a unique contribution to Commonwealth international and postcolonial studies and serve as a definitive reference work for decades to come *Skin Tight* Louise Bethlehem,2021-11-15 *Skin Tight* Apartheid Literary Culture and its Aftermath traces the responses to the emergent paradigm of South African literary studies from the 1970s onwards Embedded in the influential critical texts of the field it claims are hidden narratives of land race gender desire and embodiment This volume explores these submerged dimension s of South African literary history and the influence they continue to exert well into the post apartheid era It suggests that

significant continuities exist between late apartheid and post apartheid literary culture and positions these against the interpretive horizon of South Africa's Truth and Reconciliation Commission
